NATIONAL PRESIDENT'S MESSAGE

JCI HONG KONG NATIONAL PRESIDENT
SENATOR KENNETH YU

It has been three years since we Jaycees and Jayceettes have been able to resume our old form of physical events, but when our predecessors were waiting, they also relentlessly improvised with what was available.

They have not lost faith that the earth's great treasure lies in human personality, that even with the pandemic, we can still develop enterprising young leaders. With our devotion and dedication we can still serve our communities, that service to humanity is the best work of life. Thanks to their leadership we have become more equipped, adaptive and resilient.

During the past few years, JCIHK and our affiliated chapters have continued to partner with the government and businesses, and pushed forward with organizing events that have developed members while serving the community. Just last year we also organized the 2022 JCI World Congress with both physical and virtual attendance from all over the world.

Our 2023 theme "Lead to Impact" calls for future leaders like ourselves to continue creating positive impact in our community by leading concerted efforts with our partners and with our affiliated chapters. Concerted efforts to reconnect with local districts and different organizations. Concerted efforts to make our well-organized projects and events known in our communities and abroad. And concerted efforts to assemble a significant delegation to international events where

“ THANKS TO THEIR LEADERSHIP WE HAVE BECOME MORE EQUIPPED, ADAPTIVE AND RESILIENT. ”

all members would benefit from cultural and business exchanges.

With our collaboration, we have been able to achieve significant milestones over the past several months. Our events and causes have been prominent in the community and media, showcasing the dedication and hard work of our members towards creating positive change. We have also provided numerous opportunities for training and learning, empowering our members to develop their skills and capabilities as young leaders. Our monthly town hall meetings have been a platform for members to exchange the latest updates from JCIHK and affiliated chapters that foster communication and collaboration.

Moreover, our efforts have not gone unnoticed, as we have continued our accustomed participation in official HKSAR events as an organization of young enterprising leaders. Together we have provided business opportunities for our members and partners, further strengthening our network and contributing to the growth of our community. Our large delegation to the 2023 JCI ASPAC was a breakthrough, as our members were able to make meaningful connections with government bodies and business organizations, and to position ourselves as a key player in the region.

All of these accomplishments would not have been possible without your dedication and hard work. We are proud of your efforts and contributions towards creating a better future for our community. As we continue to work towards our mission of providing development opportunities that empower young people to create positive change, we look forward to working with you and our partners to achieve even greater success in the future.

INTERVIEW WITH JCI VICE PRESIDENT

Senator Myung-Sik Shin, James

" I BELIEVE THAT THE QUALITIES OF DETERMINATION, PASSION, AND THE COURAGE TO CHALLENGE ESTABLISHED NORMS ARE CRUCIAL FOR A SUCCESSFUL YOUTH LEADER. „

What inspired you to become a youth leader, and how did you get started in this field?

JCIVP: I was inspired to become a youth leader after receiving encouragement from my local Chapter President of JCI Korea. This led me to join JCI and embark on a journey of personal and professional growth. Through my active involvement in JCI, I have dedicated myself to serving the youth and striving to become a leader in this field. Our local organization places a strong emphasis on empowering and engaging young individuals. I believe that the qualities of determination, passion, and the courage to challenge established norms are crucial for a successful youth leader. Additionally, understanding and adapting to the ever-changing trends of our time is essential.

In your opinion, what are some of the key qualities that make a successful youth leader?

JCIVP: In my opinion, successful youth leaders possess a combination of qualities. Firstly, passion is vital. Being deeply committed to their cause and having a genuine drive to create positive change sets them apart. Secondly, they embrace challenges and possess a resilient spirit of determination, constantly seeking growth opportunities. Thirdly, an effective youth leader should demonstrate a strong sense of responsibility and inspire others to take action. Lastly, being able to grasp the pulse of the current generation and adapt their leadership style accordingly is crucial for making a lasting impact.

What are some of the biggest challenges that young leaders face in today's world, and how can they overcome them?

JCIVP: Young leaders face various challenges in today's world. One significant challenge is the intense competition they encounter in their respective fields. Additionally, limited access to economic resources can hinder their progress. However, JCI provides

INTERVIEW WITH JCI SECRETARY GENERAL

a platform where young leaders can overcome these challenges. By actively participating in JCI activities, they can gain valuable experiences, expand their network, and access resources that aid their personal and professional development. Furthermore, engaging with fellow members and utilizing the mentorship opportunities within JCI can provide guidance and support.

What advice would you give to a young person who is interested in becoming a leader but doesn't know where to start?

JCIVP: For young individuals aspiring to become leaders, I would recommend starting by exploring opportunities within organizations like JCI. JCI offers a conducive environment to develop leadership skills, expand one's network, and make a positive impact. Actively engage in local chapters, participate in projects, and collaborate with like-minded individuals. It is also important to seek mentorship from experienced leaders who can provide guidance and share their insights. Remember, leadership is a journey of continuous learning and growth, so embrace every opportunity and never hesitate to step out of your comfort zone.

What message would you like to share with young people around the world who are striving to make a positive change in their communities and beyond?

JCIVP: To all young individuals striving to make a positive change, I want to convey my utmost admiration and support. Your passion, dedication, and determination are the driving forces behind meaningful transformations. Embrace challenges as stepping stones and view setbacks as opportunities for learning and growth. Remember, your actions ripple beyond your immediate community, so continue to make a positive impact and inspire others with your endeavors. Together, we can create a better world.

What do you think are the strengths of Hong Kong's youth population, and how can these strengths be leveraged to attract more international talent to collaborate and exchange ideas with young people in Hong Kong?

JCIVP: The youth in Hong Kong possess remarkable strengths, particularly their rich thoughts and perspectives. Their exposure to diverse cultures, international outlook, and adaptability contribute to their unique strengths. Leveraging these strengths, Hong Kong's youth can actively engage with international talent, fostering cross-cultural exchange and collaboration. By creating platforms, events, and initiatives that facilitate dialogue, idea-sharing, and collaboration, JCI can play a vital role in bringing together young individuals from various countries, stimulating innovative solutions, and creating a global network of passionate change-makers.

How can organizations like JCI help to promote cross-cultural exchange and collaboration between young people in Hong Kong and other countries, and what are some specific initiatives that JCI has undertaken in this area?

JCIVP: JCI recognizes the importance of cross-cultural exchange and collaboration among young people from different countries. To promote this, we actively explore initiatives such as SEAVEZ (Seoul Asia Vision Exchange Zone), which facilitates cultural and business exchange programs. Additionally, JCI leverages its extensive network, connecting central board members and EXCOM members from various countries. By utilizing the platform provided by JCI, young individuals in Hong Kong can establish meaningful connections, exchange ideas, and forge strong friendships with their counterparts worldwide. Furthermore, JCI encourages the utilization of resources like SEAVEZ and SEAVEZ Plus to support the exchange of knowledge, experiences, and expertise among young people globally, fostering mutual growth and understanding.

“2023 年 4 月 29 日 (星期六) 在香港中區立法會道 1 號立法會綜合大樓 (“綜合大樓”) 會議室 1 舉行的會議，就議程第 I 項“開放、接觸、重建互信、共同構建社會期望”發表意見。”

國際青年商會 (JCI) 在全球 104 個國家 / 地區，作為 18-40 歲國際性青年領袖培訓組織，與超過 160,000 會員經常就不同議題聯繫及交流，了解各地及香港的定位及優勢。感謝國家及香港特別行政區政府一直對我們的支持，特別是本會籌辦的『十大傑出青年選舉』這個超過 50 年的項目，這次希望分享更多香港青年的國際視野及定位的建議：

1. 香港可以擔當
「國際青年領袖培訓中心」

香港作為「超級聯繫人」的角色，我們的青年應該做好準備與世界各地的年輕人進行交流，政府每年都會非常支持青年國際交流，好多地區團體及青年組織都非常珍惜這些資源，但年青人有是否預備好向世界「說好香港故事」呢？

國際青年商會香港總會會員每年都會自資外訪超過 70 多次，聯繫不同城市，接近一千會員參加，在出訪前我們為會員提供全面的培訓，做好準備，包括：外交禮儀、國際會議程序、如何與世界年青人建立關係、聯合國可持續發展目標等等，讓我們的會員可以在世界擔當國際青年領袖的角色，成為香港青年的代言人。

經過我們多年來的驗證，發覺成效非常之好，希望政府都可以同我們一起合作，將香港打造成為一個國際青年領袖培訓中心，吸引更多青年人才留港及來港發展。

2. 國際人才應有社會責任，
加強國際人才與香港的青年交流

我們需要吸引國際人才和培育本地人才，政府著力吸引海外人才來港發展，有不同的政策及優惠措施已經做得很好，香港 2019 年的國際人才淨流入量為 5,700 人，但同時間會令香港年青人帶來不安，所以很多香港年青人向海外發展，那麼我們的人才去了哪裏？為什麼不留在香港發展呢？

我們將會向 2000 位香港會員及海外青年發出邀請參加一項調查，了解年輕人的擔憂，他們對未來發展的期望，稍後會公佈調查數據。

國際人才來自不同的文化和背景，香港青年人與他們之間的交流和互動，能夠促進跨文化交流和瞭解，增強本地青年人的社交能力和文化適應能力，例如：國際人才加入青年組織，成為導師人才庫，舉辦『世界青年文化節』、『亞洲青年微電影節』等活動，為本地及國際青年提供更多的文化交流及學習的機會。

3. 地區領袖有熱誠，也要有工具

喜見政府繼續邀請更多年青人參政及議政，因為好多青年人都真係想表達自己的意見，所以自薦計劃都有好多年青人參加，從培訓地區領袖的長遠發展工作，我哋需要為青年人提供培訓，協助他們有知識、有系統地使用工具去分析社會的現況及建議有效的方案去解決，國際青年商會以『行動框架 (Action Framework)』培育青年領袖解決社會問題的流程，從分析、整合資源、創作概念，執行活動至檢討成效。

paving the way for a brighter path in the future.

Several officiating guests attended today's Kick-off Ceremony, including Dr Ko Wing-man, GBS, JP, Chief Judge of Judging Panel; Mr Edward Au, Deloitte China Southern Region Managing Partner; Dr Leung Tung Yeung (2002 Awardee), President of the Outstanding Young Persons' Association, etc.

Mr Kenneth Yu, National President, expressed that the Ten Outstanding Young Persons (TOYP) Selection has a long history and is well-known by the society. It has been held for 51 years since 1970, selecting a total of 397 outstanding young individuals. He sincerely appreciates these awardees for continuing to contribute to Hong Kong and the world after being awarded. This year's theme emphasises the present, urging everyone to take immediate action and encourage our young people to participate and create a better future through the selection process. He said, "We must live in the present, participate in the present, and create the future. I hope all young people and future leaders will join the youth world of the present and work together to create a better dream."

Mr Edward Au, Deloitte China Southern Region Managing Partner, stated that the TOYP Selection reflects society's support for young people, encouraging them to achieve more in their respective fields. Since 1970, the event has become one of the most influential and credible youth selection activities in Hong Kong. Through a rigorous selection process, it identifies representative and influential young individuals from a pool of outstanding candidates. It is believed that their stories will inspire other young people in Hong Kong to progress and contribute more actively to society.

Ko: Grasp the New Normal Post-Pandemic and Unleash Youth Creativity

The judging panel for this year's awards consists of representatives from various sectors of society. The Chief Judge is Dr. Ko Wing-man, GBS, JP, a member of the Executive Council of HKSAR.

Dr Ko Wing-man, in his speech at the Kick-off Ceremony, expressed that this year marks a new chapter for Hong Kong and the TOYP Selection. "After three years of the pandemic, in addition to the 'new normal' coexisting with the virus, both technology and the international situation are in their respective new normals. In this new normal, it is crucial for Hong Kong's future development to quickly emerge from the shadow of the pandemic and find its position in the new normal."

He continued, JCI Hong Kong has chosen "Future" as the theme for the TOYP Selection for two consecutive years, demonstrating the hopes of young entrepreneurs for Hong Kong's new chapter and the proactive attitude of young people in creating new opportunities. "Last year, our focus on the future was on 'observing' and 'building,' encouraging young people to observe the real needs of society and construct comprehensive ideas. This year's focus is on the 'present,' seizing existing resources and advantages,

taking immediate action, and promoting Hong Kong towards a brighter future."

Dr Ko Wing-man pointed out that the power of youth is an important indicator of social development. Hong Kong's young people have achieved outstanding accomplishments on the international stage over the past three years, including the recognition of Dr Ricky Chiu, TOYP Selection 2021 awardee, as a Ten Outstanding Young Persons of the World. This demonstrates that the brilliance of Hong Kong's young people cannot be concealed by the pandemic. "I look forward to seeing not only increasing consumption and outbound tourism from Hong Kong residents after the lifting of pandemic restrictions but also the creativity of Hong Kong's youth!"

Sharing the Experience from 2022 TOYP Awardees

Mr Steven Pun, TOYP awardee last year, shared that he started his own business and ventured into the field of innovative technology. He mentioned that in the initial stages, he might have to invest a lot of time and money without necessarily receiving immediate returns. However, as the company grows, it not only benefits his own company but also creates benefits for suppliers, customers, and society as a whole. He advised young people who aspire to become outstanding youths to be role models and exert influence within their respective fields. He emphasised that the most important aspect of entrepreneurship is understanding how to manage one's time effectively.

Another awardee from last year, Mr Calvin Tse, shared that besides creating wealth through his business, he also hopes to gain more social resources and networks to help more young people in society. He drew inspiration from past challenges, such as the SARS and COVID-19 epidemics, to encourage young people, stating that difficult situations often pass with time. He also shared an encounter where young people asked him about the best time to start a business, to which he responded that there is no perfect time but rather a suitable mindset. He emphasised that taking the first step is crucial, and with a positive mindset, success is possible in any endeavour.

EXPLORING THE OPPORTUNITIES AND CHALLENGES FOR YOUTH IN THE AI ERA: AN INTERVIEW WITH AI EXPERTS

In the rapidly advancing field of artificial intelligence, young people face exciting opportunities and daunting challenges. To shed light on this topic, we conducted interviews with two experts, Dr. Ken Fong and Mr. Ivan So, who shared valuable insights into the applications of AI, particularly ChatGPT, and its impact on the younger generation. Now, let's delve into the interview and explore the future of young people in the AI era.

In the realm of AI, one of the most prominent advancements is ChatGPT, an advanced language model developed by OpenAI. It generates human-like text responses based on given prompts or questions, creating a conversational impression. Its popularity surged overnight due to its ability to generate coherent and contextually relevant text, resembling human conversation. Moreover, its availability and practicality in various applications, such as customer support, content creation, and language translation, contributed to its rapid rise in popularity.

When examining the development of AI, it is crucial to understand its historical progression. The term "artificial intelligence" was coined in 1956, marking the formal establishment of the AI field. Early AI researchers were optimistic about creating intelligence equivalent to human levels.

However, in the 1980s and 1990s, AI experienced a period known as the "AI winter." The initial optimism waned as the limitations of existing approaches became apparent. Funding and interest in AI diminished during this time, leading to a decline in research and development activities.

In the late 1990s and early 2000s, AI research resurged with the advent of machine learning techniques, particularly neural networks. These algorithms enabled AI systems to learn from data and make predictions or decisions. Breakthroughs such as deep learning, which leverages multi-layer neural networks, further propelled the field's advancement.

In recent years, significant progress has been made in AI due to increased computational power, availability of large-scale datasets, and algorithmic breakthroughs. Machine learning techniques, including deep learning, have achieved successful applications in computer vision, natural language processing, and robotics.

AI has now permeated our daily lives, with applications ranging from virtual assistants, recommendation systems, and autonomous vehicles to medical diagnosis and financial forecasting. Researchers continue to push the boundaries of AI, exploring new approaches such as reinforcement learning, generative models, and explainable AI.

It is important to note that AI is an evolving field, and we still have a long way to go before achieving artificial general intelligence (AGI), the goal of matching or surpassing human intelligence in various domains. However, the progress made thus far has laid the foundation for the transformative impact of AI on society.

AI can be categorized in various ways based on its capabilities and functionalities:

1. Artificial General Intelligence (AGI): AGI refers to systems that possess intelligence equivalent to or surpassing human levels across various tasks and domains. These AI systems exhibit broad intelligence capabilities, including learning, understanding, reasoning, and problem-solving.

2. Artificial Narrow Intelligence (ANI): ANI focuses on specific tasks or domains. These AI systems excel in particular tasks but lack cross-domain intelligence. Many current AI applications fall under the category of ANI, such as voice assistants and image recognition systems.

3. Generative Artificial Intelligence: Generative AI is a specific category that emphasizes the ability to generate new content, simulate creativity and imagination. This includes generating images, music, stories, and conversations, producing not only based on existing data but also generating novel concepts and ideas.

4. Machine Learning: Machine learning is a significant subfield of AI that focuses on improving system performance by learning from data. Machine learning can be further divided into different approaches such as supervised learning, unsupervised learning, and reinforcement learning.

5. Deep Learning: Deep learning is a subset of machine learning that utilizes deep neural networks with multiple layers to learn representations and make predictions. Deep learning has revolutionised AI by enabling breakthroughs in computer vision, natural language processing, and other domains.

6. Robotics and Autonomous Systems: AI plays a crucial role in robotics and autonomous systems, where machines are designed to perform tasks or make decisions without human intervention. This field encompasses areas such as self-driving cars, drones, and industrial automation.

During the interview, Dr. Ken Fong and Mr. Ivan So shared their perspectives on the opportunities and challenges that young people face in the AI era:

1. OPPORTUNITIES:

- Dr. Ken Fong emphasised that AI presents numerous opportunities for young people to pursue rewarding careers. The demand for AI professionals is increasing across industries, offering diverse roles such as data scientists, AI researchers, and AI ethicists. Young individuals with a passion for AI can explore these career paths and contribute to the development of innovative solutions.

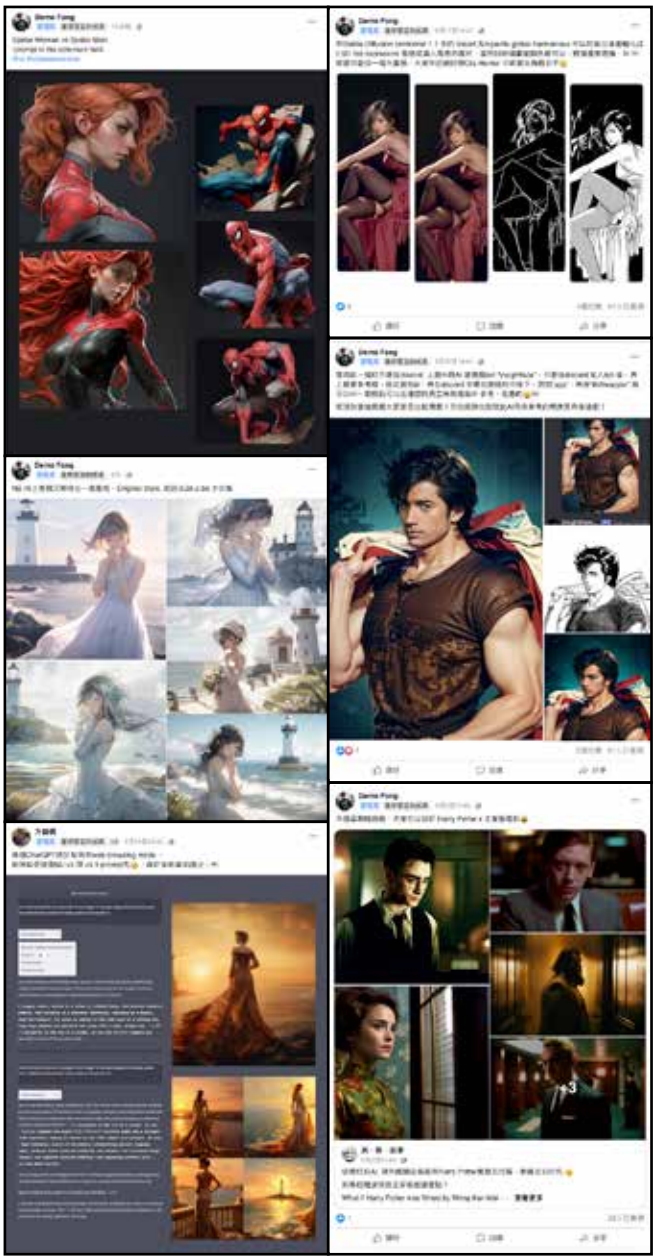

- Mr. Ivan So highlighted the potential for young people to leverage AI tools and technologies to create positive social impact. ChatGPT, for instance, can be utilized to improve accessibility in education, healthcare, and customer service. Young innovators can harness AI to address societal challenges and make a difference in their communities.

2. CHALLENGES:

- Dr. Ken Fong discussed the importance of addressing ethical considerations in AI development and deployment. Young people need to be aware of the potential biases, privacy concerns, and unintended consequences associated with AI systems. Understanding the ethical implications of AI and advocating for responsible AI practices will be crucial in ensuring its beneficial and equitable use.

- Mr. Ivan So highlighted the need for continuous learning and upskilling in the AI field. As AI evolves rapidly, young people must stay updated with the latest advancements, tools, and techniques. Lifelong learning and a multidisciplinary approach will be essential to navigate the dynamic AI landscape.

In conclusion, the AI era presents both exciting opportunities and challenges for young people. With the proliferation of AI technologies, young individuals have the chance to pursue fulfilling careers and make a positive impact. However, they must also be mindful of ethical considerations and the need for continuous learning. By embracing these opportunities and addressing the challenges, young people can shape the future of AI in a responsible and impactful manner.

SUSTAINABLE DEVELOPMENT GOALS

JCI ISLAND

According to 'The Future of Jobs 2020' published by the World Economic Forum, a report by McKinsey & Company, and street interviews that we conducted, we found that future skills are necessary for youths, but only a few of them know about them. Future skills can be grouped into 4 categories: Cognitive, Interpersonal, Self-leadership and Digital.

In response to the 'Blueprint for Hong Kong Youth Development' and the 'Policy Address 2022', in order to allow the youth people in Hong Kong to be more adaptive to the rapid change of the employment market and have more pre-employment training, JCI Island organized LEAD to The FUTURE for two years in a row, one of our flagship projects, to foster our youth in Hong Kong universities and even the public to equip themselves with up-to-date future skills so as to cultivate our young people in Hong Kong having more power to be employed in the market and earlier to acknowledge the need to be well-prepared for their future careers.

LEAD to THE FUTURE aimed to deliver knowledge for undergraduates in future skills development through the training workshops and business case competition, to empower university student participants to have a chance to contribute their breakthrough ideas and disruptive innovation to the business company to facilitate its operations and development. Last year, we had more than 90 teams (5–6 students per team) apply for our competition, and more than 700 head counts (including 100+ working people in the market) attended our workshop about future skills, which reflected the idea of the project and attracted not only our participants, but also the workforce in the society.

Carrying on from last year, we continue to use future skills as our main theme. These skills would be highly useful in their careers and help them to be well equipped to overcome the challenges as well as maintain their competence. Future skills are not only the hard skills, like technical skills, but also the mindset and soft skills that can be used no matter which stages and positions they are in. This year, we continue to have the China Merchants Group as our main sponsor. And for the background on the business case, we are delighted to invite Kerry Network Logistics to be our partner and platinum sponsor. For the participants, we extended our recruitment invitation from 8 universities to 22 higher education institutions in Hong Kong so as to attract more talented students to showcase their ideas and innovation to the society.

For the schedule of this year, here below are the key days of the function:

28 May – Opening Ceremony
4 June – Training Workshop 1
10 June – Training Workshop 2
16 July – Final Competition
6 August – Closing Ceremony

In order to promote this meaningful project and reach outside the scope of people and contribute to society, we would be grateful for your kind donation or any kind of sponsor to support this project. If you also agree with our ideas, and are willing to support the development of the youth in Hong Kong, please don't hesitate to contact our Project Chairman, Vincent Yeung on 4614 1031 or Supervising Officer, Jacky Tsang on 6238 4843.

Empower Upcycling Business for a Sustainable Future - REBORN! Upcycling Product Design Award 2023

To echo with the Municipal Solid Waste (MSW) charging scheme under review by Hong Kong Special Administrative Region (HKSAR) Government, JCI Hong Kong Jayceettes is launching a new project in 2023 - "REBORN! Upcycling Product Design Award 2023" (重新・重生：升級再造產品設計大賞 2023) with a series of activities. The Award is opened for application in April, including information session & industry sharing on upcycling, mindset workshop, judging panel interview, and closing ceremony cum exhibition of awardees which will be held in The Mills. Our focus is to educate the community with the benefits of upcycling, to drive a behavioural change and to foster a green sustainable economy, resulting in building a better society and better world.

What is Upcycling and Why?

Upcycling is a process of transforming unwanted materials into new products of better quality. While upcycling and downcycling are both examples of recycling, not all recycling is considered equal. When we consider converting discarded materials into something of equal or greater value, it is "Upcycled". When a material or product is “Downcycled", it is transformed into something of lesser value. Therefore, upcycling is better than downcycling because upcycling does not involve breaking down of materials, prolongs the useful life of materials, and the impact on the environment is reduced compared to downcycling.

What is Sustainable Economy?

The fundamental purpose of an economy is to organize resources such as labour and raw materials in order to produce goods and services that create well-being. An ideal and accurate meaning of sustainable economy is an economy which provides for the greatest amount of general well-being with the least amount of resource use and environmental harm. In economic terms, to be truly sustainable, the overall demand for natural resources must be less than nature's renewable supply of resources. While economic growth is important to every country, it requires consideration of environmental protection because we all live in the same habitat. The climate issue has been escalating to a world-level problem, which requires immediate attention of all countries bonding together to come up with a complete solution. To combat the climate crisis, we believe that there is a win-win situation where we can enjoy economic growth while being responsible for what we create.

REBORN! aims to serve the below objectives:

- foster a sustainable economy for upcycling business
- educate our local community with the benefits of upcycling, and together,
- provide a strong driving force to promote green economy and build a better world.

REBORN! will implement the following SDG goals:

- SDG 11 (Sustainable Cities and Communities)
- SDG 12 (Responsible Consumption and Production)
- SDG 13 (Climate Action)
- SDG 17 (Partnerships for the Goals)

《藥「勿」胡亂棄》是全港第一個以藥物回收月為主題的工作計劃。在 2022 年 6 月 30 日至 7 月 30 日期間，我們舉辦了一個「回收月」，在全港九新界放置了超過 100 個回收箱，鼓勵市民積極回收家中剩餘或過期的藥物。在短短一個月內，我們已收集到 28 萬粒藥丸。這個驚人的數字反映出很多市民其實都會存有一定數量剩餘或過期的藥物。如果我們沒有妥善處理這些藥餘，它們便有機會滲入土壤或流入大海，進入食物鏈，最終或會引致抗藥性的問題，甚至產生超級惡菌！這個活動得到社會各界的正面迴響，以及很多媒體報導及專題採訪，當中包括：TVB、ViuTV、香港電台及東周刊等。

2023 年，我們繼往開來再次舉辦「回收月」，在全港設立超過 150 個回收箱，同時將邀請全港的中、小學生一同參與並委任他們為活動大使，安排藥劑師向同學們分享藥物認知的正確概念以及鼓勵他們用繪畫比賽形式去呈現藥餘對環境所作出的影響，希望能夠灌輸他們認識藥物回收的重要性之餘，亦呼籲大眾關注到正確棄置藥物的問題。

《藥「勿」胡亂棄 2023》啟動禮已在 4 月 2 日圓滿舉行，我們邀請到香港城市大學梁美儀教授 JP 為我們分享海洋生態環境與藥物棄置問題的關係，以及最新的水質調查報告結果；又邀請到註冊藥劑師龐愛蘭女士 BBS,JP 為我們分析目前社區藥物囤積的狀況，以及提倡藥物回收的重要性。當日更有超過 20 位支持機構代表出席，當中包括：萬寧、聖公會及 MIL MILL 喵坊等，一起為活動揭開序幕。

活動預告：

4-6 月	教育講座
6 月 30 日 - 7 月 30 日	回收月
7 月 1 日 - 7 月 31 日	繪畫比賽
8 月 13 日	閉幕禮

2023 年商業事務工作計劃將秉承「同心圓」系列，以帶領全港女性全面發展的理念，創辦以「女」創明天為題的工作計劃，透過一系列與各領域的專業女工程師輔導和分享，並加入互動性強的相關的工作坊，期望能啟發女中學生們在工程方面的興趣，提升可塑性，長遠期望能為香港人才更添多樣性。

開幕典禮定於 4 月 29 日（六）於紅磡置富都會舉行，與中、小學生，以及計超過 30 多間不同的工程公司機構（當中包括政府資訊辦公室、香港工程師學會以及港鐵公司等），共同了解全港中小學對工程專業的看法。

《孩孩聲之旅：親子溝通方情式工作計劃》

為本會 2023 年社會發展組別旗艦工作計劃。開幕禮已於本年 4 月 8 日於中環中心 H6 Conet 成功舉辦，活動當日現場有近 100 多位家長和孩子出席，主禮嘉賓為：家庭與學校合作事宜委員會（家校會）主席方奕展。現場參加者共同見證《幸福家庭溝通力》調查報告公佈，以及聽聽邀親子 KOL 辰民爸爸及家庭醫生陳婉晴就「正向親子溝通」議題作專業分享。

我們深信，幸福家庭由「有效溝通」開始。我們期望社讓本港父母學習如何「用孩子的語言和孩子溝通」，做到真正的「孩孩聲」。透過父母行多一步，與子女多以正向的溝通技巧，並多聆聽孩子的聲音，從而建立充滿愛同尊重親子的和諧家庭關係。此外，本會將訂立「國際爸媽 Say Yes 日」，將高質量陪伴的重要性推廣至全球。

Dragon Apprentice - Project BEYOND

Dragon Apprentice is an annual flagship program organized by JCI Dragon. Over the past 14 years, we have reached out to more than 2,500 future young leaders and provided them with career and life planning courses, as well as mentorship programs. Building on our past successes, this year's theme is "Dragon Apprentice - Project BEYOND". Our goal is to elevate youths BEYOND their self-perceived potential within 2 months by focusing on three main areas:

1. Achieve BEYOND their own self-limiting beliefs.
2. learning BEYOND classroom learning and exams.
3. Elevating BEYOND the current version of themselves.

To assist students in achieving these goals, we have invited a wide range of professionals and key opinion leaders to share their experiences and help develop important life skills that are not typically taught in school. These skills include financial literacy, social etiquette, and elevator pitch techniques. Additionally, students will be matched with a mentor in their preferred field, including healthcare, legal, engineering, surveying, technology, and finance.

www.freedom Web-Accessibility

The "www.freedom Web-Accessibility" project, organized by JCI Dragon, aims to promote equal internet access for both disabled and able-bodied individuals. The project aligns with the Smart City 3.0 Blueprint proposed by the Equal Opportunities Commission and the Hong Kong Internet Registration Corporation Limited. The opening ceremony was attended by executives from various organizations, including Google, HSBC, and iEnterprise Foundation. The event featured a presentation on the A100 survey, which analyzed the 100 most frequently visited websites in Hong Kong, and a workshop where three website developers with physical or visual impairments tested the accessibility of the "ParknShop" and "HSBC" websites. The speakers emphasized the need to incorporate accessibility elements in website design and increase awareness among management and companies.

The JCI Dragon's flagship project, www.freedom, project includes a series of activities such as launching a multi-country survey, holding Hackathons to stimulate innovative accessible digital transformation, and collaborating with JCI branches overseas to conduct an international survey on web accessibility. The project also invites various companies and organizations to participate in accessible workshops and holds a website accessibility programming competition for secondary school students. The speakers emphasised the importance of designing accessible websites to increase website traffic and usage, reflect the values of modern society, and ensure that everyone can easily use and enjoy the convenience of the website.

Best Employee Employer Award 2023 - ESG Ambassador

The Best Employee Employer Award has been co-organised by JCI Dragon and Hong Kong Small Medium Enterprise Association. This marked the 9th year of the award, aiming at showing appreciation to the participating companies which cherish and willing to maintain a good employee employer relationship. The relationship is in two-way: employer will want their employees to have good personality and able to help their company grow; employees, on the other hand, would like to have a employer who are considerate and have the foresight. Under the current intense labour market, the employee employer relationship become more apparently important.

This year, the BEEA's theme is ESG Ambassador. Environment, Social and Governance (ESG) has become a trending word in the business world. In Hong Kong, listed companies has the responsibility to hand in ESG report, showing how they implement ESG. Though small and medium enterprises (SME) do not have to do anything about ESG currently, we think that it will be a great opportunity to know and equip with the knowledge, so that they can apply the skills into their companies when needed in the near future.

JCI EAST KOWLOON

Junior Chamber International East Kowloon (JCIEK or JCI East Kowloon) is a non-profit institution affiliated with the 12th local chapter of JCI Hong Kong. Since our establishment in 1980, we have served as a leadership training platform to encourage young people to be active citizens and create positive change in several areas including individual, international, community, and business. English is the official language for our chapter and we are formed by young passionate men and women with each of them embracing their uniqueness. The core value of JCI East Kowloon is to be professional and enjoy training.

In 2023, JCI East Kowloon's slogan is "Take the Lead, Lead to Succeed". Our goal is to encourage young citizens to play a leadership role in society and to contribute to and serve our society. As time passes quickly, we hope that young people will be able to make effective use of their time. As part of our multifaceted approach, we aim to enhance the competitiveness of Hong Kong's Youth: Launch support programs for local districts; cultivate future talent and leadership; and address the issue of security in Hong Kong.

There are lots of activities resumed right after Covid-19. JCI East Kowloon is trying its best to perform the best with limited resources. We are serving our members and our community the best we can. Along with the loosening of the pandemic regulation, countries around the world are open to travel. when the International Gate opened, it was time to connect with our sister chapters around the world. The international element is one of the signature areas of JCI. It is JCI East Kowloon's honor to receive such international reception when President Tivon travels to Malaysia and Singapore. It is a golden time to build up the international bonding to exchange ideas and culture. Look forward to our International cooperation.

Meanwhile, The PR in HK is also important. In 2023, JCI East Kowloon received much more partners to support our events. It is a mutual benefit action to benefit the community. In our 2023 Inaugural Ceremony and January Monthly Meeting and Fellowship Gathering, we connected with different parties in Hong Kong. In 2023, we will work with different associations such as the Agency for Volunteer Service, the Institute of Certified Management Accountants, the Commercial & Industrial Association, and Kwai Tsing District which aim to make a bigger impact.

This year JCI East Kowloon will follow the core value of the tradition which focuses on Leadership and Training. An "EK Hackathon" is an event where people engage in a rapid and collaborative environment over a relatively short period of time on creative projects. The aim is to design, build and present the most innovative solution to a problem, and then pitch a final concept, prototype, or presentation to the stakeholders. Participating in a student,hackathon is a great way to develop new skills, improve your team-working abilities and make your CV look more attractive to potential employers.

The topic is related to the application of AI to society for taking care of the single Elderly. We are happy to invite lots of young active citizens to generate fresh ideas for this topic. We will have experienced judges, and facilitators to join the events. Finally, the winning team would receive a secret prize on the event day. The event would hold in July and it welcomes all to join with. Anyone can get involved in a hackathon, regardless of their skill levels.

Everyone who completes a hackathon always comes out with an immense feeling of accomplishment, learning new technical skills and technology, enhancing soft skills, and as well as meeting with experienced industry professionals. So "EK Hackathon" would help you

On the other hand, Under EK Training Academy, we are prepared to nurture someone who loves to be a qualified trainer. Inside JCI, Training Path is a not easy way but it is everyone adorable. Indeed, JCI East Kowloon has been many outstanding and well-known trainers in the past. We will seek different internal and external opportunities for our members, and baby trainers to practice their training skills in real life. Thats can help our members to develop personal development, soft skills such as presentation skills, public speaking skills, communication skills, etc. Those training experiences can also enhance their working space, or if they are well qualified, they can represent JCI Hong Kong to take the training courses internationally, and worldwide. This will be the highest accomplishment for a trainer.

Besides, JCI always aligns with United Nations for the 17 Sustainable Goals. That's how JCI designs programs too. So, we always consider implementing those goals into the projects and making them sustainable. Likewise, in 2023 we are having a domestic safety project under the United Nations area. We have already done delivering the first- aid kid to Kwai Tsing District local citizens to encourage them to renew the old one at home. We found out the need is too huge which meant we need to plan to do it again this year. Moreover, we are organizing a safety seminar to teach citizens how to face emergency cases at home, and provide related general first-aid training to them. Therefore, the overall survival rate of the people will be higher than before. And after the event, We believe many citizens can acquire the skills of first aid.

The culture of JCI East Kowloon is nice and friendly. We treat each other as second family members, We take care, of and support each other inside and outside the chapter. That made our bonding much stronger than anyone else. It is because we have been settled, and went through a lot of up and downs together. While our puzzle is missing one of the pieces, may you pick up the last puzzle for us and make it competent? We are expecting you to join us and be part of our members!

JCI TSUEN WAN

Business Affairs Area -
Outstanding Enterprise Heritage Selections

"Outstanding Enterprise Heritage Selections" is the flagship program hosted by JCI Tsuen Wan. The first election was held in 2014, and this year will be the tenth. The Outstanding Enterprise Selections aims to commend the inheritance enterprises with outstanding performance in Hong Kong, encourage enterprise innovation, and build a sustainable and long-term management environment.

In Hong Kong, many self-made entrepreneurs born in the 50s and 60s are gradually entering retirement age, and entrepreneurs familiar to Hong Kong people have also announced their retirement. Therefore, we have to pay attention to the issue of corporate inheritance. With the continuous progress and changes in today's society, any enterprise needs a good inheritance plan in order to develop healthily and sustainably.

There is a saying that "wealth cannot last for three generations", and it turns out that what is said is true, especially for Chinese family businesses. The research report "Future Development of Chinese Family Businesses" released by the University of Science and Technology earlier found that among the world's more than 100-year-old family businesses, Japan topped the list with as many as 25,300, the United States and Germany with 11,700 and 7,632 respectively. Second, as for China and Hong Kong, there are only 204 and 89 century-old stores respectively, ranking 21st and 31st in the world. Among the top 100 oldest family businesses in the world, Chinese companies are not on the list, which makes people worry about the inheritance of old Chinese family businesses.

The "Outstanding Enterprise Heritage Selections" was formerly known as the "Outstanding Family Business Selections". This year, the event entered its tenth year. Its purpose is to recognize Hong Kong enterprises with outstanding performance in inheritance, innovation and sustainable development. Past award-winning companies include: Topsoya, German Pool, Tai Hing, and Whiteflower Pak Fah Yeow, etc. The conference hopes to use the success stories of the award-winning companies to encourage and inspire more SMEs to plan their inheritance, innovation and sustainable development plans as soon as possible, so as to assist SMEs in their recovery. It is also hoped that Hong Kong's economy and GDP can maintain growth.

This year's theme is "Tracing the Origin and Learning the Past into the New", which means drawing on old things to create a new generation of industries. The Preparatory

Committee also wants to quantify the award-winning indicators and add ESG considerations on the basis of sustainable development SDGs, that is, to consider the contributions made by candidates to support and promote innovation and the environment, society and governance. This year coincides with the 10th Outstanding Enterprise Heritage Selections. We will strengthen the selected case writing program in cooperation with the Hong Kong University of Science and Technology Business School Jin Leqi Asian Family Business and Family Office Research Center.

There are two awards in this election, including the Outstanding Enterprise Inheritance Award and the Outstanding Enterprise Inheritance Spirit Award. Each award is the best affirmation of the outstanding performance of the enterprise. As an outstanding inheritance enterprise, we look forward to your participation and sharing to jointly promote the development and progress of the industry.

"The Sustainable Lantau" Market Place 2023

Introduction of JCI Lantau

Rooting in Lantau Island since 2015, JCI Lantau has been serving the Lantau and Hong Kong community for 7 years. We would be excited to celebrate this important event with you and be delighted if you would deliver a speech to motivate our guests and members. In 2023, our theme is to get more youths involved into the development opportunities in Lantau Island by JCI Lantau membership system and betterment of branding image of JCI Lantau with community-related projects.

"Past Prominent Projects"
Nothing But Nets, Glocal Startup Mission

Junior Chamber International Lantau (JCI Lantau), founded in 2016, is dedicated to exploring leadership potentials among young people. Past prominent projects are "Nothing But Nets", "Glocal Startup Mission" and "Sustainable Lantau"

Our organization is the youngest local chapter among all the 21 Chapters affiliated to Junior Chamber International Hong Kong (JCIHK) which is affiliated with the worldwide leadership development organization – The Junior Chamber International (JCI).

Since establishment, JCI Lantau has proactively responded to challenges in the community, helping to generate awareness on important social and economic issues which have profound impact on our daily lives.

Our official language is English. English is the priority language in official meetings and documents, whereas Cantonese is commonly used in informal occasions. Our members are male and female.

Sustainable Lantau Project

Lantau Island is the largest outlying island in Hong Kong, which is almost twice the size of Hong Kong Island. It is a wonderful place for Hong Kongers, as well as tourists, to escape from the concrete and urban crowd of Hong Kong. The island has a variety of distinct characteristics including heritage building, community and traditional culture, complicated biodiversity and the breathtaking view of nature. Though threatened with urbanization, around 50 percent of the land is still preserved as country park, which is essential to take a balance between continual development and environmental protection.

"Sustainable Lantau" is a project that aims to raise the public awareness on the sustainability of Lantau Island, and the balance among economic development, environmental protection and cultural preservation. Last year, a photo exhibition was held as a closing ceremony and a series of promotional work was also done to promote the event, including a sharing session, photography workshop, cultural tour and eco night tour. In return, the photo exhibition received great responses and comments from the community. To further draw the attention of the public about Lantau Island, Sustainable Lantau will be presented to the public through a marketplace this year.

不一樣的成長機會

個人發展

最直接的方法，就是加入本會活動的籌委會，在籌備活動的過程中學習和磨練各種能力，例如與人相處、時間管理、書信寫作，以及常用軟件的操作技巧等。

社會發展

透過本會舉辦的活動，我們鼓勵青年人融入社區，了解不同階層的需求。此舉除了可以讓他們更明白社會現況，也能給予他們實踐自己才能的機會。

商務發展

除了經驗之外，年輕人最缺乏的就是商業人脈。本會經常舉辦不同的交流活動，並邀請不同領域的專家作嘉賓，讓青年人交流彼此的經驗心得，並從中學到很多有用的知識和技能。

國際發展

最後，作為一個國際性組織的分會，海港青年商會在日本、韓國、台灣、新加坡和馬來西亞都有姐妹會。透過這些國際交流活動，本港的青年可以擴闊眼界，提升有關方面的競爭力。

「消費也消『廢』」青年創業綠色市集

疫情不但令即棄垃圾暴增，也增加了本地青年創業的難度。在這個活動裡，我們一石二鳥，同時針對了這兩個重要問題，提供了不一樣的解決方案！

我們為二十多位青年創業家提供培訓，讓他們在產品中加入環保概念，並在本港地標中環街市中展出作品，既能推廣「源頭減廢」的意識，又能響應《香港氣候行動藍圖2050》。

國際兒童藝術節

除了環保問題，疫情亦帶來心理方面的影響。在疫情的高峰期，不少兒童既不能上學，又不可到戶外玩耍，整天被困在屋裡，對兒童的心理發展造成陰影。

我們的國際兒童藝術節透過繪畫、攝影等創作機會，讓本港4至13歲的兒童紓解壓力，提供難得的親子機會。此外，這個活動也有來自外地的參加者，如台灣、日本、韓國、法國等等。

大灣區青年實習計劃

為響應國家發展大灣區的大方針，自2018年來，本會舉辦了「大灣區青年領袖系列」，加強大灣區九市二區的青年交流，培育未來的社會棟樑。

在去年的活動中，我們舉辦了一個青年實習計劃，讓本港的大學生能在真實的商業環境下，學習不同的工作技能，幫助他們在疫情的困境中找到理想的工作。

加入海港青年商會 成為未來領袖

你是不是一個喜歡挑戰自己、積極向上的青年？

但不管是在家庭還是工作裡，
生活中總會遇到讓你感到沮喪的困難。
不過，如果你有抗逆力，就能夠克服這些困難，使你變得更強大！

作為一個扎根香港超過四十年的青年組織，
海港青年商會一直致力提供不同的培訓機會，增強本港青年的抗逆力。

到底我們可以如何令你的人生更精彩、更成功呢？

本港青年面對的挑戰

在過去的數年裡，香港遇到了不同的挑戰，包括新冠肺炎疫情、大型社會事件，以及國際關係緊張等等。這給香港青年帶來多方面的挑戰。

首先是經濟困境：由於新冠肺炎大流行和經濟衰退，許多學生畢業後都無法找到工作，或要面臨薪資下降的情況，前途大受影響。

其次是心靈困境：由於國際局勢不穩定和經濟衰退，許多本多青年都面臨不少心理壓力。有些更出現抑鬱症狀，使心理健康受損。

因此，我們的青年不但需要更多經濟上的復甦，更應該得到全面性的培訓機會，使他們在個人技巧、人際網絡等不同方面，都能更上一層樓。

海港青年商會【簡介】

海港青年商會是國際青年商會的本地分會。國際青年商會是一個世界性的非牟利青年培訓組織，成立已有一百多年的歷史，目前在全球一百多個國家都有分會。

我們成立於1976年11月11日。成立近五十年來，本會每年舉辦多個不同的活動來幫助社會。

在過往一年，我們的活動包括：
（見下頁）

**海港青年商會是一個訓練年輕人成為未來領袖的非牟利機構。
它的成員雖然背景各異，但都有一個共同的目標：
幫助青年人發揮自身的潛力，讓他們有能力去面對未來的挑戰。**

**因此，我們鼓勵更多的青年參與本會的活動，獲得更多的機遇。
假如你是18至40歲的本港青年，而且有興趣加入我們的話，
請聯絡 communication@hjc.org.hk。**

INTERNATIONAL BUSINESS DEVELOPMENT PROGRAM

創科領袖・國際商務拓展計劃

JCI Kowloon conducted a questionnaire survey From 2022 October to 2023 February, invited Hong Kong entrepreneurs who are aged 18 or above or any industry professionals who intend to start a business, to understand the current situation regarding innovation and technology development in Hong Kong.

The results showed that most Hong Kong young leaders in innovation and technology are interested in starting a business in the Greater Bay Area, but are afraid to move forward due to insufficient information and a lack of interpersonal network.
At the press conference of the survey, Mr. Duncan Chiu, Mr. Duncan Chiu (Legislative Council Member Technology & Innovation Constituency, HKITJC President, Chairman of HKTDC), mentioned that there are strong supports from Mainland China for the establishment of the International Innovation and Technology Hub, Hong Kong should take the advantages on the country's development strategy, to explore and to enhance the scientific research development and look into the investment opportunities in order to put Hong Kong and Mainland China on the same track.

Dongguan Songshan Lake High-tech Industrial Development Zone is a national-level development zone in Dongguan City, Guangdong Province, China. It has also brought together a group of leading enterprises and high-tech R&D institutions.
In recent years, many investment promotion policies especially for Hong Kong Citizens have also been launched. 27-28 May 2023, we organized a visit there for participants to gain an in-depth understanding of policies and expand networks.
