宏利 Manulife

宏利是加拿大的保險公司，在港開業超過百年，背景雄厚，信譽超著，獲標準普爾AA+評級。1998年，宏利更成為香港首家取得ISO9002認可標準的公積金供應商。

公積金及團體保險銷售冠軍隊伍

歡迎您！

強制性公積金將於12月執行，估計全港會有三十萬間公司需成立強積金計劃，而強制性醫療保險有關的討論亦進行得如火如荼。

宏利在港擁有超過百年歷史，我們協助客戶成立僱員福利計劃亦有超過六十年經驗。現時是我們全力推廣強積金及團體醫療計劃的高峰期，而宏利的龍子明分區更是連續四年蟬聯公司公積金及團體醫療計劃的銷售冠軍。在此種種有利因素之下，正是您創立保險事業的黃金機會！

您有志成為我們成功團隊的一份子嗎？若您具備以下的條件*，我們誠意邀請您加入。

*有志者需具備中學畢業（大學畢業者優先考慮）及有三年工作經驗。

查詢請與宏利龍子明分區甘小姐聯絡，
電話：2735 5935　　傳真：2735 5035

理想事業及前途，盡在您掌握。請抓緊機會，加入我們的保險行銷行列。

Message From National President

The day is as brilliant today as I was when I planned for what the new millennium would bring to Hong Kong Junior Chamber, shared our joys and aspirations about the year 2000.

This is the right and good time for me to conclude what we have achieved in year 2000. Year 2000 is a very significant and special year for Hong Kong Junior Chamber because of the new millennium and 50th anniversary. In fact, year 2000 is a challenging moment to non-government organizations which often face with membership drop problem. Thanks to our members' dedication, Hong Kong Junior Chamber can maintain a steady membership in this year.

National President
Senator Spencer Li

For the past twelve months, I have encountered numerous challenges and difficulties arising from JC matters and movement. Without our board of directors and local chapters' support, we cannot realize our dream. Tears and joy, friendship, hectic, and frustration always come to me at all times. Our members make this world of ours a better place to live. They have the gift of courage, integrity, the gift of loyalty or kindness, enthusiasm or energy to serve. I highly appreciate our most invaluable resources, MEMBERS who work with us hand in hand to achieve our common goals.

Now, let us to review what we have done for our organization and community in year 2000!

With the relevant theme. The Spirit of Collaboration, the Sapporo Congress offered JC a unique blend of meetings, training and fellowship for seven exciting days. Over 70 Hong Kong delegates experienced a kaleidoscope of glittering ceremonies, national parties, gourmet cuisine and fine wines, against the magic of Sapporo and Japan. Beyond the excitement of being part of the first JCI World Congress of the new century, it entered the new climax when our NOM has received four awards - Public Relations Award Individual Development Award, NOM to NOM Assistant Award, Most Outstanding NOM in Asia B.

After eight months of preparation, the Ten Outstanding Young Persons Selection came to a new height when Guest of Honor Ms. Regina Ip, JP Secretary for Security presented the trophies to ten awardees on November 25, 2000. A lot of press coverage were received in this year.

This year, Hong Kong Junior Chamber continue to organize. "Digital 21 Power for Youth" together Hong Kong Productivity Council and Information Technology and Services Department second time. The project included seminars, training courses, New World Mobility M-Commerce Application Award and Ten Outstanding Young Digi Persons Selection.

Besides our members' commitment on JC movement, we have successfully organized 50th Anniversary Ball which attracted 33 past national presidents, senators, senior members, members and guests to salute our contribution to the community and to create the future for us.

It is glad that we have successfully co-organized more than twenty projects with other government, organization and associations. Our members have proved to be capable and young leaders. Just to name a few great projects like. "Future Young Leaders' Forum" attracting more than 2,000 secondary school students. "Summer Youth Programme" with Home Affairs Department. "International Year of Volunteers" with Agency for Volunteer Services, "IT Seminars" with Hong Kong Computer Society and Overseas Graduate Association, etc.

This is a special and sad time as I write my last Harbour Light message to you. But it is also a happy moment in many parts of the world, as we are about to celebrate Christmas and New Year. It's time for reflection on the year past the achievements that make us proud, the not-quite achieved that remains to be resolved. What has been so incredibly important this year has been your attitude and your desire to move our organization up to the next level of excellence.

On behalf of NOM, wish you to be a happier and healthier JC forever. Cheers for 2000.

Spencer Li
2000 National President
Hong Kong Junior Chamber

Those were the days... 1950-1969

1969

- Peninsula Jaycees, the first Chinese Speaking Chapter, was formed and affiliated with the Hong Kong Junior Chamber of Commerce.

- Towards the end of the year, Hong Kong Jayceettes, the first all lady Chapter, was formed and affiliated with Hong Kong Junior Chamber of Commerce.

1967

- The newsletter of Hong Kong Junior Chamber of Commerce was reborn in the form of new official National Journal – "Harbour Lights".

- The first National Convention was held in 1967 by Island Jaycees at the Club Lusitano.

1966

- An EGM of Hong Kong Junior Chamber of Commerce was held to change their name to Victoria Junior Chamber of Commerce. A national organization using the original name of Hong Kong Junior Chamber of Commerce was formed.
- Island Jaycees, the third local Chapter was established and affiliated to the Hong Kong Junior Chamber of Commerce.

1965

- Kowloon Jaycees was formed and then existing members of Hong Kong Junior Chamber of Commerce later called themselves Victoria Jaycees. Hong Kong Junior Chamber of Commerce then became the National Organization of two LOMs as mentioned above.

1962

- The 17th World Congress of Junior Chamber International was hosted by Hong Kong Jaycees. The surplus of the Congress was put into investment under the management of the Board of Trustees.

1956

- Senator A. de O. Sales was the JCI World President.

1950

- 1st JCI Regional Conference for Asia was held on February 15, 1951 in Hong Kong.
- The board of directors of 1951-1952.

Standing : HENRY EU (Director) JACK DASWANI (Director) ROBERT LIM (Director) EDWARD TAN (Director) HENRY HOWELL (Director)

Seated : PAUL LIM (Hon Treasurer) A DE O SALES (Vice President) J S LEE (President) HAROLD BRUCE (Hon Secretary)

Supplement

Tai Ping Shan Jaycees was formed in 1978 and the inauguration was held at Furama Hotel.

National Convention

The 35th National Convention of Hong Kong Junior Chamber has come to a close. We are ecstatic to report a total registration of 380. My warmest appreciation should go to all of you, JCs and guests alike - your unfailing support is what makes this such a successful and memorable convention.

"Techvolution – Making IT Happen" is the theme for the 2000 National Convention. AT the dawn of the new millennium and the blossoming of the digital age, this could not be a more appropriate time for JCs to gather and examine the implications of the technological revolution around us. The Convention theme has been made abundantly evident over the last three days through seminars and guest speakers and our special guest "Mr. Robot".

This year's National Convention is not only focused on technology; it also includes all the traditional events that all JCs come to expect at their National Convention. Participants has found valuable insights through sharing experience, innovative ideas, leading edge thinking and concepts presented at the Theme Seminars, Training Seminars and JC Opportunity Forum.

The opening of the Convention sparked off with our Guest of Honour Mr. Lam Woon Kwong JP, Secretary for Home Affairs igniting the "cyber ball" one of the spectacular events for this year National Convention is the attendance and support of overseas JCs delegate. JCs from Japan and Korea have hosted International Nights on the first Convention Day and showed us all the hospitality these two fascinating cultures have to offer.

The JC Opportunity Forum is another noteworthy event that our 35th National Convention should boast. Three of our Past National Presidents PNP Alexander Tzang, PNP Junia Ho and PNP George Lung have shared with us their valuable views on the performance of our organization in the past one year and their outlook on the future development of the HKJC.

To sum up, it is indeed a great personal honour to be the Convention Director of the 35th National Convention. Organizing a three day event involving hundreds of people across multiple venues is no doubt demanding, but the Convention Organising Committee and myself have thoroughly enjoyed the experience. It is by far one of the most gratifying experience in my JC life. Taking this opportunity, I would like to salute the Organizing Committee, Dragon JC, helpers and volunteers for their total commitment hardwork and contribution over the last 12 months to make this event a success. My sincere gratitude also goes to Supervising Officers National General Legal Counsel Michelle, National Secretary General Brenda and most important my two advisors on chapter level Bassanio and on National Level, PNP Junia for their patience, guidance and counsel over the past 12 very hectic months. I would also like to thank all the National Officers and Chapter Presidents for their continued support.

Lat but not the least, without the outstanding team spirit and can do attitude demonstrated by all concerned, none of this would be possible even with the help of technology!

Wish Lion Rock Junior Chamber another successful convention in 2001.

With my best wishes

Arthur Lui
Convention Director

Ten Outstanding Young Persons Selection 2000

The Announcement Press Conference was held on October 22, 2000 at HKCEC. "TEN" were selected as the Outstanding Young Persons which was a record since 1994.

The ginmick of "sailing junks" demonstrated the awardee's personal goal and their commitment to Hong Kong in the future after being awarded.

2000年度十大傑出青年得獎者簡介

	得獎者	界別	提名人
1.	陳兆焯先生 Mr. Chan Siu-Cheuk	公共及社會服務界 Civic & Social Services	杜枝生博士 Dr. To C. S., David
2.	范瑩孫醫生 Dr. Fan Yun Sun, Susan	專業工作 Professionals	林順潮醫生 Dr. Lam Shun Chiu, Dennis
3.	孔美琪女士 Ms. Koong May-Kay, Maggie	專業工作 Professionals	何淑賢太平紳士 Ms. Ho S. Y., Junia, JP

5.	羅健中先生 Mr. Law Kin Chung, Christopher	專業工作 Professionals	布路斯先生 Mr. Patrick Philip Bruce
6.	梁美芬博士 Dr. Leung Mei Fun, Priscilla	專業工作 Professionals	梁振英先生 Mr. Leung Chun Ying
7.	盧煜明醫生 Dr. Lo Yuk Ming, Dennis	專業工作 Professionals	楊重光教授 Professor Yeung Chung-Kwong
8.	吳長勝先生 Mr. Ng Cheung Shing	工商界 Commence & Industry	葉景文先生 Mr. Ip King Man
9.	吳小清小姐 Ms. Ng Siu Ching	康體 Sports	容永祺先生 Mr. Yung Wing Ki, Samuel
10.	倪文玲女士 Ms. Ngai Man Lin, Maline	康體 Sports	鍾惠玲博士 Dr. Chung Wai Ling, Margaret

The Awards Presentation Banquet was held successfully at Banquet Ballroom at HKCEC on November 25, 2000. We are pleased to have Mrs. Regina Ip, Secretary for Security, HKSAR as our Guest of Honor.

The ten awardees were being recognized and awarded at the Awards Presentation Banquet.

Photos taken with 10 awardees and different parties at the cocktail (middle) Guest of Honor, Mrs. Regina Ip & Chief Judge, The Hon. Dr. Rosanna Wong

(2nd left) National President Spencer Li
(2nd right) Judging member, Mr. Andrew Sheng
(3rd & 4th right) National Immediate Past President Louise Chan & Chairman Emily Au Yeung

National President Spencer Li and Chairman Emily showed appreciation to Sole Sponsor, Selection Consultant and judge during the awards presentation.

The Ten awardees have a wonderful performance during the Banquet.

The street interview was a new try to the project which have received excellent feedback from the public.

The high team spirit of the organizing committee brings good results to the project.

The TOYP Selection 2000 definitely not be a success without the support rendered from all general members, either new or old, associate, general or prospective. Here, our whole Organizing Committee would like to extend our GREATEST THANKS TO ALL OF YOU!

SEE YOU ALL NEXT YEAR!

Emily Au Yeung
Chairman of Ten Outstanding Young Persons Selection 2000

Community Concerns Group 2000 Policy Address Discussion Forum

Following the delivery of the 2000 Policy Address by the SAR's Chief Executive, Tung Chee Hwa, in the Legislative Council on October 11, the Community Concern Group organised a discussion forum inviting guest speakers, Dr. Leong Che Hung, JP, Mr. David Lan, GBS, JP, Mr.Tik Chi Yuen and Mr. Shih Wing Ching to share their views with our members on October 14.

With 37 attendees attended the forum, the forum was also reported by Wen Wei Po, Cyberpost and Hong Kong Globe.

Our guest moderator, Past President Justin Lui, started the discussion with three highlighted areas: "Education Reform, Poverty and Governance issues". He also appraised the new insertion of a "Society Policy" statement in this 4th Policy Address and the section 74 which closely tied with the missions of Hong Kong Junior Chamber as it had specifically encouraged "young leaders development and more involvement in community affairs".

When one of the press reporters asked our ranking of this Policy Address, National

President Spencer commented "Though no survey had been done amongst our members, I would personally feel satisfied with it and rank a little bit above passing mark". Past President Justin would rank 80 to 90 marks for the following three main strategies as they coincided with Junior Chamber's objectives for the past 50 years:

1) Committed to free enterprise;
2) Develop our future leaders;
3) Let young adults play bigger role in community affairs.

Medical Reform

Dr. Leong Che Hung questioned that there was a lack of full picture and time schedule of medical reform in the Policy Address. "Over the past ten years, no real reform had come out yet though bits and pieces were launched. Up to now, the Government still has not clearly let us know 'for whom and for what the highly subsidised public medical service are?' The continuation of limited resources but unlimited services would eventually lead the medical system to a breakdown." The delay in the delivery of Medical Reform Paper since the Harvard Medical Consultation Paper in 1998 was unexplained. Though the Policy Address saying that it will come out soon, Dr. Leong urged that the Government should clarify the above question and provide a full view policy.

Governance

Dr. Leong pointed out that the reform in entire governance structure is more important than the question of when will the Legislative Council be fully elected, especially the structure of executive system and how can the roles of Legco actually function under the Basic Law. Mr. Lan agreed that Government principal officials at the rank of Secretaries and Directors of Bureaux should be politically accountable for their work. However the implementation should be carefully examined and launched with suitable arrangements made under the current long established public servant system. Timing of implementation, opportunity of turn down and step down, and succession arrangement are the various issues that need to be addressed to. Whereas Mr. Tik viewed that examination of accountability may not solve the fundamental problem i.e. Government Recognition by the community. He raised the problem that if the government is not chosen by the community, then how can the public recognise the policy implementation and performance of the government officials.

Education Reform

Mr. Tik highly appraised the Hon. Tung Chee Hwa for his long term policy on Education especially, the $20 billion new money on education work, the increase in teacher-pupil ratio to 1:15 in Kindergartens, $50 million to support parent education, and the continuous long term policy on tertiary education. When asking about the quality versus quantity in Education, Mr. Tik believed that the reform is now working towards both quality and quantity and that by solving some basic classroom and course design problems, more flexible and more variety teaching methods should be able to improve the quality and expand the quantity at the same time. Mr. Shih pointed out that education problem is not the problem of government but that of oneself and determined by economic development. He inclined to have more private schools and more variety of suppliers to strike equilibrium of quality and quantity instead of government-structured outcome. Mr. Lan also mentioned that he observed a keen competition force coming from Shanghai, our mainland China. At there, the education system and levels are now very up-to-date and comprehensive, young generation are well trained. The Education Reform in Hong Kong would have long-term effect on our competitive powers.

Social Policy and Poverty

Mr. Shih quoted and highly agreed with our JCI creed "Economic Justice can best be won by free man through free enterprise". He believed that Government should not interfer nor play an active role in most social issues and that if the Government does too much, there would be easily a waste of resources. He quoted the instance of failing property market in Hong Kong. With the various government interference in the property market, half of housing supply was from Government whereas the private supply sector was heavily regulated and controlled. He also believed that the government or any political party couldn't solve the poverty problem since there was no actual solution found in history in any nations so far. He totally agreed with "Serving the Community" but strongly against "Sharing Common Goals". Mr. Shih inclined to let people to face the competition and environmental changes by themselves, look for a community having more variety and a government doing as less as possible.

The forum ended following questions and discussions from our members. I trust they enjoyed the sharing very much. Taking this opportunity, we would like to extend our great gratitude to thank the support from all members and especially, our Commission Advisor, Past President Senator Justin, for his masterly skill in the Forum.

Reported by Community Concern Group Chairman
Eliza Pang

Leadership Development

Executive Development Programme III

GOODBYE! EDP

The last Executive Development Programme (EDP) in this Millennium was held on 3 December 2000 at City University of Hong Kong. With National Immediate Past President Senator Louise Chan and Training and Development Committee Chairman Senator Tony Chan talked about effective meeting skills, this program attracted total 112 participants. All of us enjoyed a delicious lunch and also shared with other chapter's executives in Joint Directors Meeting during afternoon session.

Since the executive training program will be re-structured in 2001, we will not have EDP anymore. The Organizing Committee would like to thank for all participants' support to the event and, on behalf of all participants, to say "Good-bye! EDP".

Felix Cheng
EDP III Chairman

Team Identity Award goes to Lion Rock Junior Chamber

▲ Let's have a group photo - the first in EDP and also the last in EDP

5 Star Program II

Goal Setting, Time Management, Project Management, Presentation Skill and Communication Skill formed the content of 5-Star Program. It was successful held again on October 28-29, 2000. The participants would practice these skills not only in the JC circle but also in the daily life especially in the work. If you miss the workshop, make sure you will join it in the coming year. I am sure you will find it very useful. I like to take this opportunity to thank Head Coach Joseph Ho and Coaches Matrena Chan, Stella Yau, Rebecca To, Betty Chan, Ocean Wong and Andrea Suen for their unfailing support in the program.

Patrick Au Yeung
National Leadership Development Director

Digi 21

▼ Guest of Honor, co-organizer, sponsor and all awardees creating a memorable picture.

▲ More than 30 JC Members participated in the Award Banquet.

"Digital 21 Power for Youth 2000"

▲ Perfect match of Master of Ceremony, Mr. Tse & Ms. Pang from RTHK.

was a campaign to enhance the awareness, interest and encourage adaptation of the growing influence of information technology. It was organized by Hong Kong Junior Chamber (HKJC), Hong Kong Productivity Council (HKPC), and co-organized by the Information Technology Services Department (ITSD) of the HKSAR Government.

The campaign consisted of two selections, namely the "Ten Outstanding Young Digi Persons Selection" and the "New World Mobility M-Commerce Application Award".

The **"Ten Outstanding Young Digi Persons Selection"**, jointly organized by HKJC and HKPC, honored young persons who had contributed to the well being of the society through their own IT related practices. It aimed to deepen the IT and E-Commerce knowledge among the youth. It was also the perfect occasion for aspiring young entrepreneurs to demonstrate their business flair and technological skills.

This year seven outstanding young digi persons had been selected by the Judging Panel, which was led by the President of the Hong Kong Polytechnic University, Professor Poon Chung-Kwong. They were:

Mr. Ng Chi Shing, Daniel
Mr. Ng Cheung Shing
Mr. Ng Kit Chong, Johnny
Mr. Leung Kong Chung
Mr. Leung King Man
Dr. Chan Kim Chung, Daniel
Mr. Lau Tak Wah, Andy

Riding on the success of last year, when the campaign clicked on "E-Business", the "Digital 21 Power for Youth 2000" campaign was set to empower the youth of Hong Kong with another key concept for the new century – M-Commerce. Combining total mobility with the greatest possible connectivity, M-Commerce leveraged on data network technologies that would eventually liberate the whole business world.

The objective of the **"New world Mobility M-Commerce Application Award"** was to encourage individual's exercise their imagination to conceive creative applications of mobile-commerce. Pioneer developers in M-Commerce technologies, providing candidates with the latest information to facilitate their creation, had presented a series of seminar and training courses.

Finally, three awards had been selected by the Judging Panel, which was led by the Postmaster General of Hong Kong Post, Mr. P.C. Luk, JP. They are:

M-Innovation Award : Mr. Wong Chi Man
M-Life Award : Mr. Leung Hong Chung
M-Opportunity Award : Mr. Lau Chiu Pui

◀ Chairman Bowen Wong presented sourenior to one of the speeker in the seminar from Bank of East Asia.

National President Spencer Li ▶ presented the souvenir to Guest of Honor Mr. K.H. Lau, JP, Director of ITSD, HKSAR.

▲ NP spencer was giving his speech during the opening of M-Commerce Seminar.

◀ More than 150 participtarts joined the opening cermory of "Digital 21 Power for Youth 2000".

Audience was asking quertion during the seminar of M-Commerce. ▶

▼ Judging panel of TOYDP.

This year was the first year we had award banquet. The Presentation Banquet was held successfully on November 30, 2000 with over 180 attendants. GOH was Mr. K.H. Lau JP, Director of ITSD, HKSAR. Many judges and guests had joined the banquet including Dr. Peter Lo, CEO of Science Park, Legislative Counselor Hon Sin Chung Kai, etc. The program on that night ran very smooth and we had excellent feedback from all the guests especially Mr. K.H. Lau JP and Mr. Thomas Leung, our major sponsor, New World Mobility, who showed great appreciation on our efforts in organizing the project. Many press and media reported this event such as Ming Pao, Hong Kong Economics Times, Apple Daily and Internet Magazine.. RTHK had also arranged series of interviews with all the TOYDPs on the radio program on each Saturday afternoon. The status of TOYDP had been confirmed TVB also interviewed some of the TOYDP during their program about IT development.

The "Digital 21 Power for Youth 2000" campaign aims to empower the youth with a sense of mission to get them geared up for the challenges, and opportunities awaiting for them in Hong Kong and the world. I would like to take this opportunity to extend my thanks to the support rendered to me from the National Board, especially NP Senator Spencer Li, my supervising officer NEVP Duncan Tai, NVP Radius Lai for their guidance and advice throughout the past 4 months. Last, but not the least, my appreciation should go to my Organizing Committee members, especially sub-committee chairmen, Benny Lam and Thomas Kan, for their utmost efforts to achieve the success with me together.

Bowen Wong
Chairman of "Digital 21 Power for Youth 2000"

Tips Of This Issue

HOW TO CREATE SIMULATIONS

Adapted from an article by Michael Hillinger, published in Training & Development, August 1998

Re-purposing instructional content carefully combining text, diagrams, and video into a multimedia version is one way to add value to existing learning materials. But sometimes, the new version looks a lot like the original text version. Text is an excellent way to convey complex information, but let's face it: a better strategy is to shift the information burden to graphics.

For example, why just read about how diagram parts fit together when you can assemble and disassemble them (virtually) on your computer screen? If you use authoring software, you can add underactivity to graphics. Here are some techniques:

1. Linking actions

Virtual controls can make things happen. You can create realistic switches, knobs, controls, and other tools that respond to your mouse movements so you can flip switches, turn knobs, and adjust controls. You can also link animation and video sequences to graphic controls.

For instance, a simulated open/close switch can control an animated sequence showing a valve opening. When you use your mouse to move the switch to open, the animation runs forward and shows the valve opening. When the switch is moved to close, the same sequence runs in reverse and the valve closes. You can control the starting and ending animation frames to open the valve at the half, three-quarter, or any position that a single frame exists.

2. Moving visual objects

Most people are familiar with dragging and dropping on-screen objects. It adds realism to Solitaire, for example. Dragging and dropping can also make some graphics easier to understand. Remember the holiday struggle with toys that had "some assembly required?" Those diagrams (called "exploded diagrams") can be so hard to understand. Instead of using an exploded diagram, you can re-edit an image into a collection of separate graphics, one for each diagram part. Then, you can drag and drop each part on the screen, assembling and disassembling the

parts to better understand how they all fit together. When you have multiple views of an object, you can display them as one image that can be turned or rotated to visualize a two-dimensional image as a three-dimensional object.

3. Embedding information

Another way to add underactivity to graphics is to create simulated sensors to show hidden information. For example, you can create a simulated:

A. Thermometer sensor to display embedded body temperature readings.
B. X-ray sensor to reveal skeletal images
C. Stethoscope sensor to examine the chest
D. Caliper sensor to measure body fat

Here is how to simulate a body-fat measurement exercise:

a. Using an anatomy graphic, identify skin-fold measuring sites, for example, to the right of the navel and on the right front thigh.
b. Create text labels with authoring software, for example, 16mm and 22mm. Then position them on the two measuring sites and make them invisible.
c. Next, create a caliper image that can be dragged with a mouse. The script senses when the simulated caliper is over a label and displays the hidden text.

You can embed dozens of text labels in a graphic, each readable by its own sensor. But embedded information can go beyond text to graphics, animation, and sound.

Why not leave the labels visible and eliminate the caliper? Because that misses the importance of under activity. Exploring and discovering actively is better than observing passively. In the real world, you have to learn where to look. But sensors don't need real-world counterparts.

DESIGNING YOUR SITE

A number of Web publishing services offer free space and Web page design tools. Leading services that allow you to create a Web site at no cost are:

1. **Homestead** *(www. homestead.com)*
2. **Tripod** *(www.tripod.com)*
3. **Yahoo! GeoCities** *(http://geocities.yahoo.com)*

All share a similar sign-in process, are easy to use, and offer 11 megabytes of free space, which is about 11,000 pages of text or 80 to 100 large, quarter-screen graphics. Each of them walks you through the entire design process, which consists of about 15 to 20 steps. Each service will also prompt you to do the following:

1. **Register your site.** You will be asked to enter personal information, such as your name and E-mail address. You may also be asked to choose a category for your site.
2. **Name your site.** In most cases, the name you enter for your site cannot exceed 26 letters and cannot include punctuation marks. The actual Web address of your site will contain the name of the online service with which you are registered. For example: If you name your chapter's site downtown - juniorchamber on tripod, the address that visitors will type to open your page will be *www.tripod.com/downtownjuniorchamber*.
3. **Choose a template.** Templates are preformatted pages that allow you to insert text or graphics. You will also be asked to select a background color or pattern, as well as the color of the text.
4. **Add text.** Since most people don't like to read long paragraphs on a computer screen, use short sentences to convey messages easily and clearly.
5. **Add graphics.** Most services allow you to download images from their art gallery, free of charge. You can also download JCI logos from *www.juniorchamber.org* by clicking on your right button on the logo you want to copy. Then, click on save image as and save it on your hard drive.
6. **Add links to other pages** within your site or to other Web sites, such as your National Organization's site, Junior Chamber International's sites *(www.juniorchamber.org, www.juniorchamber.com and www.camarajunior.com).* You may also add a link that allows visitors to send you E-mail.
7. **Add other elements.** Some services allow you to add special elements to your site, such as:
   a. **Hit counters** that show the number of people who have visited your Web site.
   b. **Guest books** that list the E-mail addresses of visitors to your site.
8. **Upload your site.** In most cases, you officially post your site on the Web by clicking a box on the screen labeled publish or upload. After this process is completed, anyone can access your site.
9. **Promote your site.** Inform JCI Headquarters about your site and it will be included in JCI's Directory. You can also register your site at the same search engine that is hosting your site *(www.yahoo.com, www.altavista.com, etc.)*
10. **Update your site.** Making timely changes and adding pages will keep visitors coming back. Web publishing services may remove your site from their servers if you don't edit it, or if no one visits.

SECURE YOUR EXCLUSIVE GLOBAL DOMAIN NAME

Does your chapter have its own global domain name? A global domain name is a Web site address without the two letters identifying a country, such as www.juniorchamber.org. If you have a global domain name, nobody else in the world can have the same name.

Even if you don't have a Web site right now, it would be smart to reserve a name for your chapter or business. To find out if your chapter's name is still available for a global domain name, you can go to www.ezwebsite.org and click on DOMAIN NAME.

The ending or your domain name can be .com, .org, or .net. If available, you can have several domain names and only one Web site, with all your domain names pointing to your site. For example, typing www.juniorchamber.com, www.camarajunior.com, or www.juniorchamber.net will take you to the same site: www.juniorchamber.org. This will give your members more choices to find your site, and avoid the possibility of other people using the same name with a different ending.

To reserve your exclusive global domain name, go to www.ezwebsite.org. You will find many options there, from reserving your domain name to securing a Web host.

For a global domain name, you will pay an initial service charge of approximately US$50 plus a US$70 fee for two years. You can renew your domain name after the two years. This cost does not include Web host fees.

FIND A WEB HOST

Web host fees - from US$20 to US$100 - depend on the features and size of your site. For a basic small site you should pay no more than US$25 a month. To find a Web host, go to www.ezwebsite.org and click on WEB HOSTS.

Exacted from "JCI Training" published in 1999
by Training & Development Committee.

National Activities

Total nine Hong Kong delegates attended the "Two-Country, Four-Place Business Summit" in Taiwan, Major of Taipei Mr. Ma Ying Gau was invited as Guest of Honor. It is targeted to be organized the fifth summit in Mainland next year.

Hong Kong Junior Chamber is one of the International Year of Volunteers Steering Committee members. Mr. Lam Woon Kwong, GBS, JP, Secretary for Home Affairs was the Guest of Honor and officiated the Launching Ceremony on 1 Dec 2000.

One more Two more Three more.... The National Officers and LOM Presidents had the morning stretched in Central and Sheung Wan District - Thousand People Morning Exercise Ceremony.

DIGITAL PRINTING
數碼印刷
by Corporate Press

高碧香港有限公司成立至今將十載，期間不斷發展及擴充，最近更新增數碼印刷部，將服務提升至更高水平。

為什麼選用數碼印刷？

快人一步 成功達到
無論您從事服務、生產或專業工作，若能夠於最快時間將公司之產品或服務推出市場，成功機會自然勝人一籌。

多類產品 配合用途
- 公司手冊 · 安裝手冊 · 用戶手冊 · 銷售介紹刊物
- 培訓手冊 · 員工通訊 · 客戶通訊 · 院校簡介
- 公司計劃書 · 課程手冊 · 公司表格及文刊
- 廣告價目表 · 保單 · 購物／服務目錄

省費省時 預算準確
－無須額外付出菲林或較昂貴的柯式印刷費用
－按量印制，可節省存運開支，不作無謂浪費
－客戶若使用電腦運作，更可通過電子郵遞將文件交予本公司，省卻文件運送時間
－可全自動分頁印刷，隔空頁或插頁， 效率特快

質素一流 效果出眾
－圖片或相片以600點高質印刷，清晰度媲美柯式印刷
－可作雙面印刷，印面A4至A3尺寸
－配合本公司之釘裝部，可將印成文件以騎馬釘、線圈、膠圈式，熱黏方式製作書刊，一氣呵成，服務至上。
