進求成功

As we enter the new era of 2000, we must seize every opportunity to articulate the vision of our founders. We must begin with a dream in our heart and with our eyes open. The future should not belong in the hands of others, but belong in our own hands. We must determine it starting today.

It takes attitude and a great deal to determine altitude. We are what we think and we will reach what we aim for. It is up to us as individuals and an organization to have the attitude to push the perimeters in 2000 higher than before and move up to the next challenge and the next level.

Conference Logo

The Chinese zodiac system is representing by 12 different animal signs and each sign carries different personality trait. The dragon is characterized as a benevolent creative, it is known for his strength, honesty, decisiveness and sheer energy.

The Kaohsiung Conference logo is designed to commemorate the millennium and the Year of the Dragon. It is a momentous occasion to celebrate and also for Jaycees to join together for global unity and friendship enhancement.

COC ORGANIZATION CHART

Message from Conference Director

On behalf of all COC members, I would like to convey sincere gratitude to our beloved JC members. The active participation of members from Asian Pacific and other regions of the world have contributed to the success and smooth operation of the entire 2000 Kaoshiung ASPAC Conference.

The organization of this Conference has not only coagulated the unique vitality of Jaycees, it has also set forth our ambition in the new millennium year. We believe the essence of success, apart from a smooth process, rests with the importance of practicing our idea and mission. As the theme of this Conference "Attitude Determines Altitude", it is with this belief that directed us to work hard and insist to uphold the Jaycee spirit in the 50th anniversary of ASPAC.

Dear Jaycee friends, thank you very much for your enthusiastic participation and support; thank you for giving us the opportunities to advance, learn and create history with you together. Once again, COC would like to thank our Chief Adviser, Mr Sonny Yu for his valuable guidance.

Our sincere blessings to all Jaycees!

MESSAGE FROM THE CONFERENCE CHAIRMAN

What was done now moves into the past. But the memories still linger on us. I would like to thank all of you who attended Area B Conference held in Kaohsiung in May 2000. It was such a wonderful opportunity to serve you as the Conference Chairman.

During the four-day event, we did so much things done. With almost 5,000 delegates from 35 countries in attendance, the conference went just great. I personally believe this ASPAC was one of the best area conferences in JCI history.

I must express my sincere thanks to the COC lead by Conference Director Henry Chang for their relentless and untiring efforts towards the success of the conference. I witnessed that COC members never slept in nice beds, keeping their seats at the COC office for whole conference week. What an effort!

My hearty thanks go to the NOM Presidents and their board for their support to actively attending the conference program by bringing many delegations to Kaohsiung.

My Area B team members, VPs Wen Teik, Jimmy, Ravi and Kirti and APDC Chairlady Louise, I would like to thank you for your great support during the conference.

To JCI Headquarters staff, SG Benny Ellerbe, Executive Director Edson Kodama and my Area B Director Seung-hyun Son, without your support, it would have not been so successful.

Last but not the least, I want to thank all the senators and mentors who gave me so many good advises to lead the conference in such a successful way. There is one person whom I would like to recognize to all of you most is my friend and mentor JCI Foundation Director Sonny Yu. He virtually helped ASPAC COC to make things happen from the first beginning! Please accept my heartfelt appreciation to you, Sonny.

Without all of you who took part in the conference, it would have not been a success. I cannot thank you enough for your support. Now, as we congratulate on the publishing of ASPAC Final Report, I am sure by the time it is printed I will be considered outgoing JCI EVP. However, I would like to ask you to stay in touch with me, as the memory of glorious ASPAC in Kaohsiung will not be outgoing.

I look forward to meeting all of you in Sapporo where *Attitude determines Altitude!*

8) **Reports**

8.1 **Chairman**
Chairman Louise presented her written report with the following highlights:
a) So far, eight missions had been done to cover 6 target countries
b) Focus on retention and recruitment of members
c) Training regarding JCI basics
d) ADPC Bulletin

8.2 **Immediate Past Chairman**
Immediate Past Chairman Takayoshi Matsui was absent because of his business trip.

8.3 Councilor's Report

8.3.1 Councilor Louise C Jones highlighted her written report on the mission to Thailand Junior Chamber conducted from March 16-17, 2000 (before she attended the New Delhi meeting). Another mission would be done right after this ASPAC in early June.

With brief verbal report on Vanuatu Junior Chamber, Councilor Louise expressed the difficulties and frustrations encountered as nothing could be done at this stage and her plan to visit would be pending. It is expected that the NOM would attend this ASPAC and proper mission could then be arranged.

Chairman Louise thanked the team for their outstanding hard work.

8.3.2 Councilor Koichi Washizawa highlighted his written report for mission to Mongolia Junior Chamber:

a) International exchange commission of JJC in April
b) National Convention of MJC in August
c) Leadership or business seminar

He also highlighted his written report for mission to Uzbekistan Junior Chamber that there are two groups claimed to be UJC board.

8.3.3 Councilor Mustansir Bandukwala highlighted his written report for the planned mission to Dubai:

a) Current development on potential to develop Junior Chamber in Dubai
b) Structured meeting with concerned authorities
c) Introduction of Junior Chamber as a business and training organization

He also highlighted his written report for mission to Bangladesh. He would like to obtain more support from APDC and JCI and would like to express his thankfulness to APDC Chairman for the full support in promoting Junior Chamber.

8.3.4 Councilor Rukmal de Silva was absent with no reports.

8.3.5 Councilor Tae-Eun Jang was absent with no reports.

8.4 Treasurer

Treasurer Shigekazu Yasuta apologized for the absence of New Delhi's meeting. He reported that revised budget and APDC Mission Subsidy plan had been circulated. Budget allocation remained no change. He also reminded the deadlines for Commission Subsidy would be by end October and all subsidies to be reimbursed in Sapporo Congress. He would also continue to chase for the APDC membership dues from all Area B NOMs.

8.5 Secretary General

Secretary General Mamoru Abe reported the APDC meeting in New Delhi was successfully held and ADPC bulletin 2000 was printed. The APDC activities in APDC web site were to be updated accordingly.

9) Any Other Business

   The agenda was proposed by India and seconded by Malaysia. An amendment 6b) JCI VP Report was added to the agenda.

5) National Presidents' Reports
   JCI President Karyn Bisdee gave an inspiring remark that our attitude determines our altitude. It is all up to each and every one of us to determine where we want to go and as good as we make it. She directed us in aiming JCI Altitude as high as the stars. It is up to each and every one of us to make it happen.

   At this juncture, Director Seung-hyun welcomed those NOM Presidents that came in late.

5.1 **Australia**
Australia's report was circulated and they would continue to go and grow through this year's theme of "Together we must Commit and Communicate" and connect people to success.

5.2 **Bangladesh**
Bangladesh would not only aim for increased membership but also quality members.

5.3 **JCEF Polynesia**
Due to unforeseen circumstances, the report was lost on the flight over. Would provide a written report as soon as it arrives.

5.4 **Hong Kong**
Hong Kong JC celebrated her 50th anniversary this year and is targeting membership growth at 10% net.

5.5 **India**
India would bid for the 2002 World Congress and call for our support.

5.6 **Indonesia**
There are 22 LOMs and over 1,000 members and they would aim for entrepreneurship.

5.7 **Macau**
Macau aims for the slogan "Promoting Macau, Promoting Ourselves". With positive attitude they hope to increase their membership altitude, which is at break-even point so far.

5.8 **Malaysia**
Malaysia would aim for the Mission S.M.A.R.T (Synergy, Membership, Ascertain direction, Resource development, Training) to develop caring, dynamic young community leaders and entrepreneurs.

5.9 **Japan**
Japan would bid for 2002 ASPAC and hope to gather our support.

5.10 **Nepal**
Nepal organized an anti tobacco rally against smoking under SEAAT FLAME CAMPAIGN as one of their community projects. Heartfelt gratitude was expressed to Japan JC for the many supports.

5.11 **New Zealand**
New Zealand would focus more on the 4 areas: meetings, training, programs and sponsorship.

5.12 **Pakistan**
With striving effort, they have successfully opened chapters in Peshawar and Islamabad.

5.13 **Philippines**
Due to unforeseen circumstances, the report was lost on the flight over. Would provide a written report as soon as it arrives.

5.14 **Singapore**
Singapore would focus on training entrepreneurship as part of her program this year.

5.15 **Sri Lanka**
Sri Lanka would continue with her successful Ten Young Outstanding program this year. They had a very successful civic program called "Ignore the call not the sign".

5.16 **Korea**
Korea extended a most innovative Taegu 2001 JCI ASPAC Conference promotion.

5.17 **Pacific**
Pacific is working on building 2 more LOMs at the moment.

5.18 **Thailand**
With the new technology in Internet, Thailand is not left behind as they had developed their own website and is promoting the use of email between LOMs.

5.19 **Uzbekistan**
Uzbekistan thanked and welcomed the support of JCI during their difficult times.

Panelists:	Kazuyasu Ueshima, National President, Japan Junior Chamber Yong-Joon Choi, National President, Korea Junior Chamber Chang Jinn-Ming, Executive Supervisor, Taiwan Junior Chamber Spencer Li, President, Hong Kong Junior Chamber

1) **Opening Remarks by Chairman Yasuaki Arai**
The Chairman welcomed the attendees and thanked all speakers for delivering their presentation today.

2) **Forum Briefing by Yasuhiro Mae, Vice President of Japan JC**
The symposium provided great opportunities for discussing inter-chapter relationship and state affairs. Concerning the future development and problem facing by each nation, the discussion among Korea, Taiwan, Japan and Hong Kong JC would focus on international exchange and business opportunities.

3) **Panel Discussions**

3.1 Economy

3.1.1 Korea JC
The financial crisis happened in 1997 was owing to the fact that Korea lacked of information on international banking system and did not get enough knowledge about the flaws occurred in its own financial system. Yet, the continuation of economic reform and restructuring allowed the fast recovery of Korean economy. Regarding business opportunities, we should focus on organizing more professional trading fair and establishing international business network via the application of Internet. Before expanding the international network, we could start something from individual to individual. The employment of digital information technology in recruiting new members could indicate the innovation of information technology in Korea JC.

3.1.2 Taiwan JC
Taiwan members are recently quite active in taking up training courses, serving community and focusing on family prospects. As Chen Shui Bian being elected as the ROC President, Taiwanese enjoyed the real pace of democratization. President Chen established a model for youngsters to exercise his energy with regard to his contribution to home country in promoting democratization. He is a successful model for JC.

During the financial crisis, small-medium enterprises were not seriously influenced or attacked owing to its flexibility in economic structure and the ability to fix up the problem in a meantime.

3.1.3 Hong Kong JC

Hong Kong is undergoing an economic restructuring and the SAR government is using reserve to put on a number of measurements. Monetary Authority had announced a series of measures to strengthen the market. The intact bureaucratic structure of the SAR government together with the full implementation of "One Country, Two Systems" allowed successful business. Considering the role of Hong Kong after the handover, the way to expand business link and economic cooperation with Mainland China should be emphasized. The innovation of technology would enhance the further development of Hong Kong as international financial status. In that case, Hong Kong JC would consider its role to facilitate the inflow of information.

With the construction of Cyberport, foreign corporations show their interest to invest in Hong Kong. The blooming of Internet business allowed trading cooperation to make use of this mechanism. The development of G3 enables the emergence of Mobile-business.

3.1.4 Japan JC

Other than the usual leadership training, "Human Development Movement" became the main focus. The economy of Japan is still recovering after 1990's bubble economy and fundamental reforms are still needed in Japan economy. Recently, 90% are small-medium size companies. The government had laid down rules of doing business for these companies. The problem facing right now is the increase of aging population. The issue of how to achieve a balance between economic growth and environmental oriented society should be emphasized. It is our aim to have all primary schools to be computerized in 2002 and 2003 by putting more information technology into society.

3.2 Critical Management

3.2.1 Taiwan JC

The epicenter of so-called "921 Earthquake" was occurred around Nantou. Taiwan government offered immediate military rescue service to that area and the Legislature offered immediate support by responding quickly to the victims. We would like to express our thankfulness to Japan, Korea and Turkey to send their rescue teams instantly along with advanced equipment, cash and material support. Japan JC at that moment donated 3 million new Taiwan dollars and significant donation was also well received from Korea and Hong Kong JC. Donation of that kind was distributed to victimized members and local organization members respectively.

In order to cope with the disaster, the "921 Public Committee" was set up under the supervision of Taiwan JC. We still have much to learn from this incident, and both Taiwan Government and JC would obtain experiences in that situation.

3.2.2 Japan JC
An earthquake was happened in Kobe on December 5, 1995. The disaster came all of a sudden and nobody could tell surely who was responsible for the rescue but simply relied on the self-defense force. Therefore, many non-profit organizations were set up for this purpose in the year of 1996. Some areas were purposely designed to help the victim areas while supporting system among different chapters were set up in this case.

3.2.3 Korea JC
More education programs were needed in order to educate the general public for the happening of natural crisis. It is crucial to establish a crisis response system with other sister chapters via Internet as well.

3.3 Creation of Global Peace and Stability

3.3.1 Taiwan JC
The change of Presidential in ROC is a historical event in which the change of power from KMT to DDP gave a great surprise to the Mainland China. It requires a new moment of understanding between two states. People in Taiwan are very unwilling to receive any threat imposed by China. The Taiwan-Strait Foundation of Mainland China came to accept the economic success of Taiwan but remained sensitive to the democratic issue of Taiwan. The best way to do now is to establish more business partners with other neighboring state and consolidate the national defense system.

3.3.2 Korea JC
An official summit is going to be held between South and North Korea in June 2000. It is our hope to have the reunification. Korea JC tried to understand the possibility of having future reunification with North Korea with the belief that German model of unification is applicable to Korea. The forthcoming summit is very meaningful to Korea and hope JC would look for future success in this matter.

3.3.3 Hong Kong JC
There is not a lot of change regarding the political situation after the handover to China. The Central government of China did not intervene our internal affairs. People still enjoy the freedom of speech, freedom of press and doing business as before.

3.3.4 Japan JC
Improving productivity and energy program of our own country is the area of concern. We are concerning about the way to assist North Korea in a more humanitarian approach and the way to establish political relation from country to country basis.

3.4 Future of Children of the Next Generation

3.4.1 Japan JC
Drugs problem is the prevailing one as youngsters are unable to reach their identity and they don't feel like to be part of the society. We need to put more emphasis on the domestic education regarding teenagers' value system. Peers have to think more about what human exists to do and learn to care others more. Education reform is needed with special attention on the way to raise our children.

3.4.2 Korea JC
More attention should be diverted to how children grow up in the right way under the formal education. The role of JC could be discussed.

3.4.3 Hong Kong JC
We believed that children are our future and agreed Japan's notion by saying "children is focusing on money nowadays". On top of the Education Reform issued by the SAR government, HKJC made their comments regarding the matter of standardization in such proposed educational system. The promotion of HKJC's project "Right Decision Program" could reach the aim of new reform by telling students how to make the right decision. Hoping that HKJC could work out recommendation as a community concern group and make positive change to the SAR government. In that case, we do encourage members to participate in the forthcoming Legislative Council election.

4) **Conclusion from Coordinator Matsumoto**
This new order symposium covered various issues regarding economy, education and political development. Area B is prior in culture, customs and it is hard to incorporate the model adopted by European countries. It is worthwhile to find out the differences among different cultural systems and keep that kind of symposium for cultural exchange purpose.

5) **Closing Remarks from Chairman Arai**
The Chairman expressed thankfulness to all participants and audiences and hope everyone enjoyed the seminar. Hoping that this seminar paved the way to brainstorm and exchange new ideas and similar discussion shall continue in the near future. The meeting was adjourned at 1710 hours.

Attitude Determines Altitude

My wonderful friends of Junior Chamber in Area B

~From JCI World President~

It is truly a pleasure to gather together in Kaohsiung to celebrate the success of Junior Chamber in the Asia Pacific region. As we spend this week together, may we all take the opportunity to reflect on our emphasis this year – the emphasis on attitude and how it does indeed determine our altitude. Conference Chairman and JCI EVP Kelly Wills has, with his talented team, developed a program which will stimulate us, challenge us, educate us, and offer us world class opportunities to share, learn and experience.

As an organization in 2000 and as individual members, the significance that we achieve, the heights that we reach, will indeed be decided by the approach that we take, how we apply ourselves to the ambitious and worthy goals that we have set, both for ourselves, our LOMs, our NOMs and our entire international organization.

Like you, I am determined to see Junior Chamber flourish and reach the next level of excellence; the altitude will be reached if we continue to be energetic, innovative and creative. In 2000, dare to be different, and do not do what we have always done – this spirit will, I am confident, prepare us for an exciting second millennium.

I am so proud to be your President, from Area B 2000, but even more proud of the accomplishments already I have seen around the world – it doesn't happen without that spirit, without that determination – without you.

As we enjoy this ASPAC, the social and the learning events, the business and the discussion, let us look ahead with the knowledge that the organization is in our hands and will be what we want it to be, if we continue with the attitude that you have adopted this year!

Proud of you and proud to be,

Your JCI 2000 President
Karyn W. Bisdee

Welcome to the 50th Anniversary of ASPAC!

As Jaycees gather from around the world this week, it's a great opportunity to share and renew old and new friendships alike. This week is truly what our founder, Henry Giessenbier, envisioned over 80 years ago when he started the Jaycee movement. Bringing people together from different backgrounds, learning about each other's cultures, and striving to build a strong world with everlasting peace. Henry would be proud of what this organization accomplishes everyday, but the one thing that Henry would continue to say is that our work is not done and in your hands lies the destiny of a great organization. The COC has worked hard to put on a quality conference, and I encourage you to participate in the various training programs and sessions.

Once again I welcome you, and thank you for your attendance!

Have a great conference!

The ASPAC Opening Ceremony at Chinese Military Academy

Despite the blistering sunshine outside, all delegates waited patiently for the official opening ceremony of the 4 days long Kaohsiung Conference. At precisely 17:35, the big TV screen on stage started showing the footage and images of last September earthquake in Taiwan, and then the Taiwanese Warrior Dancers stepped onto the stage and made some tremendous drumming with their sticks and darts to commemorate the victims who perish in the disaster. The mood of the crowd became electrifying as the beat of sound and dancing feet thundering across the stage.

After the dance, it was left to the MCs to introduce Henry Chang the Conference Director, and all the JCI VIPs, World President, JCI Officers and Area B NOM Presidents from all over the world onto the stage. Then came the moment when all our eyes were focused on one man on the floor when he made his grand entrance to the auditorium, it was the newly inaugurated President of Republic of China, Mr. Chang Sui Ben.

The highlight of the day was a speech made by the President Chang, who enticed the jubilance crowd with his vision on Taiwan and its youth. He pointed out the 3 significant things happened during the presidential election. The first ever-democratic election in a Chinese community and it was through votes to decide the alteration of power. He was the least favorite presidential candidate and was forced from China submission. Freedom and peace is ongoing and ever lasting in a democratic society he said.

Finally, our World President Karyn W. Bisdee made her remark on youth of today and tomorrow; to be able to gain a high altitude, you must have a good attitude. Take up the challenge and responsibility – tomorrow will be better than today.

Taiwan Night

The first night "TAIWAN NIGHT – 2000 ASPAC TAICHUNG JC LIVE SHOW" hosted by the Sitzyywan Junior Chamber was held on Combat Gymnasium just after the Opening Ceremony.

There were around 78 booths in the venue that operated by many local chapters of Taiwan Junior Chamber. Many interesting and funny games were shown on the booths. Long queue were not hardly found on some booths that provided attractive gifts.

Delicious food was provided in two areas. Long queues were appeared again in those two areas. All the food was demolished within half hour due to the good appetite of the JC members. Those members who could not get enough changed their targets to some booths that had snacks and drinks to provide.

Boys and girls performed good traditional dancing in the open square of the venue to entertain the comers. Everybody enjoyed the night until midnight.

Malaysian Night

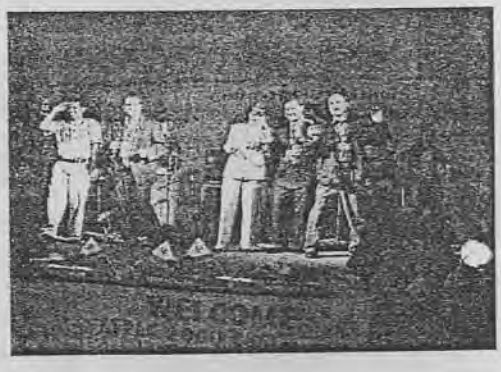

Our Malaysian counterparts showed us their fantastic tourist attractions of the Malaysian Night. They hanged up beautiful posters from Sabah, Sarawak, the Turtle Island Park, Penang, Johor etc. There were many counters providing games and foods, especially their local foods. Lots of participants enjoyed the sweets and chocolate milk they offered. There is a saying "There are many talented people in JC" Nobody could deny when we saw JC members from Malaysia providing massage service in such a professional way. It wouldn't be more relaxing than having a massage after playing all the games in the Malaysian Night.

Korean Night

The Korean JCs occupied the main entrance space with a parade of food and beverages laying on the tables for the hungry passersby. Their big stage was constantly broadcasting pop video music with dancers getting the audience to dance the night away. There were many booths on both sides, some were extremely popular with visitors, and long queues were often formed for getting a special gift from the fellow Korean JCs.

Cebu-Hong Kong-USA Night

Highlighting each area special characters, Cebu, Hong Kong, Las Vegas have hosted numbers of booths in this festive evening. Visitors lined up for a long queue for fun games and souvenirs. Jaycees from different countries also took this good opportunity to enhance their friendship by exchanging gifts and pins. Live entertainments and sweet voices from our JCI EVP, VP and NPs have also brought up the climax of the night, each and every one wore the shoe from Cinderella, which lead them dance tile they dropped..... Of course, fun and joy really made it unforgettable for us!!!!

SEMINAR HIGHLIGHTS

LOM Presidents' Training

Chairman Gary Tompkins together with Trainer John Proziński provided the morning session training on how a LOM should recruit new members more efficiently. There were many VPs and Presidents from Asia especially Singapore attending the seminar. John emphasized on the growing problem of enrollment in JC, where communication breakdown between age group 18-24 and 31-35 are really showing a generation gap in this Cyber Era.

After lunch break, trainer Bruce Rector also known as "**Raul the Chief**" brought out a novel way of getting the audience involved in his training. Raul divided the audience into two groups; each group represented a consulting company to come up with a marketing and customer service plan for launching his Italian restaurant in Taiwan. Within the time limit, the 2 groups used teamwork with lots of creativity and imagination to bring out some fantastic ideas for getting Raul's attention. After the fun part, Bruce was showing the audience on how to apply the same marketing/customer service principal in our JC.

Attitude Determines Altitude

Membership Growth by Effective Marketing

Delegates from different nations gathered at Grand Formosa to attend the Membership Growth by Effective Marketing seminar chaired by 1999 EVP Bruce Rector. Speaker 1999 VP Michael Kern provided participants with effective and current marketing tools for promoting a chapter and its activities. These tools included value proposition and the four "Ps" framework: Product, Price, Promotion and Place. Also, at the seminar all participants were able to discuss issues on membership growth of their national and local chapters.

E-Business

The e-business seminar was held on May 28. JCI EVP Elton See Tan introduced Mr. John Tsung from ACER Group.

E-Business is one of the hottest topics these days. Mr. Tsung gave us an introduction about the concept, the development and the application of e-commerce. Transmitting information through bits and bytes in mille-seconds, the internet is rapidly changing the way of doing business and even our daily lives. Mr. Tsung showed us how to participate in e-business and how his company, ACER Group adapted to the changes, as he put it "from ACER to e-ACER"

Your Ultimate Energy

"Your Ultimate Energy" presented by 1995 VP Karen Smythe and Hugh Lawrence of Australia attracted many JC members to join. The theme of this seminar was to change the way you see the life.

Physical exercise was the first menu of this seminar. The speakers then used music to guide the participants to think how their life was in the past. Under a series of exercise and group discussion, the participants learnt that money is not the ultimate gain, but quality of life and happiness has a big bearing and each event in the life will have a positive outcome.

Small Things.... Big Ways, Leadership-2K

Raman Nayyar and Sarabjit Singh Kwatrs from India inspired the floor of 24 participants with their powerful learning session.

In this era of the 2000, technology goes fast, but the essence of life lives in still – PEOPLE.

Small Things Big Ways – an effort that makes the leader take inspiration from small things of life. Small things that make an ordinary person special, things that make a manager a leader and things that help leaders to make it to the top.

Everyone is a LEADER within himself. Do not underestimate yourself.

Knowing the faces of Power

You may have seen the faces of President of ROC Chen Shui Bien and JCI President Karyn Bisdee and thought these are the faces that represent power. When you looked in the mirror, would you have said that this is the image of power too? Mennen Aracid, NED Philippines took us on a self-discovery voyage to discover the internal and external power that we possess. He gave us a quote to take away which is all so true for us to put into action our JCI theme "Attitude determines Altitude"

"Nothing great will ever be achieved without great men and men are great only if they are determined to be so" – Charles de Gaulle.

Immediate Past Chairman Takayoshi Matsui was absent with apology.

8) Remarks by Special Guest

Dr Tan Hian-Tsin. Special Advisor from Singapore called for the attention of the weak NOMs in terms of membership dropping, e.g. Taiwan, Australia and New Zealand. He suggested us to re-address the issue of weak NOMs and recommended us to consider them into the new target NOM for next year.

9) Introduction of 2001 APDC Councilors
Chairman Louise introduced 2001 APDC Chairman Nobby Murazumi and Councilors Rebecca Kim, Nette F Nielsen, Joseph Ho, Luis Gonzaga Wan and Raymond Lee Yu Wen.

10) Remarks by the 2001 APDC Chairman
The new Chairman Nobby was glad to have the chance to serve the Council. His experience as Past APDC Secretary General could be of great help and there were more than 50% of the elected Councilors had ADPC experience.

11) Any Other Business
a) Councilor Louis Jones confirmed a visit to Vanuatu. Two participants Cathy Gourbault and Shigekazu Yasuta would attend.

b) Councilor Mustansir would arrange a mission to U.A.E Dubai and would follow up the contact person referred by Philippine Jaycees.

c) DO Cathy suggested that Jordan and Lebanon needed to be followed up because there were new contacts in these countries. Councilor Rukmal would follow up.

d) DO Rebacca Kim had visited Guam with great success and she indicated to arrange another one in August.

e) Treasurer Shigekazu reported that all dues from those Area B NOMs who attended ASPAC had been received. He would keep chasing for those absences.

f) Past APDC Chairman Teresa was invited to make her remarks. She considered the experience as an APDC officer a good opportunity and good exposure. She hoped everybody would be enthusiastic towards all forthcoming APDC missions and meetings.

12) Announcements
There was no announcement to be made.

13) Closing Remarks
Chairman Louise thanked again Councilors and Development Officers for the good work. She hoped all the missions would be finished in the coming six months as decided in the first APDC meeting.

14) Adjournment
Chairman called the meeting to adjourn at 1500 hours.

SEMINAR HIGHLIGHTS

THE MONDAY MORNING MESSAGE

Have you got trouble getting up and going to work on Monday? Today JCI EVP Bruce Rector shared with us some tips on what we can do to break down the walls on Monday so that we can start our day and week in the most effective and optimal way.

If you want to know more about the short, thought provoking and motivating messages to give you a head start on your Monday, please visit www.mondaymorningmessage.com to give you that inspiring drive to aim for your next goal.

2000 NOM PRESIDENTS' SEMINAR

The speaker of "2000 NOM Presidents Seminar" JCI VP Lew Wen Teik shared his problem in management of NOM and LOM with over 20 NOM Presidents.

During the meeting, the NOM presidents actively expressed their problems on financial stability, fund raising, membership decline, marketing, public relation, communication and politic. They also shared some possible solutions on how to solve the common problems. The speaker also provided some ideas on how JCI would help NOM Presidents to tackle the problems.

This seminar is definitely a great help to NOM Presidents in leading LOMs and individual members more efficiently and effectively.

THE EUROPEAN UNION, HOW TO DEAL WITH?

1999 JCI VP Michael Kem has provided us a deep insight look about the European Union, its institutions and its new currency. This helped us to properly prepare ourselves for a future business relation with European companies.

Michael outlined the Council, Coreper and different commissions of the union, their functions and changes since 1940. He also introduced the European Free Trade Association, European Monetary System and EC Market. His goal was to break down trade barriers and promote fair business opportunity in Europe.

COACHING QUARTET - "Get & Act - Be an action coach"

Four coaches from Hong Kong led the Coaching Quartet with energy and fun. The more we practice, the more we involve, and the more we learn. Once we get to know about each other a bit, they highlighted the essence of experimental learning. With this foundation, hot discussion is then kicked-off. The Mandarin, English and Japanese group tried to illustrate their different point of view under the topics of stress management, communication skill and team spirit respectively. These knowledge and skills obtained in this session have surely benefited their future growth in Jaycee and their working organization.

ACCELERATED LEARNING IN THE 21ST CENTURY

The Accelerated Learning for the 21st Century was held on May 29. The trainer is JCI Senator Li Yo Wei. Based on the latest research by leading scientists and psychologists, the seminar brought us the most effective method ever developed for learning. Senator Li is a professional speaker. Her revolutionary 6-step M.A.S.T.E.R. seminar showed us how to identify our individual learning style, unlock our hidden talents, and dramatically improve our ability to absorb and retain new information. It's a whole new way to attain the skills every person must master.

WORLD SPEAKING COMPETITION

Six contestants are set to run for the World Speaking Champion. They are to tell you the POWER OF ATTITUDE, which DETERMINES YOUR ALTITUDE.

Attitude is not just a choice; it carries extreme power to release your energy and potential within. Our Philippine contestant spoke to visualize with us her dream, to devote herself to the betterment of her community, her dream which would not have been possible to come true without her positive attitude and determination to go for it. The very positive attitude is the drive within, which release your courage, to do parachute jump for example.

There are two types of people in the world, those who wait and those who get control of their own lives. Our contestant from Malaysia knows she belongs to the latter. As a JC member, she cannot wait to tell us DON'T WAIT. For every obstacle, it provides an opportunity to improve the condition. Inner Value, this determines our attitude. The Hong Kong contestant gave us a very lively role-play, which evidenced how she was switched on to a complete different person the moment she changed her attitude to life.

Dear JCs, hold on to a positive attitude to every thing you encounter in your life, live up to the SPIRIT of JC!

BUSINESS OPPORTUNITIES IN ASIA

The topic of business opportunities in Asia was widely discussed by prominent speaker Dr. Tim E.M. Wu, professor of Public Administration, Mr. Tsai Horng-Ming, the Executive Secretary of Taiwan Industry Organization and Mr. Liu Da Chun, the manager of Taiwan Market Development Department.

The era of globalization requires people to shape up their mentality in the pursuit of civil society. The essence for establishing a strong partnership among civil society, government and market is the key to successful business.

Believing that Beijing has not defined cross-strait trade relations as relations between normal WTO member countries, smalll-medium enterprises of Taiwan would face opportunities and challenges ahead. Taiwan policy making and the strategy adopted by Mainland China in WTO accession are worthwhile to pay attention.

SISTER JC TWINNING CEREMONY

World President Karyn Bisdee witnessed 4 pairs of LOMs signing sisterhood twinning pact. The four included: Junior Chamber Kuala Lumpur (West) & Milligan Jaycees, Philippines; Oblihiro Junior Chamber, Japan vs Jente Junior Chamber, Taiwan and Seoul Song Pa Junior Chamber, Korea vs Isla Latte Junior Chamber, Pacific Jaycee.

World President Karyn remarked that the attitude to realize words of the agreement into action is most important. Then the members among the world can exchange their culture and ideas through joint projects and increase friendship through fellowship gathering.

JAPAN NIGHT

Who would have thought **Little Tokyo** could make such an impact in Kaohsiung on a Monday night. It was packed like sardines in a tin, but it did not stop all the enthusiastic Jaycees coming to experience the moment. The carnival was a showcase for the 50th ASPAC because the JCI World Congress will be held in Sapporo this November and Sendai JC is also biding for the 2002 ASPAC.

The tradition Chinese Dragon and Lion dance made the atmosphere more festive. Japan Jaycees together with our World President and JCI officers were dressed in Japanese costume on stage to celebrate friendships in JC.

There were approximately 30 booths participating in this carnival. The surprise of the night went to Fukui JC, which had its own rock band playing its song 'I Love JC' in the tune of YMCA in front of a packed of audience. Whereas the Osaka JC's booth had brought out the traditional stone instrument for making the rice cake, visitors had the opportunity to practice their skills in bashing the rice cake with a heavy wooden hammer.

CLOSING GENERAL ASSEMBLY

Conference Director Henry Chang handovered the ASPAC flag to the 2001hosting LOM Taegu, Korea.

Sendai, Japan was granted the hosting right of the 2002 ASPAC Conference.
