MEETING THE WORLD PRESIDENT

NATIONAL AND CHAPTER ACTIVITY ALBUM

SIR ROGER LOBO – LIFE COMMITMENT IN COMMUNITY SERVICES

FEATURE:

Environment: A Challenging Scenario

45 Anniversary

Corporate Sponsor:

Kodak (Far East) Limited

NP From the National President

September and October are the months of AGM for most of our Chapters, I would like to take this opportunity to congratulate all our incoming leaders for 1996. While our new boards of directors are busy preparing the 1996 plans of actions and setting up goals and objectives, I would like you to consider the following elements in the future directions of our organization:

NP Raymond accompanying WP David Oji to make a courtesy call on Xinhua News Agency during his visit in August

It is always a challenge to most of the officers in time management throughout the year. Each year the National and the 18 Chapters organize more than a thousand of meetings and activities. It becomes a tradition for Chapter Presidents and NOM Officers that high attendance and support to key activities of all Chapters is an indicator of performance. This kind of internal participation is making our organization internal focused, and it leaves our officers no time for building external public relationship. Corporate image does not just come with a clear corporate identity, it also requires active communications and exchange of opinions with the government and external organizations. It is time for us to consider the expectation of NOM and LOMs officers and how we can minimize their engagement in unnecessary activities, so that we can free them all to focus more on external work.

Our organization emphasizes on leadership development through community services. It is important that we should continue to launch projects for the needs of the community. By having closer relationship with the District Boards, we do not just solicit resources from the local community, we can also create stronger impact to help the community more effectively. Moreover, we may also earn better recognition from the government which is vital for further extending our JC movement.

There is less than two years that Hong Kong will become part of China. Being a leadership development organization for young individuals, we need to increase the awareness of our members to the future changes. Understanding China and its youth organizations is definitely part of it, and the best way to achieve it is to establish a long term relationship with China Youth Federations in either city or provincial levels. Through active interaction, we can work together to promote the youth development work.

Today we face an important transition of Hong Kong. As a member of a leadership development organization, we can set good role models in the community by helping to keep the stability and prosperity of Hong Kong. It is the responsibility of our 1996 leaders to set up a clear direction for all members to follow. We are counting on each other to contribute our efforts in leading the success of our organization in the future.

Raymond Yu

Feature Environment: A Challenging Scenario

While our attention has been drawn to the importance of environmental protection by various propaganda of the Green groups and government promotion, we will be interested to know how a business organization can help with this community issue. The feature article – Environment: a Challenging Scenario, is a contribution by Green Power, an active environment concern group which has been devoting enormous efforts in educating the public and assessing the effectiveness and efficiency of various government measures.

by Alexander Yan.
Chief Secretary, Green Power

The upshot of the Legco election now marks the triumph of democrats finally administered by the Patten's administration. Although the tenure lasts for less than two years and might constrain the candidates elect to fulfil their political visions to a certain extent, the election will still be the most popular mandate ever made by Hong Kong citizens. The leaders of various parties should now recognize the entitlement of "environmental rights" to citizenry as a prerequisite for democratic citizenship.

Water Pollution, a result of industrialisation and materialism?

Health ecology should become the core values of reference of any social and economic development. Environmental protection is readily translated into better quality of life. Our environment has been subjected to continuous abuse ever since industrialization took place. The natural processes of a balanced ecology, where waste streams produced by one natural organism become nourishment for another, have long been superseded by the excessive waste produced as a result of the relentless pursuit of materialism. The 1990s marks a new epoch of environmental protection. It is the age of Environmental Management System (EMS).

Just as the total quality management systems (TQM) were developed during the 1980s to enhance manufacturing efficiency and competitiveness, EMS now enables manufacturing to become cleaner, less wasteful, more profitable and most importantly, less deleterious to the

An effective Environmental Management System can help reduce industrial rubbish

global environment. Hong Kong environment is subjected to intensive pressure as the government is planning to accelerate development in pristine countryside as designated in Ports and Airport Development Strategy (PADS) and Territorial Development Strategy (TDS).

Moreover, land use planning has to be reconsidered, especially in the northwest area of the New Territories, to house the expanding population. Government should stop polluting

activities and provide remedies to the environmental damage, and regulate it accordingly. Permissible or remedial systems should be established to deal with damage done to a particular region, for instance, deposits of disposable articles must be strictly enforced so as to increase the rate of resource recovery. More importantly, "polluter pays" levies must be cost effectively used for environmental protection and ecological restoration. As a result, a more precautionary strategy and elements of technical efficiency can be brought in to help reduce pollution.

Polluted environment like this is a result of selfishness

Hong Kong citizens' environmental rights should be enshrined in legislation to make provision for suing a government agency that fails to take enough measures to protect the environment. This aims at preventing a citizen from being victimized by any environmental hazards arising out of polluters' negligence or non-compliance. Several consultancy reports have been commissioned by the government to look into the problems of sewage treatment strategy and those of the 10-year solid waste reduction programme.

The Environmental Protection Department is drafting up an Environmental Impact Assessment Bill with an aim at mandatory procedure, to necessitate a detailed ecological study and an economic analysis of major land development projects. Moreover, post-project monitoring and management should be instigated to prevent or mitigate the environmental damage which the land development may bring about. The 10-year waste reduction programme will cost billions of dollars. Although the unfavourable conditions, such as high population density and lack of public space will restrict the direct transplanting of foreign experience in Hong Kong, a target should be set upon zero growth of wastes through amount reduction, mandatory recovery and recycling rate.

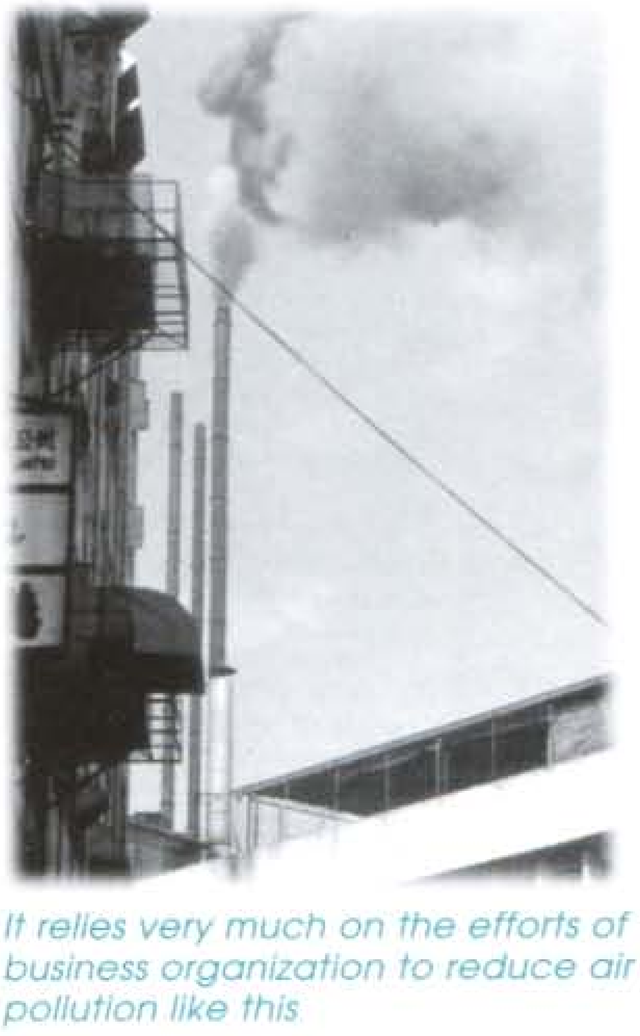

We are contributing to this rubbish

Moreover, various strategies should be used to achieve sustainable waste management. Some of the not yet published proposals require the participation of private corporations. In this way, private firms of different nature can apply for government subsidies by submitting proposals of waste reduction. A more rigorous system, namely the Producer's Responsibility System, will sooner or later be set in place if the voluntary waste reduction measures cannot achieve the desired result. Some measures of this type have already been implemented under the name of Polluter Pays Principle. Unfortunately, the private waste collection contractors responded vehemently to pay the landfill charge in advance for the waste generator. They launched a two-day strike early this year which caused immense inconvenience to the public.

The resultant implementation slippage of environmental protection measures is very much the same as in other industrial countries. A tedious

and intriguing negotiation process will follow as many other similar measures are put forward. Non-government organizations always urge the government to tackle environmental problems in a more proactive way. An overall environmental protection system should be established in different localities as regional operation centres.

It relies very much on the efforts of business organization to reduce air pollution like this

The Hong Kong government usually employs economic non-interventionism and avoids interfering with environmental technology research and development. The neighbouring countries have already been spearheaded by their respective governments to bolster up this promising field of "clean technology" development. Green Power would suggest that indigenous environmental protection industries are to be developed through joint exploration, priority purchase, tax exemption, financial subsidy and technology transfer. In this way, the social benefits can be maximized, the technology development can be made sustainable and preclude governmental financial burdens.

Environmental Management

The business administration should also take note of the recent development of ISO-14000 management system. In brevity, the ISO requires enterprises to set up an environmental management mechanism as follows :

1) Appointing a Green Manager : He or she will be responsible for organizing and helping in the production activities. He or she will ensure that the final products comply with environmental standards, and that these standards are thoroughly implemented.

2) Formulating an overall environmental management strategy: the scope includes assessment of factory sites, office environment, production process and the designated goals for all corporate activities so as to achieve improvement in environmental quality.

3) Setting up an Environmental Information System: this will facilitate the information flow from the administration to rank-and-file and help set up registration and assessment mechanism. The EIS will keep all the information in file for the "environment auditor" to carry out random inspection.

4) Formulating Environmental Protection Objectives: this will help to review the perspective of sustainable development designated in the 1992 Earth Summit. For example, 5% of natural resource exploration rate will be cut in order to maintain the omission level of greenhouse gas in 1990 level.

5) Publishing Environmental Management Practical Guide: this will provide detailed environmental protection working guidelines for all staff members to implement environmental protection. In this perspective, environmental protection is not only a public relation exercise or our ideal state of a corporation, but also a requirement of production and quality control and an edge in a highly competitive global market.

World President's Visit

JCI World President David Oji was in Hong Kong for a 3-day visit in August. A team led by NVP Iris Chan and assisted by Shatin JC, Apex JC & Kowloon JC was formed to arrange for the reception. Due to his short stay, WP David has to follow a very tight schedule, especially on August 16, the second day upon his arrival. Early in the morning, a press conference was held which was well attended by reporters from a number of newspapers. WP David first talked about the background and objectives of JCI. He then walked through his audience the 5 opportunities and the "Mottanai" campaign. After the press conference, a luncheon with NOM officers and JCI EVP George was held.

WP David with the Jayceettes

In the afternoon, accompanying by JCI EVP George, NP Raymond & EVP William, WP David visited the government Home Affairs Branch and met its Assistant Director, Mr W P Wong. Mr Wong praised the contributions made by HKJCC towards the betterment of the community and that JC is well-known for being a leadership development organization. He also encouraged JC to continue its involvement in community development.

The party also paid a courtesy call to Xinhua News Agency. They were received by Mr Zhang Jun Sheng, the Vice-Director. To everyone's surprise, WP David conversed with Mr Zhang in Putonghua fluently. He disclosed that he had Chinese blood and has a Chinese name, 王子英. During the meeting, Mr Zhang assured that all civic organizations would be able to carry on their activities as long as they support the "One China" principle. This was the second time in 8 years that the World President of JCI visited the Xinhua News Agency since Past WP Jennifer Yu's call in 1988.

WP David then made his presence at the Parklane dinner reception to meet Jaycees and other guests. Prior to the dinner, there was also an informal forum for the Presidents from 16 LOMs. Everyone enjoyed the companionship with WP David during the dinner as he took turn to spend 10-15 minutes chatting openly with each table.

After a meeting-packed day in Hong Kong, WP David went to Macau on August 17 and spent the whole day there with the Macau JC. He flew back to the US the next day.

WP David with the NOM Officers

by National International Affairs Director, Dennis Mak

Meeting World President David Hide Oji

by Linda Wong

One of the duties of the World President is to visit about 60 member countries during his term of office. In mid August WP David Oji made his official call to Hong Kong and Macau. "My purpose of visiting Hong Kong is to see how you are doing here. Especially at the national level, I want to meet the national officers and, if possible, give advice to the coming president," explained WP David.

As WP David said, Hong Kong is famous for utilizing the WP's visit. He had a very tight itinerary for his 3 days' stop. On 15 August, 1995, about 10 national and local officers and myself were given half an hour interviewing the World President. After spending a whole day meeting Jaycees from all levels, he looked a little tired. Nevertheless he could recover instantly for just a short break of 5 minutes. Energetically and amicably, WP David shared with us what he had seen and felt visiting so many countries.

Reflections on Global Visit

"Coming back to Asia gives me a feeling of returning home (WP David comes from Japan). Thus I am much more relaxing in Asia and I have been traveling in this region several times before," said WP David. But sometimes it is of a lot of fun traveling to the other parts of the world."When I called on the Caribbean's, the first day I was exposed to Spanish. Then in the second day I met people all speaking French. In the third day I used English to communicate with Jaycees and in the fourth day people switched to Dutch. It is so interesting to witness the change of culture as I carry on my journey." However, some of the backward development WP David saw could bring him mixed feeling amidst the pleasure of meeting so many new friends. "Seeing Asia, like Malaysia and Thailand, here everywhere is full of hope as the place is developing. Africa is totally different. I can see some very nice cities such as Nairobi of Kenya where skyscrapers symbolize their modernization. Nevertheless, just 10 miles outside the modern cities I am astonished to find the dark side of the world - it's the backward and poverty-stricken shanty-towns. And even in the cities, people have no knowledge to maintain what they have developed. Similarly, we spend a lot of money in developing Africa, the Jaycee organization re-establishes and disappears and the cycle repeats again and again. May be they have been trying their very best. But the question of how Africa can be developed comes round to me from time to time." In summing up his experience of extensive traveling, WP David stressed his vision of global citizenship as he was assured that people all over the world have become so dependent on each other.

Subconscious Desire

WP David was born in 1955 and joined Jaycees in 1980. Before elected World President this year, he was the 1991 JCI VP and 1994 JCI Treasurer. While most Jaycees in Hong Kong maintain a Jaycee life cycle of three years, why does WP David's Jaycee zest can keep burning for 16 years? Why does he have such a strong desire to become the top man of the organization, especially when he has to make a second attempt to have his dreams fulfilled? "After my induction in May 1980, I just followed the seniors to attend the World Congress that year in November in Osaka. The conference was very well organized and promoted. There was extensive coverage and publicity in the press and I could see the conference logo everywhere; it went with the cigarette and with the bear. To me everything was so interesting and so impressive. Even unexpected is that a Japanese was running for World President for 1981. Maybe what I experienced in this conference has subconsciously guided me in the past 16 years of my personal development in Jaycees," remembered WP David.

WP David received the interviewing group at his hotel rooms

According to WP David, Jaycees changed him greatly. "I was graduated in 1973. After 20 years in 1993, we had a reunion at the high school in Yokohama and about 20 people turned up. They all said I had the most changes. When I was young, I was mediocre and very quiet. Nobody would recognize whether I was in or not in the room," said WP David. If Jaycees had play a magic to change the quiet David into an outgoing ambassador and a mediocre young boy into a splendid leader, what do you think you can get the most out of your Jaycee involvement?

Upon gaining such valuable achievement with Jaycees, WP David's pay off is to give his brothers the burden of dealing the family business. His family is engaged in several business ventures, including the restaurant, retail/wholesale and lady fashions. As the end of his tenure is approaching, he next personal target is to go back to the family business. He is going to bring back to the business the perseverance and the leadership skill that he was nurtured with Jaycees.

全青聯北京、杭州訪問團紀行

香港青商自一九八八年已和中國最大的青年組織中華全國青年聯合會（全青聯）建立會務及互訪活動，過去曾組團往上海、青島、大連及新疆等地訪問。本年度的訪問團在八月廿四至廿九日到北京及杭州拜訪全青聯總部、浙江省青聯及各政府部門。

訪問團於港澳辦公室正門前合照

在北京期間訪問團拜會了國務院港澳辦公室，獲陳滋英副主任及香港經濟司周波副司長接見，討論香港民間團體過渡九七、九號貨櫃碼頭、聯繫匯率、失業率上升及宏觀調控等問題。另外更拜訪了全青聯、中國青年志願者協會、對外貿易經濟合作部及中央統戰部。八月廿五日下午更舉行「京港兩地勞動法規」研討會，與北京市勞動局張欣慶副局長及多位北京市傑出青年企業家及總經理交流勞動及人事管理經驗。

訪問團在杭州除了趁星期天遊覽了杭州名勝外，先後拜會了浙江省對外經濟貿易委員會、杭州之江旅遊開發區、省政府及省青聯。更獲浙江省魯松庭副省長及省政協耿典華副主席接見，並與多位年青企業家舉行座談，互相分享企業管理手法的經驗，獲益良多。

大家若有興趣與國內青年領袖交流的話，便要密切留意十二月初全青聯訪問團來港的有關活動了。

訪問團籌委主席李志強

余文昱會長致送紀念品予浙江省魯松庭副省長

Children Convention, Fukuoka

Our 8 junior HK ambassadors at the Fukuoka camp.

Eight junior ambassadors represented Hong Kong to attend the 7th Asia-Pacific Children Convention in Fukuoka, Japan. The children spent the first 5 days in the camp. During their stay, they were given a chance to make friends with children from more than 40 districts in the Asia-Pacific area. After 5 days' gathering, every child then stayed with a Japanese family for one week and experienced the genuine Japanese life style. It was a valuable experience for the children to attend such kind of international meeting as it helps the children to understand and appreciate the different culture of various Asian countries. As a result, world peace is also promoted.

After this trip, the children brought home with a lot of interesting and valuable memories. Nevertheless, they have one feeling in common: "Things are very expensive in Japan". As the chairperson, my feeling after this trip is "the life in Hong Kong is easier than that in Japan".

by Sanny Chan, Lion Rock Jaycees

Setting for Fukuoka at the Hong Kong International Airport

Members Training VI – Goal Setting & Time Management

What is a Goal?
A Goal is a Dream with a Deadline.
A Goal without a Plan is nothing but a Dream.

In 6th Members Training which was hosted by Ocean Jaycees on August 2, Mr. Chester Tsang - Human Resources Manager of Hospital Authority had shared his vision on Goal Setting with about 130 participants. Our guest speaker also shared his experience in Disney World from USA, and concluded that an enterprise with clear-cut goals is much more likely to succeed. Mr. Tsang also emphasized that in setting goals, one should keep a word "SMART" i.e. A Goals should be "Specific", "Measurable", "Attainable", "Realistic" and last but not the least one must "TELL" the world.

Wesley speaking on the topic of Time Management

Yesterday is a cancelled cheque.
Tomorrow is a promissory note.
Today is cash, spend it wisely.

Participants were very much enjoyed by the lively talk from JC Wesley Chau - Certified Member Trainer. Many examples had been quoted and the atmosphere was extremely relaxing. According to Wesley, setting a priority is essential to Time Management. By applying 'PARETO PRINCIPLE 80/20 RULE, you will know more about how to identify your most important tasks. The seminar had also successfully attracted more than 40 non-Jaycees to attend.

Members Training VII

The seventh Members Training programme, Public Relations & Interpersonal Skills, (MT VII) was successfully held on 13th September, 1995 at the Duke of Windsor Social Service Building in Wanchai. It was hosted by Peninsula Jaycees and attracted over 90 members/prospective members to attend the seminar.

We were honoured to have Mr. Wai Kee-Shun, the Managing Director of United Public Relations Company and Senator Caroline Keung (International Graduate of JCI) to share with us their valuable experiences on public relations and interpersonal skills.

The MTVII is well-attended by 90 participants

Prospective Members Orientation V

On September 16, 1995, Tai Pan Shan Jaycees hosted the Fifth Prospective Members Orientation at City University of Hong Kong. The event was a great success with 120 participants. Our speakers, Senator Petrus Yung and Senator Junia Ho, were well received by the audience. Senator Petrus gave an overview on the historical development of Jaycees, including the current structure of the organization while Senator Junia spoke in length on personal development and opportunities to be given as a Jaycee member. The group discussions added to the success as the prospective members actively firing off questions to the team leaders.

Senator Petrus Yung giving an overview of JC history

NOM National Functions

BID BOOK SEMINAR

The Bid Book Seminar participated by 50 Jaycees was jointly hosted by Ocean Jaycees and Apex Jaycees on 6th September 1995. First, we had Senator Bassanio So to share with us his ideas of the stragetic planning of Bid Book "競投冊、競投策". He also talked about Bid Book Development, the Law of Perception, the Law of Leadership and the Law of Focus. In a nutshell, he concluded that a Bid Book should contain of "三言兩語". That should be "言之有中" "言之由衷" "言之鑿鑿","語出驚人" and "語意相關"

In the second part of the seminar, Past Bid Book Judges, NHT Thomas Ho, Senator K. M. Lau and Immediate Past President of Kowloon Jaycees Amy Chan talked about the joy and fun of judging Bid Books in ASPAC.

As a usual JC practice, the assembly has a group photo after the seminar.

Trainers' Circle Gathering

The Training and Development Committe (TDC) had arranged the 3rd trainers' circle gathering on the 31st July, 1995 at the Charterhouse, Wanchai.

We were delighted to have Mr. Derek Sung as our guest speaker. Mr. Sung is the Chairman of the Chinese speech sub-committee and he belongs to the Hong Kong Schools Music and Speech Association. In fact, most of the NOM/LOM officers had met him before at the Executive Development Programme II in which he delivered a training session on the topic: "Communication, Image-enhancing & Rapport Development".

About 20 participants were actively involved in the 90-minute session of "Public speaking" presented by Mr. Sung. He highlighted the two important elements of public speaking: verbal expression and non-verbal expression. Regarding verbal expression, we have to pay attention to the volume, inflexion, rhythm, utterance, stress & pause when we vocal our voice. As for non-verbal expression, we were reminded to improve our eye-contact, facial expression, gesture, proximity and posture. Last but not the least, we will definitely make an effective presentation if we love our topic and our audience.

With the help of the participant Mr. Sung illustrates the skill of public speaking

會長學堂

「會長學堂」是甚麼？

所謂「會長學堂」，是專為未來會長候選人及其內閣成員而設的。課程目的在於為有意向及潛質在青商架構上當領導地位的會員，提早給予各方面的訓練，好讓他們正式上任時，可以具備充足的信心，履行會長職責。

為甚麼做會長都要學？

做會長是否很困難，做會長好唔好玩？

「好玩，好玩，好好玩，

玩多幾玩無得彈，玩兩玩，番兩番，

原來都係佢最嚫。」

以上是我們今屆學堂的同學，在八月十九日及二十日的學堂中創作的記號。在自我激勵之餘，亦表現了我們的群體心態。但請不要誤會，我們當然知道做一會之長的責任重大，還要向會員大會有所交待，所以在接受此挑戰之餘，亦抱戰戰兢兢的心情。

的而且確，所謂「好唔好玩」完全是個人心態問題。在青商，最大的目標莫過於訓練自己，無論是參與訓練課程，或是籌辦工作計劃，目的是要經實踐訓練自己。所以青商精神在於POSITIVE THINKING，積極進取。即使是辛勞及困難的項目，我們也覺得「好玩」。

廖懿珍

NOM National Functions

商務協進部活動

參觀可口可樂汽水廠

九月八日，在主席古兆勳的帶領下，青商齊集沙田小瀝源太古汽水廠參觀。當日各會友除了參觀可口可樂博物館外，廠方代表還介紹整個汽水的製造及包裝過程，並且安排放映了一套有關可口可樂發展史的短片，令與會者頓生「時光倒流」的感覺。

與前世界會長 Mr. Ira Dan Kaye 分享經驗

香港青年商會商務協進部於八月八日假尖沙咀香港奧麗酒店舉行八月份午餐例會。當日邀得前世界總會會長Mr. Ira Dan Kaye與會員分享經驗，出席者包括總會會長余文星參議員，商務協進部主席古兆勳等。

Mr. Kaye表示，香港是一個充滿機會的地方，只要願意付出時間和努力，收穫將會很大，其中尤以參予青年商會活動最有價值。不但認識了一班志同道合的朋友，更建立了一個良好的網絡，為日後的事業及個人發展舖下了康莊大道。

此外，Mr Kaye更指出，當遇到挫折的時候，切勿氣餒，因為美好的將來正藏在挫折的背後！正所謂「失敗乃成功之母，經驗乃智慧之父」。

前世界總會會長Mr. Kaye說得精采，與會者聽得入神

TEN OUTSTANDING PERSONS SELECTION 1995 UPDATE

While we have approached the second phase of this exciting program, we would like to draw your attention to the following highlights:

***Tram Parade on Aug 6**
A very successful promotion! Special thanks to the full support of Hong Kong Tramways Ltd, Television Broadcast Ltd, numerous press & media representatives, past TOYP awardees and the last but not the least, our fellow Jaycees!

*** TOYP Phone card**
Best Collection! Limited Edition only! Just 2,000 sets. Make your reservation NOW by returning the reply slip on our circular with your cheque! (For details please refer to the TOYP Phone Card circular)

***2nd Press Conference on Oct 22**
Names of the newly selected TOYP awardees will be announced during the 2nd Press Conferenece on Oct 22. Join us to congratulate the outstanding persons!
Venue: Omni Hong Kong Hotel
Time: 10:30 am to 12:00 noon

***Award Presentation Ceremony**
Make yourselves available on Nov 26. Come and feel the excitement for the new awardees!
Venue: Concert Hall, Hong Kong Cultural Centre
Time: 08:00 pm to 10:00 pm

午餐後眾人合照留念

青商環保活動巡禮

在一些綠色團體大力鼓吹之下，部份香港市民漸漸醒覺到環保的重要。從今年中開始，香港青年商會其中兩個分會亦不約而同地響應這個主題，籌辦了兩個特色迥異的工作計劃。

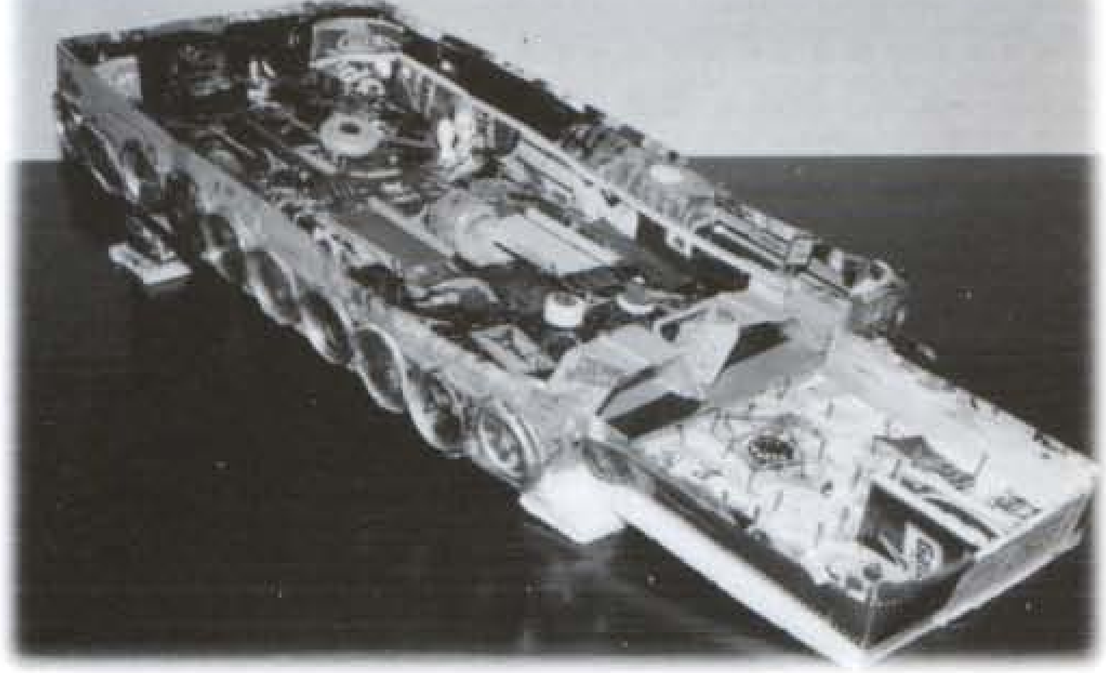

這兩個工作計劃分別是由晉峰青年商會舉辦的「廢物再利用」模型創作比賽和香港女青年商會舉辦的環保產品比賽。

1.「廢物再利用」模型創作比賽

這個工作計劃是由晉峰青年商會及日本岐阜青年商會合辦的。主旨是透過富創意的模型比賽提倡「反浪費」之風。

經過三個多月的籌辦及宣傳，公眾反應熱烈，一共接獲百多件參賽作品，經過評判團細心的審定，最後選出了冠亞季三件作品。冠軍是一部以太空歷險為題的波子機，亞軍是一個實用的老人購物助行器，而季軍則是一個幾可亂真的紙造古瓶。

由於參賽作品水準極高及饒有創意，香港生產力促進局已答應免費撥出場地，於十月六日至十二日在其九龍塘展覽廳給予晉峰青年商會展出所有作品，供市民參觀，希望透過是次展覽，進一步提高市民的環保意識。

廢物再利用一看這件作品多麼別出心裁

環得產品比賽記者招待場面熱鬧，座無虛設。

2. 環保產品比賽

由香港女青年商會舉辦的「環保產品比賽」則以公司為對象，旨在鼓勵更多廠商參與環保活動。參賽產品分為工業和消費兩大類。評分標準以該產品之保護環境特性（外觀及技術設計）、品質、實際功能、安全性、節省資源、操作簡易程度等來作評審。每組產品均設有金、銀、銅獎。

工業組金獎產品是捷眾造紙有限公司出產之塗佈白板紙。銀獎產品是紙品店有限公司代理之環保紙張系列。銅獎產品則是汽巴－嘉基（香港）有限公司出產之汽巴克隆LS染料。

消費組金獎產品是煒華洋行代理之「高適」環保尿片。銀獎產品是星光商品有限公司出產之紙造筆盒、筆筒及紙耳環。銅獎產品是西雅圖貿易有限公司代理之「樂聲牌」慳電燈膽。

頒獎禮已於九月三日隆重舉行，並獲得熱烈的支持，各界予以各產品極高評價。

消費組得獎者合影留念

卡拉OK大賽

第三屆亞太區青商卡拉OK大賽香港區選拔賽，分別已於七月廿二日、八月廿日進行初賽及決賽。決賽當日，各有實力的參賽者大顯歌藝，最辛苦的就是評判，他們要從參賽者中選出男、女方各三名得獎者。結果男子組冠軍為胡建文（浩洋），亞軍陳芝榮（浩洋）及季軍許德立（太平山），女子組冠軍則為羅嘉雯（維多利亞）、亞軍鍾燕玲（海港）及季軍張美蘭（浩洋）。他們將於日內前赴佛山及台灣代表香港區參賽，為香港青商爭光。

一線之光

"一線之光"是一個有關眼睛健康的工作計劃，藉以提高市民對眼睛護理的認識及其重要性。活動內容包括8月28日的記者招待會及9月3日的專題講座、圖片和資料展覽、免費驗眼服務、提供有關眼睛健康資料及諮詢服務、並有盲人歌唱表演、免費攤位遊戲及呼籲市民簽名募捐眼角膜等。當日現場反應非常熱烈，出席及參與的嘉賓和市民約共4,000人。其後，協辦機構香港眼庫來函証實是次活動即席收到了15份認捐眼角膜表格，並表揚本會的服務社會精神。

市民踴躍參予免費驗眼服務

"Gearing up for Mandatory Provident Fund" Seminar

The Legislative Council has just passed the Mandatory Provident Fund Scheme Bill. The Ordinance provides for the main principles of the MPF(Mandatory Provident Fund) system. In implementing this system. It is expected that HK$20 billion contribution will be generated each year. As the scheme will have a tremendous impact, Dragon Jaycees arranged a seminar to look at the practical aspect of implementing the MPF on Sept 16, 1995 at Regent Hotel.

Prominent speakers including Mrs. Pamela Tam, Deputy Secretary for Financial Services (MPF); leading figures from the investment firm, insurance company and trustee firm were invited to conduct the seminar. Various aspects of the MPF system were covered in the seminar, including basic principles, key-features,and monitoring of the system, interface with Occupational Retirement Schemes Ordinance, Residual Provident Fund Scheme and Compensation Fund, impact on investment industry, selection of fund manager, setting up of new schemes and trusteeship. About 150 participants attended this seminar. The seminar ended with a heated discussion in the open forum.

Mrs Pamela Tam receiving a lot of questions from the press after the seminar

LOM Chapter Activities

HONG KONG / CHINA YOUTH LIFE EXPERIENCE CAMP

30 youths from different schools were selected and together with 15 Jayceettes, we set off to Conghua, Guangzhou for the 4-day camp where these youths would spend the days with 30 youths from Conghua. We had the 'little teacher' session where Hong Kong youths learnt Mandarin from their Chinese counterparts while the Hong Kong youths taught English pronounciation to the Chinese students. The programme included farm visits, home visits, role play activities and games etc., through which the youths had much interactions and chances to exchange views.

The project achieved what the ambitions we had for launching this project: giving the children a chance to know what are the differences between them and Chinese youths and learn to adapt to cultural differences and go along with others.

by Corrina Wong, Jayceette

HEALTHY DIET FOR YOUR FAMILY

The Project, organized by Peninusla JC, was aimed to study the current eating habit of people in Hong Kong (including the young, the adult and the elderly), to educate and to arouse their attention towards healthy eating on the correct concept. A survey was conducted to collect information regarding eating habits of these three groups of people with the assistance of Dr Georgia Gulden and Ms Hui Wai Hing (community Dietitian). The survey result was annouced during the opening ceremony on 26th August 1995 which was well received by the Press.

The Healthy Diet Exhibition visitors were interviewed by TVB

The programme held at the Arena of the New Town Plaza included exhibition, medical check-up (blood sugar and blood pressure) and educational games (including Q & A, computer games and children quiz). These programs turned out to be a great success and the public enjoyed themselves very much with the games. The organizing committee was over-whelmed with joy as the project has successfully refreshed the public of what 'Healthy Diet' should be and the importance of "Healthy Eating".

GLAUCOMA EXHIBITION AND SCREENING

A 4 months long community development project "Exhibition and Screening of Glaucoma" jointly organized by Harbour Jaycees and Evangel Hospital was launched with the Opening Ceremony held on 29th July 1995 at Laguna City Plaza. Glaucoma is one of the common eye diseases in Hong Kong and according to health statistics, each year more than 100 people suffering from the disease end up blind. Early detection by regular screening will ensure that the disease is treated at an early stage. The project provided free-of-charge exhibition and screening of the Glaucoma for the general public on every Saturday in the coming 4 months at 17 locations throughout Hong Kong. The project also aims to provide valuable data to assist the medical profession to evaluate the scale of Glaucoma in Hong Kong, as no such data is presently available.

A nurse carefully examining the eyes of an elderly participant

Although the screening was mainly targeted at persons of over 50 years old, the Opening Ceremony and screening had attracted more than 500 people and benefitted a large audience of all ages by attending the on site exhibition, performance and educational games. The project target is to screen at least 3000 persons. Up to this moment, the project is in full swing and received favourable response from members of the public, with more than 1500 elderly people benefit from the screening in the past 8 weeks.

by Edwin Cham, Harbour Jaycees

Four Chapters Fun Day

PJC, BJC, DJC & NDJC had jointly hosted a fellowship function on 13th August, 1995 at Lei Yue Mun Country Park. It was really exciting as this project was lucky enough to be held on the day following the hoist of No. 8 typhoon signal.

As the weather was cloudy, all the activities were arranged indoors. Despite the poor weather condition, there were a total of 110 participants turned up and most of them showed their support by bringing their family members too.

The big group was divided into different small teams comprising members from different Chapters. It was a very good opportunity for them to know each other better and enhance their cooperation to the full to compete for the best result. Besides exciting games such as Jaycees knowledge quiz, the participants all enjoyed a wonderful BBQ evening.

The 4 Chapter Presidents exchanging souvenir flags

《青商公民知多D問答比賽》

由晉峰青年商會及紫荊青年商會合辦之“青商公民知多D”，已於九月三日在城市大學舉行。當日場面非常熱鬧，共有七個分會派隊出賽，而到場參觀及打氣之青商及朋友亦超過百多人。

當日之戰況非常激烈，初賽分三組，其中成績最好之三隊可進入決賽爭奪冠軍寶座。所有賽事之問答題均圍繞青商知識、青商禮儀、會議程序法、公民知識、經濟事務等發問；而問題之深淺程度亦隨著賽事進入決賽階段而加深。此外，賽事亦設有‘博分大比拼’，參賽者可就自己之得分而決定投注數碼多少，但結果賽後有多隊只得到「清盤大賞」。經過一番龍爭虎鬥後，最後由維多利亞青年商會勇奪冠軍榮譽，紫荊青年商會及半島青年商會則分別奪得亞軍及季軍，城市青年商會則奪得最佳合作獎。

Eagle Star Innovative Entrepreneurs Selection

Awardees of Innovative Entrepreneur 1995

"Innovative Entrepreneurs of the Year 1995" was one of the biggest projects of City Jaycees of this year. The main objectives are to motivate people to develop their business creatively and to recognise the achievements of the outstanding performers. Furthermore, it is also a golden opportunity for Jaycee members to share the valuable experience with the seminar speakers, especially those who want to develop their own business.

At the initial phase of the project, a press conference and a seminar were organized to bring to the public's attention of this Selection. Then nomination was inivited from an extensive spectrum of business. After preliminary screening by the organizing committee, 15 out of 40 candidates were short-listed for final interview. It resulted in honouring five Innovative Entrepreneur Awards and one Idealistic Entrepreneur Award.

Professor Edward Chen addressing at the Award Presentation Ceremony

The Award Presentation Ceremony was then held on August 19 with the presence of Professor Edward Chen, CBE, JP and other award judges. On that day in the afternoon, two seminars were held to promote the Venture Capital Assoication. The program was concluded by an MTR roadshow at the Admiralty Station. As the whole program was given extensive press coverage, it is hoped that this program can be continued in next year.

Character

SIR ROGER LOBO

Life Commitment in Community Services

By Linda Wong

Sir Roger Lobo, a household name in Hong Kong. Not only because he had been the Senior Member of Legislative Council between 1980 and 1985 and was made a Knight Bachelor by Her Majesty the Queen in 1985, but also that he is extremely active in public services. Just take a look at his private and public involvement, we can appreciate how energetic he is, especially at the age of 72. Besides taking up directorship of a few well-known companies, Sir Roger is currently the Chairman of Hong Kong Broadcasting Authority, Chairman of Advisory Committee on Post-retirement Employment, Chairman of Vision 2047 Foundation, Vice-Patron of the Community Chest of Hong Kong, Vice-Patron of the Society for the Rehabilitation of Offenders, Vice-Patron of the Hongkong Society for the Aged, and connected with several other organizations.

A Marco Perspective of Telecommunications

Interviewing the Chairman of Hong Kong Broadcasting Authority, of course, I would like him to tell us about the major agenda of the talk of the town - the broadcasting regulations."Firstly, there is a worldwide problem that the development of technology in telecommunication is faster than legislation. When we put up a new legislation to regulate the industry, its technology changes before the regulation can be implemented. It's just so difficult to catch up with technology advancement. Thus we are facing an arguement of whether we should liberalise the regulation or to de-regulate the industry. Second, we want to create a good level plain field to make Hong Kong attractive to more people. Geographically, Hong Kong is 5 hours radius for half of world population. To be the hub of the Asia Pacific region, we have to make sure our regulation and facilities can accommodate free and fair competition. Thirdly, the Asia Pacific region harbours an immense diversity of language, culture and religion. Any step to take can be extremely sensitive, for example, if we broadcast a cooking program on how to make delicious pork, we are upsetting the Muslims. We have to be very careful of not to offend our neighbouring friends," said Sir Roger solemnly.

Jaycee Enlightenment

Sir Roger, (2nd on the right), J S Lee (1st, right) and A de O Sales (fifth from Left) returning to Hong Kong from the Philippine Asian Congress after the successful bid for the hosting right of 1962 World Congress

Born on 15 September, 1923 in Macau, Sir Roger had his education at Seminario de S. Jose and Liceu Nacional Infante D. Henrique in Macau and La Salle College in Hong Kong. When Philippine Jaycee Mr Johnny Ng spread Jayceeism to Hong Kong, Sir Roger was so enthusiastic about the spirit of the Jaycee Creed and became a founding member of the Hong Kong Jaycees in 1950. He then took up the Presidency in 1954-55. Next year, he advanced to the international level by being the Deputy of the World President in 1956. On the other hand, he was a member of the Civil Aid Service in 1955 and became involved in more and more community services.

Sir Roger meeting Jaycees from Philippines, Malaysia and the United States at the HK World Congress 1962

Character SIR ROGER LOBO

But what makes Sir Roger so entrench with the public service? "It all attributes to Jaycees. In the early days, our community was very different from what it is today. There was very little work on social welfare services. Joining Jaycees is the turning point in my life. It opened my eyes, my heart and my thinking about the community, the people and the service to the community. Otherwise, I wouldn't have been so involved in government and public services as I have come up with today," remembered Sir Roger.

His spirit of community services was ignited when he and some 20 Jaycee volunteers wanted to take children living in wooden huts to the beach. The children could not go because they were helping their parents to make plastic flowers. The volunteer group ended up paying each child's parents 50 cents for the 2 hours they took them to the beach. Then Sir Roger added, "Even though Hong Kong has developed into an affluent society, there are still a lot of people who are with housing, education and hospital problems. Hong Kong is actually is a very stressful place. We have a lot of rich people, but there is also a big crowd of very frustrated people. There are people who have big houses in contrast to those who have a small bed space for the whole family. We are housing so many people in public housing, yet we also move people far away from where they originally live, making them lose contact with their friends. That's why we need to reach out to the lonely people." Pointing to a picture hanging on the wall of his office, Sir Roger explained, "The woman with a blanket reminds me that there are always people who need to be wrapped, people who need to be fed and people who need to be helped."

Give and Take

To serve the community at such a high profile as Sir Roger does is not just a matter of devoting one's own time, but also to sacrifice other things in life. "Perhaps I have made sacrifice for my own business. For example, I seldom take up directorship when I serve the government as there is a conflict of interest. Nevertheless, it can't be measured." said Sir Roger. For his family, complaints are inevitable but they all understand that working all the time is life-style of Sir Roger. Some memories brought to his mind, "When I was active in Jaycees, I worked nearly every Sunday morning either preparing a document or a speech. Then my daughter would always open the door of my study room and shut it and say - Oh Jaycee, and ran away. " Sir Roger has a big family of 5 sons and 5 daughters. He is contented that he has given all his children education up to University level. They are all self-made and working. "Perhaps what I have given them the best is a name that their father is a good honest man," smiled Sir Roger.

Even at the age of 72, Sir Roger has never thought of retiring. It is because "If I'm not doing anything, I would rather say to myself that I better die. Although some of my friends are happy with retirement, it is simply not my life style. Especially if mentally I stop using my mind, physically I feel I am deteriorated. I prefer to do less and less and keep being active." Now Sunday is a rest day as well as a family day for Sir Roger. Usually he plays golf in the morning and the rest of his time is dedicated to the family.

Look! What a big family.

While he is so busy with the community services, each year Sir Roger goes back to Jaycees to be the Principal Judge of the Ten Outstanding Young Persons Selection. It is sense of belonging that counts. At the end of the interview, he gave us a short piece of advice which echoes his reflections on Jaycee days. "When we look at the Jaycee movement, we will appreciate what Jaycee really means. Once a Jaycee, our thinking and ways of doing things are bound by the Jaycee Creed. This becomes a training ground to lead us to the future. Perhaps you won't appreciate the Jaycee values right now because you are so involved. But one day when you sit back and you will see that all the seeds planted are grooming. The Jaycee days are virtually the most valuable days in life."

NOM/LOM Up-Coming Events

Member Training VIII (NOM)

Hosted by: Queensway Jaycees & East Kowloon Jaycees
Tropic: JC Protocol
Speaker: Senator Eddy Wong, Past National President, JC Joseph Ho, Ocean Jaycees President
Date: October 31, 1995(Tue)
Time: 7:00pm to 9:30pm
Venue: To be advised
Fee: HK$90

JCI VISION 2000

REPORT OF THE STRATEGIC PLANNING COMMITTEE

I. THE WORLD IN THE YEAR 2000

Communication Society • Internationalism • Environment • Economy • Education • Individualism

II. MISSION STATEMENT

To contribute to the advancement of the global community by providing the opportunity for young people to develop the leadership skills, social responsibility, entrepreneurship and fellowship necessary to create positive change.

III. VISION

By the year 2000 Junior Chamber International will be the premier organization providing new leadership development opportunities to enhance the quality of life within a global network.

IV. PROPOSALS

Individual Opportunities	Management Opportunities	Community Opportunities	International Opportunities	Business Opportunities
1. That 100 national organizations be electronically linked.				
2. That all the activities of the organization be oriented to develop the potential and skills of the individual member.	5. That the minimum chapter membership be 25 members.	8. That every chapter be entitled to access and contribute to a JCI World Data Bank of projects conducted and concluded at all levels.	11. That JCI, through the World President, be prepared and able to take a stand on issues related to the JCI Creed and to comment publicly on these issues.	14. That entrepreneurship be part of the JCI Mission.
3. That new training programs be offered at each level – local, national and International – to enhance the contemporary communication techniques and business skills of the individual member.	6. That JCI minimize the negative effect of currency fluctuations within the organization.	9. That the corporate identity of Junior Chamber and its impact in the community at all levels be enhanced. In this perspective, that a worldwide JCI competition be conducted to adopt a short definition of JCI and its Vision 2000.	12. That stronger cooperations between Africa and Europe, as well as within the Americas and the Caribbean, be developed and that the potential for extension in large territories in Asia be addressed.	15. That the International Business Network (IBN) become a worldwide electronic network of members registering for business activities at World Congresses and Area conferences.
4. That Associate status be offered to current members when they reach the age of 41.	7. That the JCI Senatorship include five years of communication from JCI and the fee be increased to US$250. That this service be offered to all Senators for a subscription of US$50.	10. That The Outstanding Young Persons of the World (TOYP honorees) receive their trophies from the JCI President at an event in their own countries.	13. That the JCI World Congress be condensed to five days in order to encourage maximum participation.	16. That a code of ethics be established for business activities within Junior Chamber.
17. That strategic planning (including JCI Vision 2000) be encourage at all levels

JCI News

Looking for Business?

Join IBN & Network With the World

Join JCI's International Business Network (IBN) and develop business contact with Junior Chamber members in over 75 countries. Whether you are interested in worldwide trading, finding a supplier of a particular service or an investor for your new product, the IBN will provide you with unique networking opportunities.

IBN's worldwide network of Associates includes current and past Junior Chamber members eager to do business locally or internationally. Professionals and entrepreneurs alike can take advantage of this direct service of the JCI Headquarters.

IBN business seminars and contact sessions will be offered to all Associates during the JCI World Congress in November 1995 in Glasgow, Scotland.

How You Can Join

For an initial fee of US$200 and an annual renewal fee of US$100, IBN Associates receive the following services from JCI Headquarters in Coral Gables, Florida: a directory of all IBN Associates, including many details about their businesses; up to three entries in the IBN Directory of Associate (one per business or activity); a subscription to the IBN newsletter with an opportunity to further advertise business interests; and access to all IBN meetings, seminars and services offered at JCI Area conferences and World Congresses.

To receive an IBN brochure and application form, please contact the IBN Director at the JCI World Headquarters, 400 University Drive, Coral Gables, FL 33134. TEL: (305) 446-7608; FAX: (305) 442-0041.

You can also now reach IBN on the Internet: - jciibn@aol.com

Glasgow World Congress

The best ever: training program

The Junior Chamber Scotland Training Team and JCI are working hard to ensure that the 50th JCI World Congress presents you with the best training program ever offered at a World Congress.

MAIN TRAINING PROGRAM-November 6-11, 1995

A unique combination of external, world-class trainers and the best Junior Chamber trainers will provide you many learning opportunities during the World Congress in Glasgow. With an average of more than 60 hours of seminars daily, there will be a full range of courses designed to develop the attitudes, knowledge and skills necessary to be a winner in both your business and personal life.

Many trainers have already been confirmed, and negotiations continue to obtain additional innovative presenters.

TRAINING BY NATIONAL ORGANIZATIONS

Many countries have submitted applications to present training sessions during the 50th World Congress. The topics are numerous and promise to be attractive to all members. Titles include Expotential Sexpotential; Dare to Be a Leader; The Japanese Mind Seminar; Dress for Success; The Perfect Omission; The Coaching Quartet; and World Trade Game; Reborn; Reinventing the Organization. Most sessions will be offered in English; however, some will also be presented in French, Spanish and Japanese. THIS IS JUST A SAMPLE OF THE MANY SEMINARS TO BE OFFERED.

EXCEL

EXCEL: The Professional Coaching will be offered in English, Spanish and French. For further information on the required pre-registration for this course, please contact your National President.

LEARNING SEQUENCE

We recognize that, with so many choices, it may be difficult to choose which seminars to attend. To assist you in your selection, we plan to produce a separate, detailed training brochure. In the brochure the training program will be classified into four learning sequences to enhance your career and personal development. The sequences will be INDIVIDUAL, COMMUNTTY, BUSINESS, AND THE JUNIOR CHAMBER SEQUENCE.

Don't miss the chance and call On-to-Glasgow Chairman JTT Rebecca To at 73738893 Now!
