Message From President of Junior Chamber International

Dear friends,

It has been said that the power of an organization lies in the level of passion and action of its people. As you celebrate the 20th Anniversary of JCI Macau, China it is clear to me that you own that power. Congratulations!

Throughout the years, you have demonstrated that you deliver what you promise and that you exceed standards in doing so. Your example has impacted the hearts and minds of members worldwide and we thank you for your commitment to excellence. I know that each of you will continue the tradition of past officers and members of JCI Macau, China in working with passion, taking actions to create proactive changes, and elevating the name of JCI in their communities.

As we celebrate the past 20 years, we must also remember that the most important years are those ahead. The coming years will demand a new breed of leaders to develop JCI into an organization recognized worldwide as a model of leadership and management. We must ensure, through our leadership and actions, that JCI moves forward, meeting the changing needs of our members head-on and attracting the leaders of tomorrow. You possess all you need to achieve this high level of performance: talented and committed people with a strong vision and a great line of leader who have made improtant changes in the way we perceive the world.

Congratulations again for your wonderful accomplishment. I look forward to continuing to work with each of you this year as we swim together as a single team, capitalizing on our passion, our commitment, our experience and our energy to achieve amazing results.

Sincerely,

Fernando Sanchez-Arias
59th President

Message From Executive Vice President for Area B of Junior Chamber International

As EVP Area B it gives me great pleasure to send my greetings to JCI Macau, at very special occasion of 20th Anniversary.

By learning about each other's way of thinking, believes, history, culture, heritage, motivation, it is my hope that we can become more accepting with each other and together prepare ourselves for the future.

There is a wonderful richness in being different and more we learn to appreciate this important fact, the more we can begin to understand each other. The most common reason for misunderstanding is lack of awareness of thinking and values we each possess. Let us make a difference by starting with ourselves and then gradually reaching out to fellow JCI members we come in contact with. Beginning small can do wonders, never under estimate the strength of a small group that is committed and enthusiastic, because together much can be achieved. I have heard excellent comments about the activites conducted by JCI in Macau and I am very excited to know that the chapters are working very hard on JCI's 3 main focus areas this year i.e. **Branding, Growth** and **Education.** Congratulations to each one of the LOM President for all hardwork and passion.

I urge each member to help in making the world a better place to live-starting today!

Wishing you a memorable event.

BEST OF LUCK

Message From Vice President for Area B of Junior Chamber International

I am really proud as well as highly delighted to be a part of this memorable and auspicious event of JCI Macau, China's 20th Anniversary. As the JCI Vice President assigned to Macau, I would like to extend my heartiest greetings and congratulate every member on this momentous occasion.

This is undoubtedly a great achievement for JCI Macau, China and I sincerely appreciate all the hard works of the past National Presidents, Board of Directors and last but not the least all the members of JCI Macau. This grand occasion also marks that JCI Macau had true leaders and potential members who had positively contributed to the advancement of themselves, their community and the chamber itself.

I strongly believe that NP Angela Lam with the strong support of NGB and members is leading the chamber from the front following the footsteps of the past National Presidents. Yet there are lot more to achieve which will enhance the chapter activities like young membership development, establishing JCI as a promising brand among the corporate and society.

My earnest request will be to pass on this great enthusiasm to the future members in order to continue the steady growth and success of the chamber.

I wish JCI Macau, China all the best and hope that they will effectively and efficiently face challenges and move on to the next phase of success.

Yours truly,
JCI Sen. Waqar A Choudhury

Junior Chamber International

Congratulations to Macau Junior Chamber on its 20th Birthday.

I would like to send personal greetings to the members of Macau JC and their families wishing them every success.

"Young people" have been trying to build up our characters through modest self efforts and to move forward without rest in order to attain a novelty with progressive youth spirit. The youth spirit enabled us to advance forward with the sense of responsibility under a lot of difficulties on us.

I think that our history is especially valuable to us because it contains in itself the boiling passions and pure sacrifices of all our members.

Now it's the time that we, JC which is a purely civil level worldwide organization for the development of leadership, have to play the leading role in the establishment of new ideal and plan for this world through the infinite potential power and worldwide network. As all of you know, JC has demonstrated an infinite potential for the creation of new world.

The ambition, creativeness and vision of JC members is our utmost asset. We have to try more and more, with the passion of youth, to contribute to the peace of mankind in the new chain of history.

We hope to be the leader of new history and the development of JC and I would say that such a hope can only be realized when all individual members perform their duties faithfully. Let us try to build up the ground for the take-offs of Macau JC and JCI together. The year 2004 has only a half year left but executive board members will also try our best to open bright new future of Macau JC.

Let us try to make new history of Macau JC putting the affections and passions of youth together.

With all good wishes,

Junior Chamber International

First and foremost, congratulations on the 20th anniversary of JCI Macau. Since its establishment in 1984, we admire your excellent commitment and contribution to the development of the global community with the passion and actions as the young leaders throughout the years.

Your 2004 slogan "Reach the peak" is the impressive keyword, which can encourage and lead many young peoples to grope for the real value of their life. JCI Macau have been leading them to the higher altitude by providing sunshine, rains, winds, beautiful sceneries and sometimes, showing the beautiful flowers on the roadside. Through the opportunities you have provided, many young peoples have found out the pleasant feeling for climbing the mountain by a step by a step. And the most of them learn how wonderful they achieve the ambitions with Passion, Action, and Positive Change.

Never keep "Standing on the Top", always seeking the next beautiful mountains.

It is because , all of you have already noticed that "Reach the Top!" is always in your Jaycee heart.

Congratulation again for your wonderful accomplishment. I hope this year would be the fruitful one and I am sure that the third ASPAC would be one of the most beautiful mountain for everyone.

Message From
The National Immediate Past President of
Junior Chamber International Macau,China

It is my great honor and pleasure to extend my warmest greeting to Junior Chamber International Macau, China.

"Nothing can be more absurd than the practice that prevails in our country of men and women not following the same pursuits with all their strengths and with one mind, for thus, the state instead of being whole is reduced to half." *– Plato*

This quotation by the famous Greek philosopher describes very well my own opinion on the spirit of unity.

"Men and women following the same pursuits…" have been taking up the center roles behind the story of the JCI Macau, China in the last two decades. At the time when we are celebrating its 20th anniversary, let us reiterate the power of unifying our strengths and mind that has remained as the main momentum in the success of the JCI Macau, China.

The experiences we have gathered and the lessons we have learnt in the past are the best foundation on which the JCI Macau, China continues to grow and serve the community. We should not be content with the achievements we have made in these twenty years. We are living in the age of globalization when regional cooperation opens to us a new horizon of opportunities and challenges. The aspiration and devotion of all JCs not only will bring us together, but also embrace all chords of the world.

Finally, allow me to once again congratulate Junior Chamber International Macau, China on this auspicious occasion and I am sure that without the dedication and hard work of every leader and member in the past two decades, our community would have been a very different world.

National Immediate Past President

Message from Chairman of 20th Anniversary Celebration Organizing Committee Junior Chamber International Macau, China

Even time flies, I can still clearly recall from my memory the moment when I was inducted as a JC by JCI Senator Chui Sai Cheong, the Charter President of Macau Junior Chamber, in the 15th Anniversary Gala Dinner back to the year 1999.

Five years afterward, I once again join the Anniversary Celebration but only this time as the Chairman of the Organizing Committee for the 20th Anniversary Celebration of Junior Chamber in Macau.

It is indeed a great honour and lifetime opportunity for me to organize the event in celebrating the glorious moments and the fruitful achievements of Junior Chamber over the past two decades in Macau. Over the process, visuals and articles flash to my mind simply like the fast forward of JC history which allows me to learn the extraordinary goals that our senior members had accomplished aiming for a positive change in our community and the humanity. That is what makes us proud of ourselves being a JC.

Taking this opportunity, I must express the sincerest gratitude from the bottom of my heart for the hard works and devotion of every member in the Organizing Committee and more importantly, the generous patronage from the Government Officials, Past Presidents, Advisors and Sponsors. You are the key to the success of this event. Last but not least, my heartfelt thanks to the National President – JC Angela Lam for being my mentor to give all the advice and supports in the past few months.
