Chief Secretary for Administration

The Government of the Hong Kong Special Administrative Region

My congratulations to all the esteemed awardees of the Ten Outstanding Young Persons (TOYP) Selection 2023.

For more than 50 years, the TOYP Selection has been a hallmark annual project of the Junior Chamber International (JCI) Hong Kong to commend selected young people for their professional endeavours and remarkable contributions to the betterment of society.

I commend JCI Hong Kong, together with its panel of judges, for putting together this meaningful event year after year.

The TOYP is a longstanding beacon of recognition and encouragement to young people. It motivates them to strive for continuous improvement and bring about positive changes to Hong Kong, our motherland and the world.

This year, we pay tribute to six deserving young people in the fields of sports, philanthropy, medical science and environmental education. Not only did they make outstanding achievements in their respective arenas, they also demonstrated unstinting devotion to community service.

The Government of the Hong Kong Special Administrative Region (HKSAR) attaches great importance to youth development. Our vision is to nurture a new generation of young people with an affection for our motherland and Hong Kong, as well as with a global perspective, an aspiring mindset and positive thinking.

In December 2022, the HKSAR Government released the Youth Development Blueprint, the very first document that outlines the vision and guiding principles for our long-term youth development work.

The Government, jointly with the community at large, has been implementing over 160 concrete actions and measures under the blueprint to support the holistic development of Hong Kong young people in various age groups.

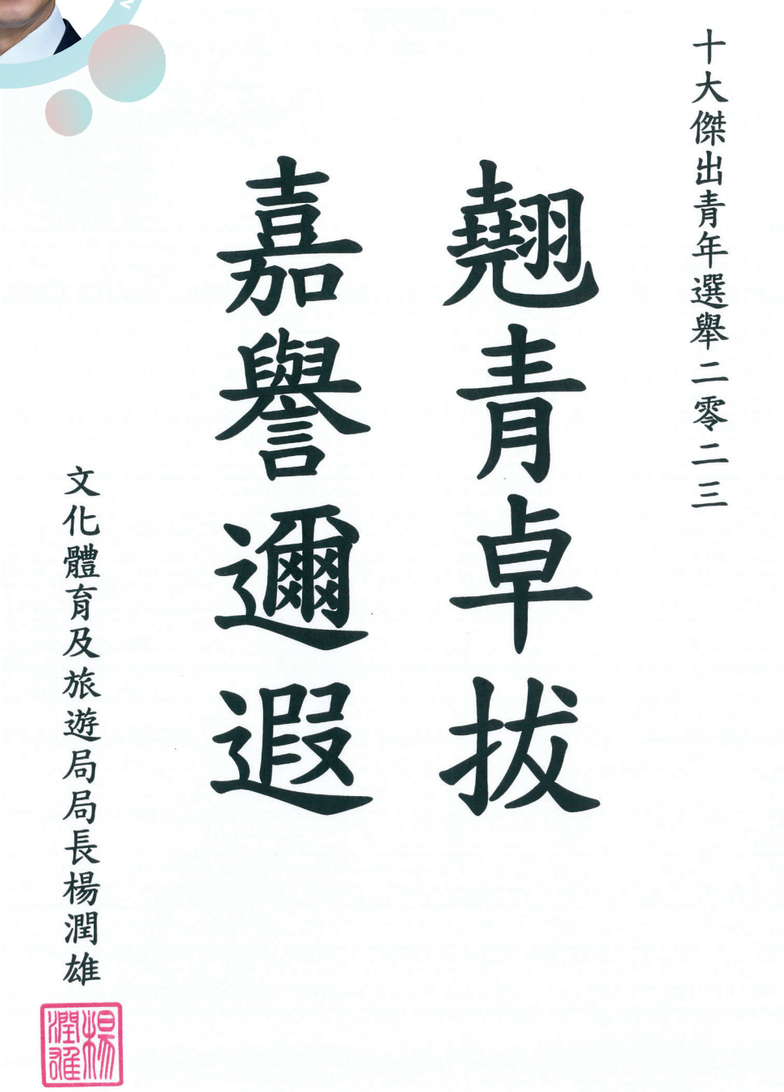

We look forward to our continued collaboration with JCI Hong Kong, and all other stakeholders in society, to foster an enabling environment for youth of Hong Kong to thrive and prosper.

MESSAGE FROM

Chief Judge
Dr. KO Wing Man *GBS, BBS, JP*

I would like to warmly congratulate all 2023 Ten Outstanding Young Persons Awardees, as well as to express my appreciation to all participants in this years TOYP award selection exercise. They are all examples of energetic and forward looking HK youth, with outstanding achievements in their area of work and career. In addition, they all share the qualities of like-minded members of HK community in loving HK and HK people. They spare no effort in striving for excellence in their work and in supporting all those who need assistance and care in our community.

2023 marked the normalization of COVID pandemic and civic life in HK and globally. However, in view of armed conflicts in Ukraine, Middle East and Africa, and geopolitical tension generated by the Western superpowers, economic recovery is full of uncertainties and the challenges ahead for HK and our motherland is formidable. We need the Whole Community to work closely together with the heart of loving HK, and recognising the need to be innovative and to ride on the opportunity of national development strategy including the Belt and Road Initiative and the GBA development strategy. In this regard, I look forward to our Youth Leaders, including the Ten Outstanding Young Persons Awardee and the members of the TOYP Association to take the lead and participate actively in the continuing developement of HK in key areas of economy and finance, professional services, various entrepreneur and property sectors, social and cultural aspects and built a better Hong Kong.

I thank the Section Consultant, my fellow judges on the selection Panel and the Organizing Committee for your great support and dedicated efforts.

MESSAGE FROM
Project Chairman
Ms. Rosanna WONG

My heartfelt congratulations to the six Ten Outstanding Young Persons Awardees selected this year and it is my great honor as the Chairlady of the 51st Ten Outstanding Young Persons Selection. Many thanks to National President Kenneth Yu and National Immediate Past President Karen Yeung for their trust in inviting me to contribute as the Chairlady in this flagship project of JCI Hong Kong.

As one of the most iconic selections that recognize young people that not only excel in their professions but also have a shared vision to serve, we hope that more visionary leaders can be identified and provide insights to contribute to the society. The theme of this year is "Lead To Future 現在.締造未來", which refers to taking actions and making choices in the present moment to create a brighter future. The theme encourages Hong Kong youth to adopt a proactive attitude, promote the effective utilization of time and resources in the present, and lay a solid foundation to pursue a better future and society.

We made several breakthroughs by engaging more stakeholders to widen the diversity and scope of nomination. To go the extra mile, we did not stop by simply having awardees selected but also created the first-ever “TOYP Theatre ”which allows multiple units which included students, visually/ hearing impaired and youths to collaborate and present the awardees' story to the audience in the form of a stage play.

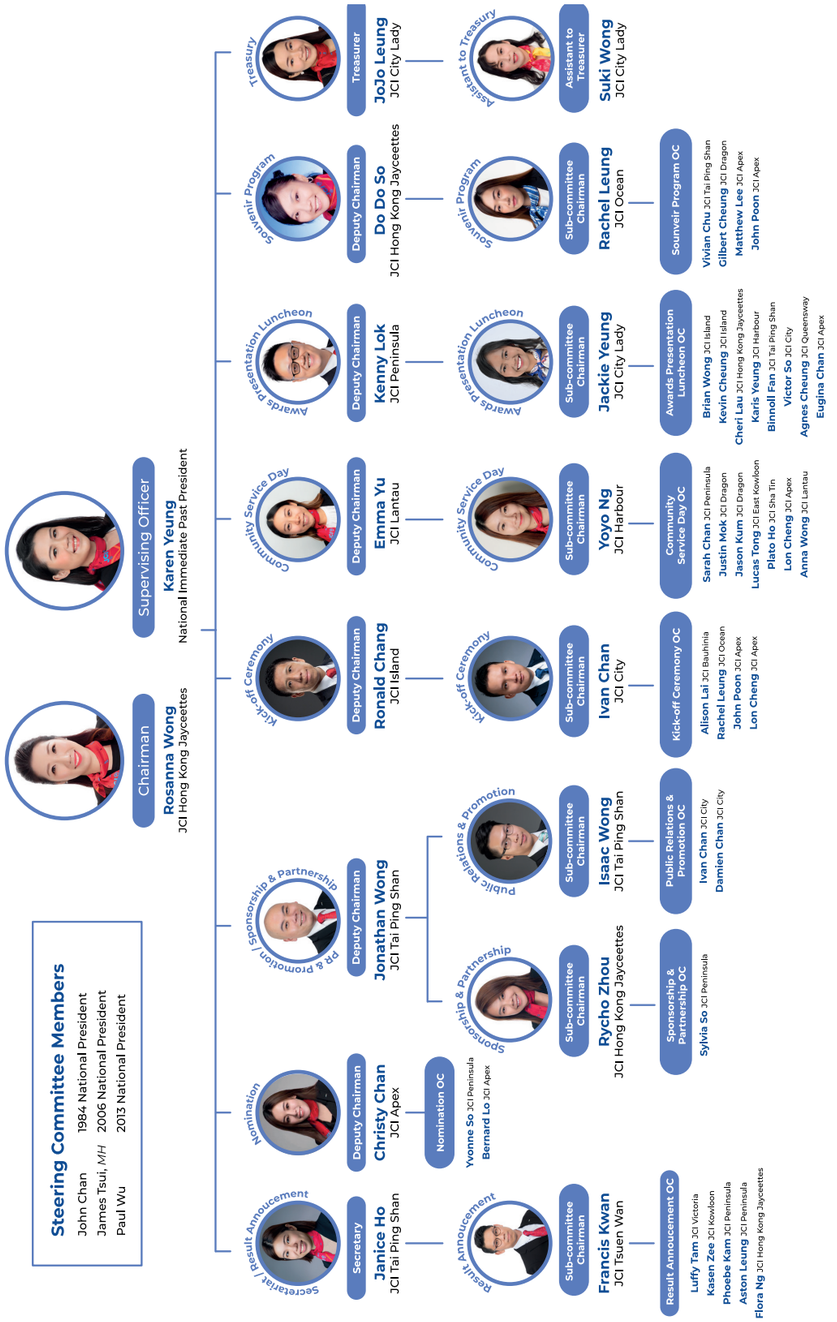

This year’s TOYP Selection cannot be a success without the contributions from my devoted organizing committee members. I am blessed to have a very thoughtful, creative and energetic team who are flexible and supportive to upkeep the project outcome with brilliant results. I attribute the achievements to the creativity and ‘‘can-do’’ attitude of the entire organizing committee!

It has also been my great privilege to work closely with the Judging Panel, as well as the professional team from Deloitte for the selection process. My sincere appreciation also goes to all Sponsors, Partners and Supporting Organizations as well as all past TOYP awardees and TOYPA for their generous support.

Taking this opportunity, I would like to thank the TOYP Steering Committee led by Chairman Past National President John Chan, committee members Past National President James Tsui and Past National President Paul Wu for your trust and advice.

I am also grateful to my mother chapter, JCI Hong Kong Jayceettes, for nurturing me throughout my journey in JCI in the past eleven years and becoming a leader of this signature and most publicly anticipated project. The experience is one-of-a-kind, and the exposure truly broadened my horizon. Taking this opportunity, thank you for all of your support to TOYP Selection 2023. We are the successor and leader of the shared future!

得獎感言

“ In search of glaciers: a Hong Konger's environmental excursion and mission in the North and South Pole
尋冰川之旅：一位香港人的極地探險與環保使命 ”

Something that best represents myself
一件最能代表自己的物件

Mount Asgard (2015m), Canada -Nunatak is s peak or ridge that rises above the glacier. This symbolises perseverance.

全球首位華裔極地探險與科研專家，在南北兩極累計超過1000天，是全球第一個集中監測北極高地冰川的空間分佈和時間動態的研究員。去年獲美國探索者協會 (The Explorers Club) 評選為「世界50名最具影響力探險家」。為提高公眾對冰川正迅速融化的關注，他攀登了78座高4,000米的阿爾卑斯山脈。他先後領導年輕人成立非牟利組織 (non-profit organization) 「亞洲青年阿爾卑斯導師計劃」和「生態巴士」(Asia Youth Alpine mentorship program & Ecobus)，增強他們對當前氣候變化的認識和關注。

在過去的數十年裡，我大部分的時間都在寒冷的南北極地區工作，因此在香港停留的時間相當有限。這次回到香港，我第一次感到興奮之情，因為我再次有機會與家人團聚。在我童年時，有許多香港人幫助和支持了我，這種歸屬感驅使我想要為這個社會貢獻自己的力量。

第二個感覺是，香港是一個溫暖而潮濕的地方，與我多年來在寒冷的極地地區度過的幾十個小時的行程形成了鮮明的對比。通過多年的極地研究，我深刻體會到寒冷的冰川和位於亞熱帶的香港都是大自然的一部分，冰川的融化與我們的氣候變化密切相關。我有幸能夠親眼見證這個大自然的奇妙關係，並且更重要的是，能夠充分發揮自己的能力，為冰川、氣候和大自然的研究和探索盡一份微薄之力，以感恩香港的每一位曾經幫助過我的人。

我小時候家住粉嶺的郊區，經常穿越大自然，對自然和動物充滿了好奇心。也許正是這段童年歲月孕育了今天的我。我一直認為，雖然我家在香港，但要讓這個地方變得更好，我們需要不斷地去未知的地方探索。對我來說，家不僅僅是一個住的地方，更是我們的社會、氣候和環境。家對於我們來說，沒有旅程是無意義的。

當被問及自小以來最能夠啟發我的人是誰時，我的答案是15世紀的葡萄牙探險家麥哲倫。他橫渡大西洋，穿越美洲、太平洋，最終他的同伴成功回到歐洲，完成了首次環球航行，證明了地球是圓的，海洋連接著世界不同的地方。這個分享是要說明我們的社會需要有人肩負探索的責任，社會才會進步，新思維才會誕生。每個人都有社會責任，我們需要共同為社會服務。同時，我意識到極地探險和研究不是我一個人可以完成的，我們需要下一代的力量，這也是我建立亞洲青年導師計劃的原因，我們需要你們的支持。近年來，我參與了冰川的測量工作，利用影像投射來了解冰川的流動和溫度，以及它們如何影響全球的氣候和生活。這項工作使我更深刻地理解到冰川是地球和人類歷史的數據庫，冰川變化的故事讓人類了解到未來可能面臨的挑戰。就像我在斯瓦爾巴特進行的工作，30年來氣溫上升了5度，奧地利阿爾卑斯山冰川的研究模擬發現，當地大部分的冰川在2050年可能會消失，也就是說，我們的下一代可能不會再看到阿爾卑斯山上的冰。這些研究表明，大自然面臨的危機已經迫在眉睫。請記住，我們所做的不僅僅是為了我們自己，更是為了我們的下一代。

極地工作充滿了危險和挑戰，會遇到許多困難和挫折。當面臨惡劣的天氣條件和艱難的問題時，我會問自己，「我是誰？我現在需要做什麼？需要放棄什麼？」在我的職業生涯中，我失去了三位合作夥伴，他們在冰上工作時不幸喪生。今年，我們失去了一位冰川學研究員，他不幸墜入了冰蝕洞而去世。在冰上工作是非常危險的。對我來說，生命離別是注定的，但不確定的是我們的下一代將如何在快速變化的環境中生存。今天，我們正面臨海平面上升、氣候變化、糧食短缺等問題。現在是時候問問自己，我們在生活中需要做些什麼？需要放棄什麼？才能讓這個「家」，這個世界得到進步和改變。香港是我的家，每次回到香港，我都會抓住機會走進校園，與年輕人分享南北極的見聞和經驗。我也計劃建立一個年輕人的平台，讓更多有志青年香港人投身極地工作。極地的探索和研究，旨在讓我們預見未來，為香港和地球的下一代作出貢獻。

從學校走進社會，你最初為自己定下什麼目標？
探索極地地區的知識邊緣，對科學探索做出有影響力的貢獻。

追求目標的過程中，曾遇過最大的挫折：
我的學業表現很差，高中畢業後無法進入大學學習極地科學；後來，在攀登時，我的夥伴不幸過世。

一件最能夠激勵你繼續前行的事情：
2015年，我在威德爾海冰架的皇帝企鵝棲地進行研究，但地球氣候變化導致80%的皇帝企鵝幼子死亡，令我的工作變得非常艱巨。正當我想放棄之際，倖存的企鵝竟能排除萬難來找我……這一幕激勵我繼續前行。

你滿意今天的自己嗎？
未滿意，我希望有更好的能力和資源照顧父母。

張偉賢與香港

你最鍾意香港青年什麼？
我最欣賞香港青年的創造力、活力和超越傳統思維的能力。

你覺得香港年青人，可以如何爭取上游機會？
堅定地推動人類發掘新視物的界限：冒險進入未知的領域，不用害怕錯誤和失敗，才能不斷增廣知識。正如我一位德國教授說：「年輕時的探索機會，使我們的經驗轉化成智慧，最終貢獻人類的文明。」

你會如何以行動去鼓勵香港青年呢？
與香港青年一起探索極地、聆聽冰川講述地球的故事，鼓勵他們擁抱自然，關心氣候變化，繼而激發對科學的興趣。

In search of glaciers: a Hong Konger's environmental excursion and mission in the North and South Pole

In the last few decades, most of my time was spent on working in the coldest North and South Pole areas, and so I had spent only very limited time in Hong Kong. This time when I returned to the city again, I found it exciting to be able to see my family again. When I was small, I received encouragement and support from many Hong Kong people. This sense of belonging has led me to my desire to contribute to this community. Secondly, Hong Kong is such a warm and humid place, which is a big contrast with the many hours of my journeys in the extreme cold in the North and South Pole.

With the research I have done on these areas over the last few years, I could fully appreciate both the cold glacier and the subtropical Hong Kong are both part of Nature, and how the melting of the glaciers is also closely related to our climate change. I am fortunate to have witnessed the magical connections within Nature. The most important point is, in my view, to maximise one's potential, and to contribute our efforts towards researching topics such as the glaciers, climate, and Nature, which I also see as a gesture to thank all those Hong Kong people who have helped me in my journey.

When I was small, I lived in the countryside of Fanling, and have been so curious about Nature and animals. Perhaps it is this formative period that has led me to where I am. Although I see Hong Kong as my home, I think we must research and explore the unknown in order to improve the place. For me, home is not just a matter of residence. It is also about our society, climate and environment. Without such a journey, home will be meaningless.

When asked who has inspired me, I can think of Magellan, the Portuguese explorer from the 15th century. In his lifetime, he crossed the Indian Ocean, the Americas and the Atlantic, and in the end he reached Europe and completed his globe-trotting adventure. This journey proved that the Earth is round and that the oceans connected the various places on Earth. From this, I wanted to show that our society needs people who are willing to shoulder the responsibility of exploration, which is needed for the society to change and improve, and for new ideas to be born. Everyone has a social responsibility and the obligation to serve society. At the same time, I am aware that I cannot complete such adventure and research in the North and South Pole on my own, but requires the power of the next generation. This is also what prompted me to establish the Asian youth tutors' scheme, and I hope that you are keen to support it too.

In recent years, I have taken part in the works on glacier exploration, making use of video projections to understand its currents and temperature, and how that have affected climate change and our lives. This project has helped me appreciate how the glaciers are the databank of the history of the Earth and human civilisation, and how their story can help us understand the challenges humans are faced with. For example, during my work in 斯瓦爾巴特, the temperature for the last three decades has risen by 5 degrees. According to the research findings from the Alps in Austria, most of the glaciers there will disappear by 2050, which means that our next generation will no longer be able to see the ice on the Alps. This research indicates the tremendous threats on our Nature. We should remember that what we do is not just for ourselves, but for our next generation too.

Working in the North and South Poles is full of dangers and challenges, and so it is inevitable that we are faced with difficulties. When we are faced with bad weather or problems, I will ask myself: 'Who am I and what do I need to do now? What should I give up?' In my professional career, I have lost three collaborators in our work in the glaciers. This year, another glacial researcher has lost his life as he unfortunately fell into a glacial hole. In other words, work in the glaciers can be very dangerous. For me, fate is inevitable. But what we are not sure about is how our next generation can adapt to the rapidly changing environment in order to survive. Today, as we face the rising sea levels, climate change and food shortage, it is time to ask ourselves what do we need in life and what can we give up, in order for our 'home'--this Earth–to improve and change.

Hong Kong is my home, and as we do that I will grasp every chance to go to schools and share my experiences at the North and South Pole with the young people. I am planning to set up a platform for youth people keen to work in these areas. Such excursions and research can help us see the future better, and contribute towards the livelihood of the next generation in both Hong Kong and globally.

What is your biggest objective as you finished studies and embarked on your profession?
Making impactful contributions to scientific exploration by venturing into the fringes of knowledge in North and South Pole

What are your most daunting failures or disappointments as you seek your goals?
My academic performance was poor, and I couldn't pursue polar science studies in university after high school graduation. Later, during a climbing expedition, my partner unfortunately passed away.

What can most motivate you?
In 2015, I conducted research at the emperor penguin colony in the Weddell Sea ice shelf. However, the effects of climate change on our planet resulted in an 80% mortality rate among emperor penguin chicks, making my work incredibly challenging. Just when I was on the verge of giving up, surviving penguins overcame all odds to seek me out... This scene inspired me to keep moving forward.

Are you happy with what you achieved?
I'm not satisfied. I hope to have better abilities and resources to take care of my parents.

What do you like most about Hong Kong youths?
I greatly admire the creativity, vitality, and ability of Hong Kong youth to think beyond traditional boundaries.

How would you advise youths in Hong Kong to seek their dreams?
Firmly pushing the boundaries of human exploration, venturing into unknown territories, and not being afraid of mistakes and failures are essential for continuously expanding knowledge. As a German professor once said, "The opportunities for exploration in our youth transform our experiences into wisdom, ultimately contributing to the enlightenment of humanity."

How would you support the youths?
Exploring the North and South Pole with Hong Kong youth, listening to the stories of glaciers, and inspiring them to embrace nature, care about climate change, and subsequently ignite their interest in science.

Your alma mater (primary/secondary school)?
TWGHs Li Ka Shing College, Hong Kong Baptist University

Wilson and Hong Kong

What do you like most about Hong Kong?
I love the libraries and museums in Hong Kong, as they are inspiring places that can lead me to new directions in life.

In your opinion, what is the key strength of Hong Kong people?
Hong Kong people are full of endurance despite challenges. They are persevering and very hard-working.

What do you like most about Hong Kong youths?
Their creativity, energy and ability to think outside the box.

How would you promote Hong Kong to the tourists?
Hong Kong has retained 80% of its natural environment. It is full of biodiversity and embraces culture from both the East and the West. These are qualities that really appeal to tourists.

A photo that most represents Hong Kong in my photo album?
During my university years, I love watching sunset across the harbour at the foot of Lion's Rock. It is an unparalleled scenery.

我自小就有一個願望，就是做一個普通人，我小時候心目中的「普通人」，就是可以正常走路、跑步，甚至照顧自己。

大家見到我都可以理解，要做「普通人」，一點也不容易。我自小患有脊髓肌肉萎縮症，手腳無力，需要輪椅代步，長期進出醫院，甚至曾經徘徊生死邊緣，這些經歷都令小時候的我一心只想可以做一個普通人。

當我以為我的人生是Zero，但我在校園遇到很多有心的Heroes，老師們鼓勵我參與不同體育及藝術項目，發掘興趣，嘗試了很多的第一次。第一次到紅磡體育館表演輪椅舞，第一次擔當了音樂劇《我愛菠蘿油》的主角在大會堂演出，第一次接觸體育項目—硬地滾球。我是一位幸運的人，讓我遇上另一班體育界的Heros 。

我在讀書時期開始接觸硬地滾球，有幸被選入香港代表隊。我很感恩，遇到總教練郭克榮先生、李榮傑阿Jet、香港傷殘人士體育協會、香港體育學院背後一班幕後功臣，包括物理治療師、營養師、科研人員、餐廳及宿舍職員等，背後默默付出成就今天的我。說到這裡，我要多謝我生命中最偉大的 Hero，就是我父母。

一件最能夠激勵你繼續前行的事情：
當很累想放棄追夢時，一句「不要忘記當初為什麼喜歡硬地滾　球」點醒過來，目標代表香港參與體育最大舞台–奧運。雖不是順風，過程中遇到很多障礙、困難、　打擊、但仍堅守着自己的座右銘「只要有能力，就必盡其力」，繼續做自己喜歡的事、追逐夢想。

When I was small, I wanted to be an ordinary person, as in I would like to be able to walk and run like anyone else as well as to take care of myself.
As you can see, being an ordinary person is not easy for me.

Since I was small, I had spinal muscular atrophy,a condition in which I have weak limbs and require the use of the wheelchair. I require hospital treatments on a long term basis and sometimes even led to life-threatening circumstances. These experiences were the reason why I wanted to be an ordinary person since I was small.

When I thought life amounts to nothing special, I was lucky enough to have met numerous 'Heroes' in my school years. These teachers have encouraged me to take part in many different sports and arts events, to explore my interests and to brave challenges, including my first time to participate in wheelchair dancing at the Hong Kong Coliseum; the first time to perform in the musical 'I Love Pineapple Bun' in City Hall; and the first time to play bocci games. I am a very lucky person to have met my 'Heroes' in sports too.

I was a student when I began to play bocce, and was lucky enough to be chosen for the Hong Kong team. I am grateful to have met my coach Kwok Ka-wing (郭克榮), Lee Wing-kit (李榮傑), Ah Jet, The Hong Kong Paralympic Committee & Sports Association for the Physically Disabled (HKPC&SAPD) , the team behind Hong Kong Sport Institute, including the physiotherapists, nutritionists, the researchers, as well as the canteen and quarters staff, whose tireless work has helped me to achieve what I did.

Here, I would also like to thank my best 'Hero' of all times, i.e. my parents, whose unconditional love and care have taught me to be kind and to contribute to society despite my physical disability. They taught me that life isn't plain sailing, and that I must persevere with my dreams despite the many hindrances or challenges I will face.

Lastly, I would like to thank my nominees, Dr Lee Zhong-de (李宗德), who encouraged me to take an active role in society, and to share my life stories with other like-minded persons and young people, encouraging them to chase their dreams and brave challenges.

In the coming years, I will continue to hold on to my motto 'do your best'. Other than continuing with my sports career and achieving excellent results as I represent Hong Kong in the bocce tournaments, I will continue to take part in the various sports and cultural events organised by Tender Loving Care Charity Association, to promote harmony and communication between the healthy and those with disabilities, and to motivate more Hong Kong people to pursue their own dreams.

Finally, I would like you all to become a **'Super Hero'** in your life. Thank you.

What is your biggest objective as you finished studies and embarked on your profession?
To become a kind person and to contribute what I can to society.

What are your most daunting failures or disappointments as you seek your goals?
I was lucky enough to be selected for the Hong Kong team, and to have won two gold medals the first time I took part in the youth tournament in Asia. However, my health got worse, and the coach advised me to move to the cricket category instead, which was a blow to my confidence as I felt like giving up my training and my dream.

What can most motivate you?
Whenever I want to give up, I will think about what brings me to compete in bocci games: that I want to represent Hong Kong in the Olympics, the biggest tournament. Although I have had my challenges and disappointments, but I have lived up to my motto 'do your best', as I continue my dream and my goals.

Are you happy with what you achieved?
I think I still have room for personal growth, and I would like to engage more with the community, to encourage the like-minded and young people to pursue their dreams.

What do you like most about Hong Kong youths?
The young people in Hong Kong are strong in foreign language(s) and have a more global vision. They are also very adaptable.

How would you advise youths in Hong Kong to seek their dreams?
Young people are our future, and they can learn to do their best and equip themselves with knowledge and skills, because opportunities come to those who are well-prepared. In this way, they can move steadily forward to their goals as they accumulate their experiences.

Ho Yuen Kei and Hong Kong

How would you support the youths?
Through offering exchanges with youths in Hong Kong and attending talks organised in primary and secondary schools as well as other organisations, I hope to advocate life values such as perseverance and champion the equal rights for those with disabilities, as I encourage them to seize their every chance and seek their dreams

Your alma mater (primary/secondary school)?
Hong Kong Baptist University / Hong Kong Red Cross John F Kennedy Centre

What do you like most about Hong Kong?
Hong Kong is a place full of love and care. People are willing to help each other in times of need without expecting gains.

What do you think is the strength of the Hong Kong people?
Hong Kong people are willing to work hard and very adaptable.

What do you like about young people in Hong Kong?
They are very strong in foreign language skills and possess a global outlook. Moreover, they are very adaptable.

How will you introduce Hong Kong to attract tourists?
Hong Kong is so compact and accessible, with excellent transport, dining and shopping, not to mention its world-class service.

A photo in your photo album that most represents Hong Kong:

"A neuroscientist determined to find the answers
決心為醫學難題尋覓答案的神經科學家"

Something that best represents myself
一件最能代表自己的物件

小四從福建移民香港，中學會考獲得7A2B佳績「拔尖」入讀中大醫學院，以一級榮譽完成研究課程，獲推薦前往倫敦大學學院攻讀神經科學，研究期間取得突破性成果，25歲獲博士學位。31歲開始建立自己的實驗室，專注研究神經老化疾病的成因、症狀及藥物，先後獲得裘槎前瞻科研大獎，國家優秀青年科學基金獎，達安輝教授講座講者，以及亞洲青年科學家基金(生命科學)獎項。

決心為醫學難題尋覓答案的神經科學家

大家好，我是一個熱衷科學，亦有幸以科學為職業，喜歡挑戰難題的人。就如今日大會的形容，我是一位「神經科學家」。平日的工作中，作為神經科學家，最主要是透過實驗和數據探索大腦衰老和退化的原因，尋找解決方法。想投身這個行業，自小已決定。小時家境困窘，多得有中央圖書館，在那裏找書，上網東看西看。兒時的偶像是愛滋病治療方法上取得重大突破的何大一教授，希望長大能如他一樣做出對社會有用的成果。

我也崇拜很多偉大的科學家，像物理學家JamesMax-well、OliverHeaviside、工程師 Claude Shannon，他們提出的理論都令人陶醉，亦是現代科技的基石。
我期望有天能開創自己的研究成果，像他們一樣造福世界。我鍾意自己發掘新的研究方向，解決問題，多於只跟隨別人的步伐。

因為這個原因，驅使我在中大修讀兩年醫科基礎課程後，到英國攻讀神經科學。其實除了支持，當時也有不少關心我的前輩擔心這個決定。這個學業計劃上的改變令我有更多時間去尋根究底，學習科學和醫學理論背後更基本的原理，亦為我今天的研究打下重要基礎。今日回頭看，所付出的代價，全部值得。及後我回港完成醫學學位，成為臨床醫生，接觸不少患上腦退化的年老病人。目前醫學上仍然無法完全避免或醫好這種成因十分多樣化的疾病，只能夠有限地緩解病者的徵狀，加上了解到未來二十多年因人口老化，腦退化將排山倒海出現，亦驅使我去尋找更好地治療神經退化性疾病的方法。我是一個極其幸運的人，在中大成立實驗室，有長輩支持，也有同輩和後輩一起拼博。研究神經退化性疾病，雖有一定成果，但很多東西仍是起步階段。我和團隊會本着初心，透過結合實驗和臨床測試，盡力對日後對尋找治療腦退化疾病帶來更多希望。我亦希望個人的成長經歷，可以鼓勵香港更多有志科學、醫學研究的年輕人，願意投身這個行業，以知識造福社會。

從學校走進社會，你最初為自己定下什麼目標：
要在推進科學進展上有所作為，除滿足個人求知欲，亦以其貢獻世界。

追求目標的過程中，曾遇過最大的挫折：
讀博士時做的第一個科研項目，曾經因為實驗進展不理想，憂慮研　究不會有突破而情緒低落好幾個月，連導師都叫我不要恆常一副苦不堪言的樣子。

一件最能夠激勵你繼續前行的事情：
求學時期，看歷史記載前人走過的艱辛，克服困難的過程，最能減　少孤獨感繼續埋頭苦幹。現在最激勵我前行的是為下一代減少他們將來會面對的人口老化引致的社會問　題的決心。

你滿意今天的自己嗎？
我相信很少科學家會覺得自滿，我亦一樣，永遠覺得未解決的問題比已知的多，要求 自己做得更好。

你最鍾意香港青年什麼？
多年研究生涯，有幸認識不少極具潛質的香港年輕人，可以和國外一流學府的相 比。我的行業以外，亦是人材輩出。

你覺得香港年青人，可以如何爭取上游機會？
最重要的是在多變的世界格局中以更高的觀點看事情，堅持做好自己的專業。

你會如何以行動去鼓勵香港青年呢？
與香港青年分享最新的科研和創新，鼓勵香港青年大膽發問和嘗試。

A neuroscientist determined to find the answers

Hi everyone! I pride myself as someone keen about science and enjoy challenging questions, and am privileged to take on science as my profession. As the organiser described me, I am a neuroscientist, and my role is to seek ways to tackle ageing or degeneration of the brain through data research and experiments. In a way, I have wanted to join this industry since I was small. When I was growing up, our family was very poor, but thanks to the amazing resources in Central Library, I was able to retrieve lots of information from there. Since I was small, I have admired Prof Ho for finding ways to tackle AIDS, and wanted to contribute to society just like him. I also admired a lot of other scientists such as physicists James-Maxwell, OliverHeaviside, engineer Claude Shannon, who all came up with such brilliant theories that became the foundation of modern technology. I hope that my own research can bear fruit just like theirs and benefit the people.

I enjoy setting my own research directions and resolving questions, rather than to follow other people's approaches. Because of this, I decided to travel to England to study neuroscience after my two years of studying at the School of Medicine at Chinese University of Hong Kong. Although some people have been encouraging, there were also some people older than me who were skeptical about this move. But through this change in my academic plans, I got more time to research on my area, as well as to understand the theories behind practical sciences and medical theories. This experience has also helped me set my own goals. Thinking back, it proved very worthwhile.

Later, on returning to Hong Kong in order to finish my medical degree, I came across many elderly patients who suffered from a degenerative brain when I worked as a training doctor. Currently, we cannot avoid or treat various diseases, and so as long as we find a way to relieve the symptoms. Moreover, in order to address the potential threat of diseases relating to the ageing of the population and the predicted surge in brain-related degeneration in the next two decades, it has prompted me to seek more effective ways to tackle brain degeneration-related diseases.

I must say I am a very lucky person to have the support of the elderly by setting up a laboratory at the Chinese University of Hong Kong, and have always had so much support from my peers and the younger generation. While there are visible outcomes from the study of neurological diseases. So although the first wave of the publicity, there are lots of things to be set up. My team and I hope that, through combining experiments with clinical tests, we can find more treatments for treating neurological diseases and degeneration of nervous systems.

I also hope that through sharing my own journey, I can inspire more young people in Hong Kong interested in science and scientific research, to join the industry and to contribute their knowledge to the society.

Relocated from Fujian to Hong Kong at the age of four, KoHo obtained the excellent exam results of 7A2B in the HKCEE, and was accepted for a degree in the School fo Medicine at the Chinese University of Hong Kong, KoHo completed his research degree with a distinction at the age of 25, and achieved breakthrough progress in his research, and was offered a place to study neuroscience at the University of London, specialising in factors affecting the ageing of neurological diseases, symptoms and medical treatment. He was awarded the Croucher Emerging Science Research Award, National Natural Science Foundation of China Outstanding Youth Fund Sir David Todd lecture series speaker and the Asia Youth Scientists Fund (Life Science) Award.

What is your biggest objective as you finished studies and embarked on your profession?
To achieve progress in scientific research in order to contribute to the world as well as to satisfy my curiosity.

What are your most daunting failures or disappointments as you seek your goals?
When I was a doctoral student, my first experiment didn't go as well as I expected, and I was worried about it for a few months, such that my tutor asked me to stop looking so miserable.

What motivates you most?
When I was a student, I was moved by the difficulties faced by historical figures, and felt that I must work hard. Nowadays, what motivates me most is my hope to help the next generation tackle the social problem of an ageing population.

Are you happy with what you achieved?
I think that most scientists are never placid, and instead we always see that there are questions unresolved, and so we are always keen to do our best.

What do you like most about Hong Kong youths?
In my years of research, I am fortunate enough to have met many young scholars from Hong Kong, and they are as talented as any scholars from leading universities overseas. In my field, there are many such talented young people.

How would you advise youths in Hong Kong to seek their dreams?
The most important thing is to take a more macro view in face of the changing world, and to insist on doing our best in our profession.

How would you support Hong Kong youths?
I enjoy sharing the latest research and innovation with them and encouraging them to ask bold questions and to undertake challenges. Your alma mater (secondary/university): Hong Kong Chinese Women's Club College, School of Medicine at Chinese University of Hong Kong, University of London.

Ko Ho and Hong Kong

What do you like most about Hong Kong?
There is great social mobility in the city, with the strong foundations built by earlier generations, so that young people from more working class backgrounds can also achieve a lot through their own hard work.

Their adaptability in face of changes.

My first fencing sabre

十年磨一劍 守護香港隊

香港首位亦是到目前為止唯一一位出戰奧運男子佩劍劍手，人稱「香港佩劍一哥」。連續11年香港男子佩劍排名第一，獲獎無數，當中包括2014年仁川亞運會個人及團體銅牌、2013年東亞運動會團體銀牌、2005、2008、2011、2012亞洲劍擊錦標賽銅牌。視劍擊視為他的終身職業，2019年受傷患困擾被迫退役後，以行動為香港培養更多出色的運動員。

俗語話十年磨一劍，我15歲開始練劍，用了19年時間，磨練我人生的第一把佩劍，這把劍跟著我南征北戰，遇到好多高手，到過很多比劍的戰場，好似2012年的倫敦奧運、14年的仁川和18年的雅加達亞運等等。

回想過去19年，參加過4屆亞運，1屆奧運會，有幸和世界各地無數的高手比賽，見識不同國家之劍術，學習其他劍手所長，這是我人生最大的福氣。

打劍的技術要進步，除了恒心和克苦訓練之外，更需重要是團隊訓練，就算你的打劍技術多好，總要同人對打，先至可以搵到自己劍術的優點和缺點，知己知彼，先至可以戰勝對手和自己。

所以團隊訓練很重要，我的團隊裡面，有我的恩師香港隊總教練鄭兆康先生，仲有師弟日日和我練習，互相學習、鼓勵，這樣整個團隊才可以漸漸進步。

回想19年的運動員生涯，最開心莫過於得到第一面世界盃獎牌、有機會參加倫敦奧運。但當然亦有最難過的日子，其中一樣就是長期傷患，一直影響訓練。另外一段艱難時刻，就是有06年多哈亞運會，在團體賽8強對泰國賽事負責「守尾門」，但最終以一劍飲恨，跟獎牌擦身而過。賽後我兩位佩劍的師兄更相繼退役，當時，香港男子佩劍代表隊，就只剩下我一個人，當時想，我一個人，如何撐起香港佩劍隊，自己也很怕面對失敗，曾經想過離開港隊，但又想到如果連我也走掉，香港的佩劍隊就散了，心裏知道前路難走，可是不願走下去的話，這條路就會消失，當時心想就算只有自己一個人，也要堅持繼續走下去。「堅持」兩個字，說來容易，但要真正行出來，卻不容易。

我相信堅持，總會得到回報，看到我地年輕師弟相繼冒起，佩劍團隊再次人才濟濟，更於多個大賽得到好成績，看到新人輩出，一班師弟不斷進步，確定我當年的堅持是正確。

三年前我宣布退役，結束我多年的職業運動員生涯，現在，我開始磨練我人生第二把佩劍，就是為香港培育更多的佩劍劍手，將自己接近二十年的技術及經驗教授新一代劍手，我亦計劃成立一個運動醫學基金，研發劍擊器材，為香港孕育更多奧運獎牌劍手。同時鼓勵香港一眾劍手，以不屈不撓的精神，為自己理想、為香港再創更好的成績。

從學校走進社會，你最初為自己定下什麼目標：
於國際比賽為港爭光。

追求目標的過程中，曾遇過最大的挫折：
遇上傷患，自己受傷外還有阿妹受傷，害怕二人從此不能再踏上劍擊舞台。

一件最能夠激勵你繼續前行的事情：
06年亞運會後，其他師兄相繼退役，整個男子佩劍只剩我一人，如果我不堅持下去，就沒有今日的佩劍隊。

你滿意今天的自己嗎？
未滿意，喺公益事業方面可以做得更好。你最鍾意香港青年什麼？有不屈不撓的精神，勇於追夢。

你覺得香港年青人，可以如何爭取上游機會？
最緊要是積極裝備自己，而且要保持積極態度，不怕困難並勇於接受新挑戰。

你會如何以行動去鼓勵香港青年呢？
舉辦講座，以自身的挫敗，鼓勵香港青年，撐起香港。

你成長的學校(中學/大學)：

Ten years of sharpening one's sword: competing for Hong Kong

As the first and only men's fencing athlete representing Hong Kong, Lam has been the champion in men's tournaments in the last 11 years, winning numerous medals including a medal for both individual and a bronze for the team in the Asian Games in 2014; a bronze for the team in the Asian Games 2013, an a bronze in 2005, 2008, 2011 and 2012. He sees fencing as his lifelong career and, in 2019, he retired due to injuries, but has continued to nurture outstanding athletes for Hong Kong.

As the saying goes, 'one's sword is sharpened every decade'. I started learning fencing at the age of 15, and in the past 19 years, fencing has led me into various tournaments and to compete with leading champions, including my experience in the London Olympics 2012, the Winter Olympic Games in Sochi in 2014 and the Asian Games in Jakarta in 2018.

Thinking back of my experience in the last 19 years, I was able to compete in 4 Asian Games and one Olympic Games. It was a privilege to be able to compete against world champions and to learn from the other international opponents.

Other than striving for technical prowess, fencing requires patience and perseverance in one's training practice. Moreover, it demands teamwork. No matter how good you are in fencing, you will need to compete against your opponent in order to come to terms with your own strengths and weaknesses. Therefore, you need to know yourself and the others, in order to better yourself. As teamwork is so important, I am thankful for the support and encouragement from my coach Mr Cheng and my other team-mates who offered me so much learning and encouragement, and for us to grow together in the team.

Thinking back of my 19-year athlete's journey, my greatest satisfaction has been the privilege of participating in the London Olympics where I won my first medal. Of course, there had been difficult days too, including my chronic injuries that have affected my training. Another difficult period has to be my experience at the Doha Asian Games in 2006, where we competed against Thailand in the finals, but lost the chance to win a medal. Afterwards, my two fencing teammates decided to quit the athletic career. At that time I became the only fencing athlete in the men's team representing Hong Kong. At that time, I was doubtful how I could continue to serve in the team, and thought of leaving too, but then I was worried that this hard-earned path would disappear if I were to leave as well. So I decided to persevere, which is something easier said than done.

I believe that perseverance always reaps results. Witnessing the emergence of young talent in the fencing team who have competed brilliantly in tournaments reaffirms my values.

Three years ago, I announced that I would retire and stop competing as an athlete. Now, I am sharpening my second sword, which is to help nurture the new generation of fencers by sharing my knowledge. I am also hoping to set up a fund for athletes, aimed at supporting the research and development of fencing equipment, so that we can nurture more Olympics-winning athletes, and to encourage athletes in Hong Kong to pursue their dreams as well as to seek better performances.

What do you like most about Hong Kong youths?
Their perseverance and commitment to dream-seeking.

In your opinion, how should Hong Kong's young people seize their opportunities?
They should work hard to equip themselves and to stay positive in face of challenges or difficulties.

How would you encourage Hong Kong youths?
I can give talks and share my experience on my successes and failures, encourage young people to persevere.

2009年香港小姐冠軍。2016–2018、2021–2023年期間曾擔任慈善機構「慧妍雅集」的執行委員會會長。2022年創立了小小漢語普及愛教育基金，提升幼稚園學生和少數族裔普通話的程度；另外與四位留學英國的高材生組成中華倫敦協會，鼓勵人才來港。

發揮女性的影響力 令香港變得更美

2009年成為香港小姐冠軍，令我有機會參加慧妍雅集服務有需要的香港人。還記得第一次帶獨居長者去海洋公園，見到掛在他們臉上的笑容，令在單親家庭長大的我找到人生的使命，就是將自己所長貢獻社會，關懷弱勢社群，帶正能量及愛給有需要的人。

慧妍雅集是集合超過100名歷屆香港小姐得獎者及參賽者的41年慈善機構。我加入慧妍雅集已有10年，出任了四屆會長，我有幸這期間帶領我們一眾善心義務工作者，讓接近70萬人先後受惠，當時我了解到很多長者的家人移民、或工作繁忙變成獨居長者，令他們出現抑鬱。於是，我們聯同心理輔導員、藝術治療師等到長者中心探訪，並舉辦了一連串為長者改善抑鬱情緒的活動，包括首辦的慈善演唱會《一諾成真慈善金曲匯》，幫助過千名長者。

我也推動了與兩大慈善機構東華三院及保良局首辦的羽毛球及乒乓球慈善大賽，推廣運動健康生活，近600人參與，當中包括長者、醫生、學生、老師等等，希望為香港注入正能量，共建美好將來。

8年前當了媽媽，讓我有機會再一次踏入校院、有新的領悟。現時很多基層幼稚園的普通話課程一星期只有約25分鐘，我跟朋友共同創辦了慈善機構「小小漢語普及愛教育基金」，透過專業導師和義工義教，讓幼兒更深入認識普通話和中華文化。第一、二屆「普及漢文化，童心創未來」先導計劃與8間學校合作，約1,000名學生受惠。同時，我留意到，香港有幾十萬名少數族裔，他們很需要學習普通話。基金與嶺南大學一同走入社區中心服務，由來自內地的大學生教少數族裔的小學和初中學生，透過學習普通話更了解中國文化。

大家可能知道，當年若非繼父患病，我可能仍留在英國的投資銀行工作。近年很多人移民、人才流失，我希望鼓勵海外留學生回來創業、 就業，於是我和四位在英國頂尖大學畢業的海歸，組成了非牟利組織–中華倫敦協會。我們明年3月舉行周年晚會，及聯同中文大學舉辦教育峰會， 除了邀請英國大學的校長、學者，亦會邀請香港的大學參與，鼓勵更多在英國畢業的大學生回港進修，就業，創業。

回想過往十多年，我透過這三個慈善團體，分別服務了長者、婦女、兒童，在推動教育、文化、青年發展和香港的國際形象，花盡心思。成為十大傑出青年，是以生命影響生命的一個使命。慈善工作尤如一座難行的山，「十大傑出青年」獎項就好像一支登山杖，支持我行得更遠，我希望憑着這個獎項，可以感染更多同行者一起將這棵善心傳承下去。未來我會繼續努力，繼續發揮女性的影響力，促進本地社會公益事務，令香港變得更美。

從學校走進社會，你最初為自己定下什麼目標？
顧己及人，貢獻社群。

追求目標的過程中，曾遇過最大的挫折：
從事慈善義務工作，當中付出不少心血，但能為社會付出，都是值得。

一件最能夠激勵你繼續前行的事情：
社會服務有身心疲累的時候，但想到受惠人的笑容和溫暖，以及跟我走過這道路的義工，給我力量努力堅持我們的理念。

你滿意今天的自己嗎？
未，社會求助與日俱增，祈望自身表現得到更多共鳴！

你最鍾意香港青年什麼？
努力拼勁，德才兼備，帶領潮流，放眼世界，心繫香港。

你覺得香港年青人，可以如何爭取上游機會？

Ten years of sharpening one's sword: competing for Hong Kong

Lau was the winner of Miss Hong Kong pageant in 2009. She was also the chairperson of the executive committee of Wai Yin Association in 2016-2018, 2021-2023. In 2022, she set up Mindful Mandarin Foundation to promote the Mandarin speaking among kindergarten and ethnic minorities. Together with four other overseas graduates from the UK, she set up the London Chinatown Chinese Association which encourages talented professionals to come to live in Hong Kong.

In 2009, I became Miss Hong Kong, which offered me a chance to serve Hong Kong people by joining Wai Yin Association. I still remember bringing the elderly who live alone to visit Ocean Park back then. Seeing how happy they were brought joy and meaning to me, as I too grew up in a single parent household. I am keen to contribute what I have and to care for the society, bringing positive values and care to those in need.

Wai Yin Association is an organisation comprising the previous winners and contestants of Miss Hong Kong over the last 41 years. I have joined the Association for over a decade, having served four times as the chairperson, and I am so glad to have served over 700,000 people through our services. I found out that many elderly have become depressed because their family members moved overseas or became too tied up with work. Together with therapists and counselors, we went to visit the elderly centres and organised activities aimed to serve the elderly there and support them to combat depression. This includes an inaugural charity concert attended by over 1000 elderly. Together with leading charities such as Tung Wah Group and Po Leung Kuk, we also organised badminton and table tennis charity tournaments to promote a healthier lifestyle, and which were attended by elderly, doctors, students and teachers. By inspiring positive values I hope that we can build a better future together.

Eight years ago, I became a mother, which offered me a chance to go to the campus again, and inspired me with new discovceries. Currently, in some kindergartens, the Mandarin lessons are only 25 minutes long, and with this in mind, I set up a Mindful Mandarin Foundation to promote more interest in Mandarin and Chinese culture for early learning, through the work of professional tutors and volunteers. We collaborated with 8 schools to pilot a scheme to promote Mandarin learning, which benefited 1000 students. At the same time, I can see the need for learning more Mandarin among the ethnic minorities too, so we also collaborated with Lingnan University, in which university students from Mainland would teach the learning of Mandarin and Chinese culture to primary and junior secondary students.

You may know already that had it not been my step-father's medical condition, I would have stayed on in the UK and worked in the investment banking field. In recent years, many people have emigrated and that there has been a loss in human capital in the city. I would encourage more students from overseas to return to the city for business and work opportunities. Together with four other friends who graduated from leading universities in the UK, we have set up the London Chinatown Chinese Association. We plan to have an anniversary gala in March 2024, and will join hands with the Chinese University of Hong Kong to organise an educational summit, inviting Vice-Chancellors and scholars from universities in the UK as well as universities in Hong Kong to join these events, and to promote awareness of opportunities for overseas graduates.

In the past decade, I worked for three charity organisations that served the elderly, the women and children, in order to promote education, culture, youth development and to enhance Hong Kong's international profile. Being named an outstanding youth gives me a sense of mission in my life. Charity work is a challenging career, and this award can serve me like a hiking stick, so that I can travel further. I hope that this award can encourage more of the like-minded individuals to continue with their charity work too. In the future, I hope to continue to create impact though my work, and to promote charity activities locally, helping to create a better Hong Kong.

What is your biggest objective as you finished studies and embarked on your profession?
To care about both yourself and others, as you offer yourself to the society.

What are your most daunting failures or disappointments as you seek your goals?
Working in community service requires a lot of commitment, but then I always feel that it is very worthwhile. What can most motivate you? When I feel discouraged or fatigued from my community service work, I am often encouraged and motivated by thinking of the happiness and warmth coming from those who benefited from the service and from the volunteers.

What do you like most about Hong Kong people?
They are hardworking and talented trendsetters with a global vision and a strong sense of belonging in Hong Kong.

How would you advise youths in Hong Kong to seek their dreams?
I would encourage them to work hard and not give up, to be dedicated to continuous studies, to grasp the opportunities in the Greater Bay Area, and to take part in emerging economic development, so as to keep up with Hong Kong's development.

How would you support the youths?
To understand their needs and to encourage them to take part in community work.

“Do what you have to do today better than how you did them before
今天最重要的事情 — 是要比昨天的我做得更好”

Something that best represents myself
一件最能代表自己的物件

土生土長的印度裔港產放射科專科醫生，2017年以優異的成績獲得香港放射科醫學院院士資格，並成為該學院第二個獲頒 Dr FL Chan Medal 的醫生。馬醫生在伊利沙伯醫院放射診斷部任顧問醫生，透過進行介入放射科腦神經血管手術治療中風、動脈瘤和血管畸形的病人；又為診斷放射科引入人工智能，在急症室協助診斷腦出血的掃描影像，成功增加診斷腦內出血的準確性，加快了整個醫療流程，令更多病人得到及時和適切的救治。

今天的你應該比昨天的你更好

幾個星期前當我獲通知當選今屆傑青，選舉大會問我，「最能夠激勵你繼續前行的事情」是什麼，我想起小時候，一位老師的教導，「每天最重要的事，就是比昨天的自己更好」。這個理念直到今天，依然銘記。要做得比昨天更好，意味著要不斷改善，不斷進步，這絕不容易。我父親是來自印度，七十年代移居香港，我是新移民第一代在港出生的小數族裔，要在社會打拼向上，自然要努力融入本地社會。但可能不太多人知道，我亦很少和別人分享的一件事情，就是我出世的時候，供應其中一邊膊頭的神經線嚴重受傷，令活動能力和靈活性非常有限。從小直至青少年成長期，這受傷令我的體能和心理上面對許多挑戰。到我青春期的後期，我和家人決定尋訪醫治的方法，問過很多醫生，得知這個病很難根治。

相信是上天對我的眷顧，最終有一位外國醫生，嘗試透過手術幫我醫治，經歷幾年時間，三次的大手術，大家今天見到的我，可以活動自如。我分享自己的故事，是因為這位醫生對我的醫治幫助，讓我在隧道中看到一點光，亦鼓勵我立志成為醫生，去幫助其他人，這亦啟發我明白，在追求理想目標的過程中，挫折和失敗是無可避免的，既可以成就一個人，也可以毀掉一個人，而我努力使它成為前者。畢業後我成為一位放射科專科醫生，在公立醫院工作。我看到近年人工智能的發展，醫學開始引進A.I.，我和團隊亦開始嘗試引入人工智能，在急症室協助診斷腦出血的掃描影像，這樣可以成功增加診斷腦內出血的準確性，加快了整個醫療流程，令更多病人得到及時和適切的救治。從去年一月到現在，已經有28,000個病人受惠。在這裡，我要感謝家人從少對我的支持和鼓勵，我父母陪我經歷膊頭的手術，哥哥給我最強後盾，讓我有勇氣去追求理想在香港做醫生，我好感激做物理治療師的太太一直以來對我和兩個女兒的照顧，讓我無後顧之憂專心在醫院工作。我亦要衷心感激醫好我的醫生，他不單醫好我，更鼓勵我成為醫生，幫助更多人。最後我想講的是，我在香港出生，讀書成長，雖然我是小數族裔，但我視香港是我的家，期望我的故事，可以激勵香港人，繼續向前，即使遇到困難，努力堅持下去，明天定會比今天更美好。

從學校走進社會，你最初為自己定下什麼目標：
在專業和個人方面盡我所能。

追求目標的過程中，曾遇過最大的挫折：
在追求目標的過程中，挫折和失敗是無可避免的。這些都會對一個人的心理造成影響，可以成就一個人，也可以毀掉一個人。我努力使它成為前者。

一件最能夠激勵你繼續前行的事情：
我從小學習每天對自己說：今天最重要的事情就是比昨天的自己做得更好。

你滿意今天的自己嗎？
我想平衡工作、專業和個人生活，這方面的希望能夠做得更好。

Do what you have to do today better than how you did them before

Born and grew up in Hong Kong, Dr Mahboobani is of Indian heritage and works as a specialist radiology doctor. In 2017, he graduated as the top in class at the School of Radiology at the University of Hong Kong, and was recognised as the second medallist ever in the history of the School of Radiology. Later, Dr Mahboobani works as a consultant doctor in the Radiology Department at Queen Elizabeth Hospital

A few weeks ago when I was contacted about the Outstanding Youths Selection, the organiser asked me about the things that most motivated me.

So I told them what a teacher once taught me: 'in everything that you do, always do it better than how you did before.' This means that we should always aim for more progress, something which is very hard to achieve.

My father came from India to Hong Kong in the 1960s. As an immigrant, I feel that I have to work harder than others to justify myself. Something that I don't often share with others is the fact that when I was born, I suffered from a disease in my left arm, which meant that I could only have 30–40% of a normal person's mobility. Because of this condition, I remember feeling very sad that I could only be a spectator when my classmates played ball games or swimming, without being able to participate. When I turned eighteen, my family and I sought medical help to remedy this condition, but we realised that it was quite hard to treat it. Nonetheless, we were very blessed to have found a doctor from overseas who could help me with my condition, and so after three major operations, I was able to recover from the condition and could nowadays work without the impediment.

I wanted to share this story with everyone because this doctor not only treated me, he helped to restore hope in my life despite years of darkness. It also made me decide to become a doctor myself, in order to help others. The experience helped me understand that, when we pursue our dreams, difficulties and failures are inevitable, and can either make or destroy us. I have chosen the former.

After my graduation, I became a radiology specialist doctor, working in a public hospital. Seeing the rapid development of AI in recent years, we have introduced AI in our medical practice, using it for scanning images of the brain hemorrhage in the ER services. This can reduce the time needed to diagnose patients who suffer from blood hemorrhage and speed up the medical treatment process, so that more patients can obtain timely help. From January last year until now, over 28,000 patients have benefited from this new measure.

I would like to thank my family for their support and encouragement, especially my mother who stood by my side when I had to undergo major surgeries during those challenging years. I also thank my brother for being my staunch supporter and encourage me to pursue my dream profession in Hong Kong. I thank my wife for looking after our two daughters so that I can dedicate myself fully in my job. I am also indebted to the doctor who treated me in the past. Not only did he help me regain my physical strength, he led me to become a doctor who can help others.

I was born and grew up in Hong Kong, and although I am an immigrant from the ethnic minority, I see Hong Kong as my home. I hope that my story can inspire other people to persevere with their dreams despite difficulties, and to seek a better future for themselves.

When you finished university and embarked on your career, what sort of objectives did you set for yourself?
To develop my full potential both personally and professionally.

What are your biggest challenges as you pursue your goals?
During this process, I found out that challenges and failures are inevitable. These will impact on the individual's state of mind: they can make or break someone. I strive to succeed despite the challenges.

Name something that can motivate you on your life journey:
Since I was a primary school student, I committed myself to this motto: do the things you have to do today better than how you did them before.

Are you proud of yourself and where you are now?
Nowadays, I work hard to find the right balance between work and personal life.

What do you like most about Hong Kong youths?
I think they are very creative, clever and ambitious.

How do you think Hong Kong youths can best seize the opportunities out there?
Do the things you have to do today better than how you did them before, and do your best to improve yourself, as you emerge a better person for tomorrow.

How will you demonstrate your support for local youths?
I am happy to share with them my background, my challenges and my own story, encouraging them through being a role model.

The secondary school/university you attended:
Diocesan Boys' School and the University of Hong Kong (Medical School).

Dr Mahboobani and Hong Kong

What do you like most about Hong Kong?
Hong Kong is my home. It is a safe, efficient city filled with opportunities.

What do you think Hong Kong people are good at?
Hong Kong people are very adaptable in all sorts of circumstances and great in seizing opportunities.

What do you like about Hong Kong youths?
They are creative, clever and ambitious.

How would you market Hong Kong to tourists?
Hong Kong is a safe city with lots of amazing food and shopping outlets, as well as scenic attractions that beckon to any visitors.

Kick-off Ceremony 啟動禮

The Kick-off Ceremony of the "Ten Outstanding Young Persons Selection 2023" was held on 22 May 2023. The theme this year is "Lead to Future."《現在·締造未來》. TOYP SELECTION 2023 HIGHLIGHTS
Community Service Day

The "2023 TOYP Theatre" was successfully held on November 12. This was the first time in Hong Kong to promote the efforts of the awardees in the format of a stage play in order to encourage local youth to be positive.

For the first time, the "TOYP Theatre" has cooperated with multiple units. In addition to open recruitment for front and backstage crew, the inclusive theatre group "New Moon Arts Dream", student members and a group of young people who are passionate about stage performances join- hands together in this project. In just one month, the team has to complete the script creation, role selection and multiple practices. Through interviews with this year's awardees and professional rehearsals, the success stories of the awardees were presented to the audience in the form of a stage play. As an inclusive and collaborative drama show, the actors on stage also include visually impaired, hearing impaired and people with disabilities. They use sign language and body movements to showcase the stories of six awardees.

We are glad to have the support of various companies and organizations to sponsor some stage play tickets so that people in need can come and watch the plays for free. Beneficiaries include low-income families, children and teenagers with special learning needs, ethnic minorities and people with disabilities.

After the drama show, the five award winners in Hong Kong also shared their feelings and success stories with the audience.

「2023十大傑青劇場」在11月12日順利舉行。 是次舞台劇為香港首次舉辦，以宣揚十大傑出青年得獎者的努力，同時鼓勵香港青少年積極向上。

本次「傑青劇場」破天荒與多個單位合作，除了公開招募台前幕後外，更有共融劇團《朔月藝團》、學生團員以及一眾對舞台演出抱有熱誠的青年人參與。在短短一個月，由劇本創作、以至角色選拔和排練成為一個完整劇目，透過和本屆傑青真實的訪談以及專業的排練，把應屆得獎者的成功故事，以舞台劇形式呈現觀眾的眼前，是極具挑戰性的計劃。作為社會鮮有的共融協作舞台劇，台前演員除了有健全的劇員，亦包括一眾視障、聽障及傷健人士。他們透過手語以及肢體動作，混合讀本以不同感觀將傑青成長故事演繹出來。

活動亦設有慈善套票，有幸獲得各公司及機構的支持，贊助部份舞台劇門票讓有需要人士免費前來觀看劇目。當中對象包括低收入家庭、有特殊學習需要的兒童和青少年、少數族裔以及傷障人士。
在劇場後，五位在港的得獎者亦有現身說法，向觀眾分享自己的感受以及成功之道。
