Message from Guest of Honor

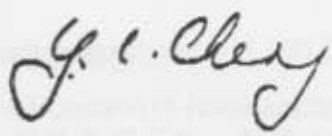

I take great pleasure in writing this message to mark the Hong Kong Junior Chamber's National Convention 1999.

This annual event is growing in popularity. And for good reason. It imparts secrets for success in the world of business by bringing together leading experts to lead workshops and deliver talks.

This year's theme "Action Today, Power Tomorrow" is particularly apt as we stand on the threshold of a new millennium. It is becoming increasingly clear that if we, in Hong Kong, are to reap prosperity and success in the 21st century then we must build the foundations of that success today. The time is now, as they say!

The Hong Kong Junior Chamber is one organisation that has built a fine reputation for taking the initiative. Its young, energetic and enthusiastic members have gone a long way towards promoting responsibility in the workplace, internationalism, and community awareness through a series of useful projects and programmes.

I am, therefore, delighted to congratulate the Hong Kong Junior Chamber for its fine work in organising this most timely Convention.

Professor Y.C. Cheng
Vice-Chancellor
The University of Hong Kong

Message from Convention Director

It is my great pleasure to welcome all the guests and delegates of the 34th National Convention. This year, we are most honored to have invited Prof. Y.C. Cheng, Vice-Chancellor of the University of Hong Kong, as our Guest of Honor.

As the last Convention of the 20th Century, this Convention carries the great significance of concluding our work in half a Century's service to community and prepares us for the new challenges ahead.

We introduce, for the first time in Asia, the Self-Assessment Tools workshop by The Peter F. Drucker Foundation for Nonprofit Management to help us develop a stronger social sector in Hong Kong, and to make the social sector a new source of prosperity.

We hope you find the new formats of the Old Timers Re-union, Hosting Chapter Night, and Trade Show enjoyable. We also hope the full-color newsletter, Convention Manual softcopy, Annual Report, JC Opportunities Forum and our meeting support services useful in focusing our collective wisdom towards a better Hong Kong Junior Chamber.

Admittedly, all the innovations are only possible due to the unfailing support of many parties and individuals. I have to thank our many sponsors to allow us to benefit from their advanced equipment and services, and the generous support from our Patron COTCO Holdings Ltd.

I am also grateful to the numerous supports from the Jaycee family. I am particularly grateful to the support rendered by the National Board who all make extra efforts to provide timely help to us. The whole Organizing Committee is benefited from the close attention paid by National President Louise, National Secretary General Arthur, and Past National President Justin. Besides the many Organizing Committee members, the enthusiastic involvement of many Past Presidents and senior members, particularly Senator Patrick Ng is a vivid demonstration of brotherhood.

Finally, I want to extend my great gratitude to the family members, colleagues, and important persons of the Organizing Committee for their understanding and acceptance of our deep involvement in the National Convention, which at times affect our family and corporate involvement. Taking this opportunity, may I wish you all every success in the various aspect of your life.

Message from National President Hong Kong Junior Chamber

It is my great pleasure to welcome you all to the 34th National Convention of Hong Kong Junior Chamber.

National Convention is one of the highlighted projects of National and it provides an opportunity for all National and local Chapters officers to get together to review and evaluate our accomplishments in the past months. We need to plan ahead our future strategies and witness the election of Year 2000 National Cabinet.

"Hand in hand, Go for Gold" is the slogan for 1999 National team. In view of the recovering economy from the Asian financial turmoil, we had to demonstrate strength and join forces to accomplish our targets to be well prepared for the Golden Anniversary. I can see that all board members , ordinary members and associate members are contributing their extraordinary efforts to make things happen this year.

This year, we had continued to launch the Right Decision Program to help our younger generation to establish their value system. The Young Entrepreneur's Summit, the corporate brochure enhance our corporate image. We had established good relationship with Home Affairs Bureau by jointly organizing the Youth 2000 Jamboree with 14 other organisations. We also upgrade our IT standard by jointly organizing an IT week with Hong Kong Productivity Council by the end of this year. Our PR status have been enhanced by the hard work of Community Concern Group. We also continue to promote the Associate Members Club where more and more associate members are willing to stay with us and contribute their time and resources to our beloved organisation. Various training programme, includes local Prime, TDC Arena can upkeep our training development image.

Furthermore, all local chapters are striving their best to launch projects in the five area opportunities and under our Major Emphasis Theme : Develop our future leaders, excel to new millennium. We have continued to contribute to the advancement of the global community by providing the opportunity for young people to develop the leadership skills, social responsibility , entrepreneurship and fellowship necessary to create positive changes.

I will like to thank our Guest of Honor Prof. Y.C. Cheng, Vice-Chancellor of the University of Hong Kong and our distinguished guests for their support to our organisation. I have to thank our Convention Director S.C.Mok and devoted members from Island Junior Chamber for bringing us together.

Message from Vice President Junior Chamber International

My fellow Hong Kong Jaycees, first I would like to thank my friend Louise and your immediate past president, Spencer; and all National Board members for taking care of me on my first official visit to Hong Kong. Hong Kong has been the pearl of the British Empire in the last 50 years and the JCI has also 'pearled' in the Hong Kong Jaycees. Over this period you have won countless awards for your project. However we must look to the future and we all have to improve ourselves. For the Hong Kong Jaycees, in my opinion, you have to improve your influence in your society, your government by using your extensive network in business and in the community. This is very important as it allows you to run different project, new projects to keep your leading role here in Hong Kong. I also see that you have more Chinese and English speaking Jaycees, which will also participate in more projects and take an important role in the Chinese community. In my opinion if you put trust in yourself, you can achieve any goal you want; so let's create the future together.

Message from Hon. Life President Hong Kong Junior Chamber

A change of leadership each year is a Jaycee tradition worldwide. It enables more young people to achieve higher positions of responsibility and to put into practice their goodwill and the training acquired on the way. It is so in Hong Kong too.

It is proper to recognize the devotion and hard work of the outgoing President, Officers and Directors for the advancement of the Jaycee interest here. Each administration in turn leaves the organization stronger for its successors to carry on training young people to take their part in the betterment of Hong Kong.

Every good wish is offered to the incoming President, Officers and Directors who will surely rise to the expectations of all members here and internationally.

Congratulations.

Message from The Chairman, Associate Members Club

The National Convention is always a memorable occasion on the calendar of events of every National Organisation Member in the Jaycee world. To many of the members of the Junior Chamber, the significance, excitement and attraction are always there although they attend the same event every year. It is significant because it is the time to reflect on the past performance and to formulate plans for the future; exciting as achievers will be recognised and new leaders will be elected on that occasion; and attractive for providing the opportunity to participate in different training programmes within a short span of time and to enjoy a variety of fellowship activities.

To all those who will be recognised for their achievements, congratulations. I am sure that those achievements will serve as a reminder of the brilliant work done and a motivation to do even more.

To the 1999 team of National officers who have led us through a challenging year, they should deserve a word of praise for the contribution they made in bringing us a sense of fulfilment and content.

To the newly elected National Officers, congratulations for becoming a constituent part of the first National Board in the next century and best wishes for attaining new heights in their endeavours to fulfill the objectives of the Jaycee movement.

Chairman, Associate Members Club

Convention Theme :

"Action Today, Power Tomorrow"

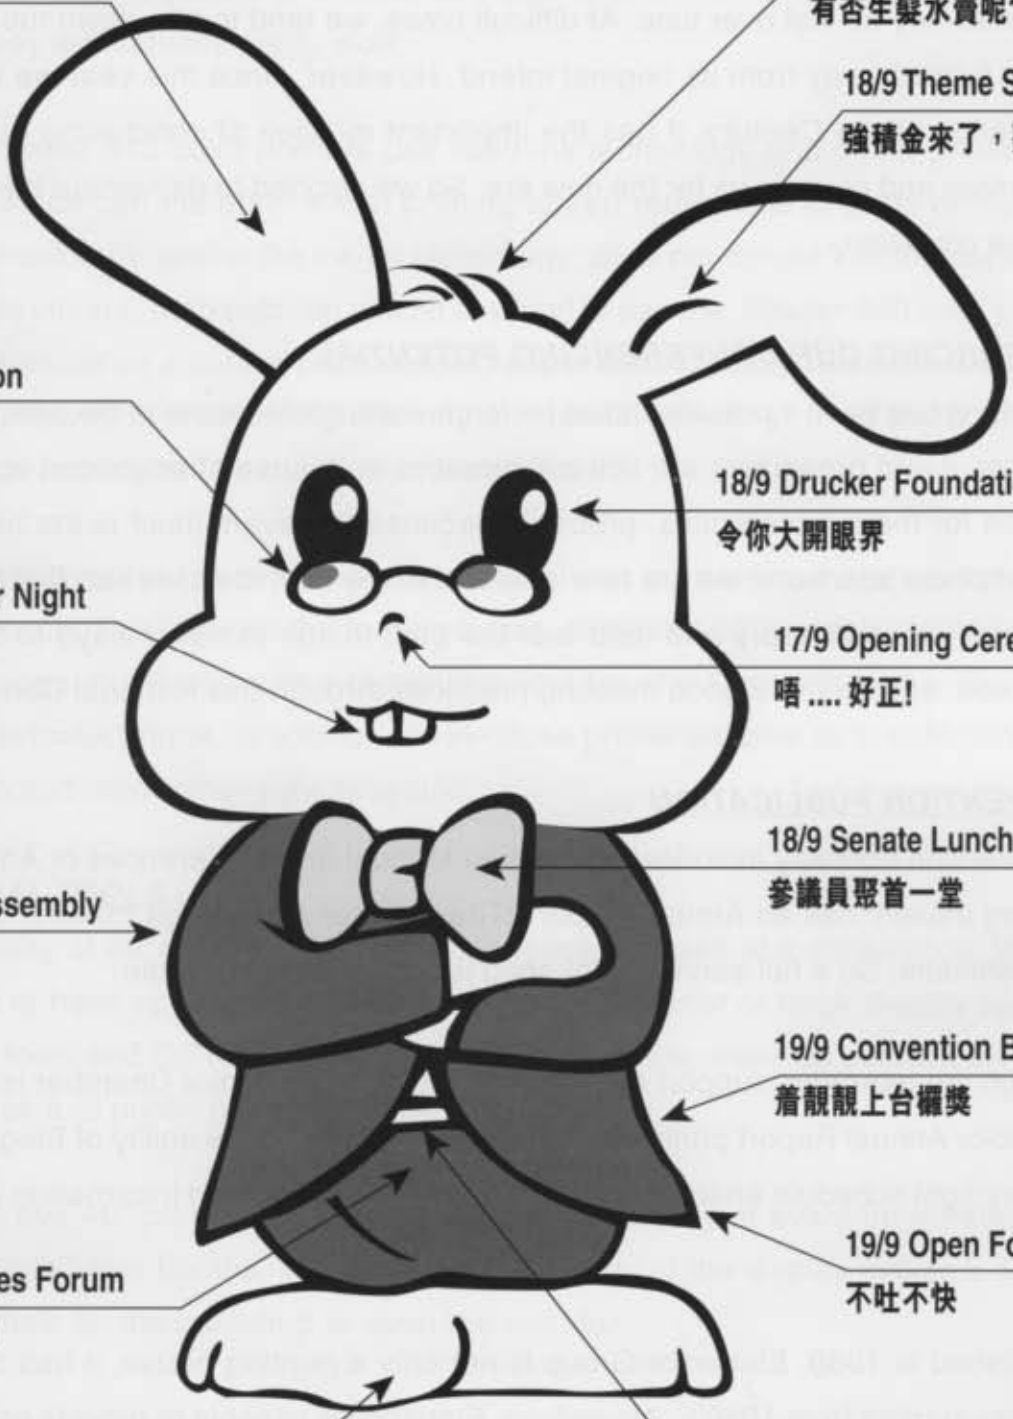

Hong Kong is now in a state of economic turmoil. Some people hold the view that it is the result of external economic downturn and hope that improvement of external conditions will pull us back to prosperity. That is to say, there is nothing we need to do. If we allow this attitude to spread, it will keep on eroding the competitiveness of Hong Kong. Chances are that when external conditions improve, we are not prepared to take up the opportunities and be left behind.

Hong Kong Junior Chamber is ACTION ORIENTED. So we decided to do something through this National Convention for the betterment of our community. Taking advantage of our organization's long experience in meetings management, we contribute our part by setting our goal to create a conference of high standard using the advanced technology and new event organizing methodologies. Through actual deployment of resources in the largest and the most important meeting of our organization, we hope to add one more success story to make Hong Kong a preferred location for large-scale conferences and meetings. By offering our best to create success, we want to send the message that we should be the masters of our destiny. Take action now and then we have the power to rise above the chaos.

Our own power is limited. But when we combine the power of other proactive parties, a lot more can be accomplished. In fact, many local organizations have bravely created Internet infrastructure, advanced technology, management practices, financial instruments and business services which are the building blocks for a knowledge society. It is just a matter of bringing them together under the spotlight for the public to realize what we have achieved. Through these role models, we can inspire more people to take positive actions now.

We hope that through our combined efforts, Hong Kong can again be a place in which we can lead a meaningful and fruitful life, a place we can be proud of and live happily forever. We also hope that everybody here can confidently say that we are our own masters through our well thought out decisions and proactive actions.

CREATING A CONVENTION

DELIVERING OUR BEST

The National Convention is about the most conventional event of Hong Kong Junior Chamber. So conventional that the meaning and purpose of the various elements and the rituals may be lost over time. At difficult times, we tend to trim down the function and bring it further away from its original intend. However, since this year we have the last Convention of the Century, it has the important mission of concluding our unfinished businesses and prepare us for the new era. So we decided to deliver our best despite the adverse condition.

REINFORCING OUR CONFERENCING POTENTIAL

Hong Kong has been a popular choice for large-scale conferences in the past few decades. However, event organizers are still conservative in the use of advanced equipment and facilities for their conferences, probably because the event itself is the hero. With the support of our sponsors, we are now able to use the best tools we can find for the event. In return, we shall apply and field-test the best things in novel ways to fully develop showcase, and promote good meeting practices through this National Convention.

CONVENTION PUBLICATION

A Convention normally includes Convention Manual and conferences or Annual General Meeting usually has an Annual Report. They typically has large number of pages and tight schedule. So a full-service print shop is almost indispensable.

Through the generous support of Elegance, Hong Kong Junior Chamber is able to have a full color Annual Report printer in high quality this year. The ability of Elegance to meet our very tight schedule enable us to include the most updated information in our Annual Report.

Established in 1980, Elegance Group is not only a printing house, it has diversified its business starting from 1990's. Nowadays, Elegance is capable to provide comprehensive services to its customers including commercial printing, financial printing, data printing, document solutions, public relations and event management and translation services.

QUICKEST TURNAROUND COLOR PRINTING

A newsletter issued regularly during a big convention helps to bring the hearts of delegates together. But it demands very quick turnaround time of a few hours per issue. This in the past will dictate use of black & white phtocopying with poor photo quality. Inkjet printers are much faster now. But their claim speed is normally based on a typical letter with lots of white space which equates to a faster average speed. For full page contents like a newsletter, they are actually pretty slow.

Tektronix's Phaser 840 color printers use solid-ink technology and offset-printing-like mechanism which can maintain a fast printing speed regardless of page content. In addition, their colorstix, unlike the ink-jet technology, does not diffuse into the paper, and hence produce vibrant, solid color on almost any kind of papers. Phaser 840 color printers can print doubleside on a normal photocopying paper automatically. So a newsletter can be printed rightaway and saves significantly on manual handling. That's why they are confident color printing will be the mainstream in future.

With high quality color printing, we are now able to prepare our stationery with a professional touch. This includes the invitation card, delegates badge, documents envelop etc.. The savings in silk-screening or printing cost for one Convention is sufficient to purchase a Tektronix printer. In addition, an in-house printer enables us to entertain drop-in registration and meet other tight schedule.

AUDIO-VISUAL TOOLS

The functionality of AV equipment is the most noticeable part of a conference. We are very pleased to have sponsorship of Kingsmark, a distributor of large display systems presentation tools and CCTV equipment. They can provide one-stop solution for about any conference and public performance.

There will be two 40" plasma display panels for the display of event information and promotion of exhibition booths. The extremely thin body of the display makes it easy to mount the panels on the backdrop or even the corridor.

A multimedia projector is ideal for combining computer presentation and illustration with real objects or free hand sketches. The high brightness also makes it possible to use in normal lighting condition for the convenience of audience.

The real-time 24-hour VCR and associated camera etc. is originally a security equipment. It is now put to good use to record the whole event at minimal cost and more convenient search. The real-time capability, which is not normally found in other long recording time VCR's, is very important to make it a practical substitution of consumer VCR.

PRACTICAL UNIVERSITY RESEARCH

Hong Kong's seven teritiary institutions has many top-notch researchers. Many of their research topics are related to multimedia and Internet technology which is indispensable in promoting a big event. We have identified a few project in Chinese University of Hong Kong, Faculty of Engineering which can greatly enhance the appeal of an event.

A multimedia webpage authoring tool developed in CUHK is ideal in adding videoclips of an event quickly to create an online newsletter. In addition, a skeletal based animation technology is under development. Transformation of a 3D model is very easy using this approach. It has the potential of liven up a website to make a convention mascot come to life. However, due to lack of 3D design talent in our members, probably this diea has to be left to future events.

INTERNATIONAL TRAINER

The substance of a Convention is its soul. Each year, we invite prominent trainers to give our members timely training to meet upcoming challenge. This year's the training is a preparation for the social sector to take up more responsibility to create a better community in the next millennium.

We are very glad to have Dr. Nora Silver from The Peter F. Drucker Foundation for Nonprofit Management to conduct a workshop on their "Self-Assessment Tools". This foundation set up by the father of modern management has a mission to "Lead social sector organizations toward excellence in performance". We are very proud to host their first launch of this important workshop for Asia during our Convention.

HOME GROWN TECHNOLOGY

With so much emphasis on the application of new conferencing technology, we need somebody to put them all together. Display Research Laboratory being a local

manufacturer of presentation and CCTV tools with strong consulting background, can mix-&-match products and orchestrate their integrated use for best results.

With their VGA resolution color quad processor, it is now possible to put together 4 camera and computer images into a single view at high resolution. The audience can now see the presenter, notes, and real-object illustrations without swinging their heads. Their TV-based low-cost video wall is also ideal in roadshows and small scale exhibitions like the one we have during the Convention. Their staff also rendered help in enhancing the website and other back-end administration and database management work.

CASH INPUT

No matter how cleverly we control our expenses, some expenses are inevitable. Although it is a difficult time, there are still companies with a strong financial position and willing to support us financially. In particular, companies having strong technology base and diversified overseas market is in much better shape.

This year, we are very glad that COTCO Holdings Ltd. generously provide cash sponsor for us to achieve our ambitious plans. COTCO manufactures LED and LED display panels. They are widely used in outdoor displays like stadium and sports fields due to its superior brightness. COTCO received the prestigious Hong Kong Industry Award, COM in Technological Achievement category last year due to their commitment in technology development and their systematic training and care of their employees . Currently, they are working on high color fidelity LED panels and a new super bright LED which promises to be the lighting device of the future. It is no wonder that the economic crisis actually provide an opportunity to strengthen their worldwide leadership position.

There is a common focus between COTCO and the Convention organizing committee in that we both believe in preparing ourselves well and good results will follow. So it turns out that they posted up the slogan "今日的努力，明日的成功" all over their factory which is almost identical to our convention theme "Action Today, Power Tomorrow". Their sponsorship of this important event is a further demonstration that they are committed to what they say. From this example, we can learn an essential element of success.

History of Hong Kong Junior Chamber

The Jaycee movement reached Hong Kong in November 1949 with the arrival of a Philippines Jaycee John Ng who was the Special Liaison Officer of the Junior Chamber International 5th Congress charged with the mission of converting Hong Kong to Jayceeism. Through the introduction of his cousin, Alex Ng a Jaycee Senator still, John Ng was presented to Rev.E.Bourke, former Director of Wah Yan Collage, Hong Kong. A meeting was then arranged for him to meet a group of young businessmen.
