EDITOR'S MESSAGES

Coronavirus is affecting our day to day life and is slowing down the global economy in everywhere around the world. Just no one in the world can be excused from the attack.

I am feeling very thankful to our team in making this happen despite all the challenges as face-to-face communication and on-site data collection is not at all possible.

This issue is calling for people's patience and resilience towards their goals in face of adversity. We interviewed Mr. Tyler Kepkay who has always been following his heart with faith and persistence to bring the light out from his passion in basketball. He has also established the IMPACT Basketball Academy to carry on the positive influences of sports for Hong Kong youngsters. MESSAGE FROM

National President
Senator Maric Cheng

Sports are an important part of culture in the United States. American football is the most popular sports to watch in the United States, followed by baseball, basketball, and ice hockey, which makes up the "4 major sports".

When I was young, I was a basketball school player in secondary school, and was a lacrosse player during University. I have learnt a lot through sports, no matter through the process of practice, team management, and winning and losing the competitions. Indeed, we can build our strong mindset and belief, such as, fearless when facing challenges, resilience, and self-disciplined, etc.

Comparing sports to business is not a new idea. The similarities are undeniable, many business experts use sports terms and analogies to explain complex business concepts to the uninitiated.

Under this challenging period of COVID-19 pandemic, our attitude on facing this challenge is the key to success. Same as sports, it teaches us how to come back after a loss, how to improve and work hard, how to develop confidence in dealing with future challenges. When the difficult times in life strikes, we will be able to draw strength from remembering how they overcame struggles on the field.

In past months, I appreciate every member, for your greatest effort to fight for the better community, especially during COVID-19. You have demonstrated a good attitude on facing the challenge. Our projects have created sustainable impacts to our community, and most importantly, we have focused on developing members, sharpening their leadership skills. Same as sports, it becomes clear that every single day you should be learning, developing and improving, because if you don't, you are going to lose out to someone who does.

Let's join hands together and keep improving and achieving more in the "new normal".

GRASP EVERY OPPORTUNITY - PERSISTENCE MAKES PERFECT

About Tyler Kepkay

Tyler Kepkay is a Canadian professional basketball player, currently playing for the Winling Basketball Club in Hong Kong. He is a veteran member of the Canadian national basketball team. He is also a representative for Adidas as one of Asia's leading basketball figures. Tyler founded the IMPACT Basketball Academy in 2016, dedicating to nurturing students' physical, social, and character development through basketball.

Background and Achievements

Coach Tyler graduated from the University of Utah on a scholarship with a degree in Communications and Marketing. He attended The College of Eastern Utah for Junior College on a basketball scholarship where he led the entire nation in scoring his sophomore season averaging 27.9 ppg en route to being named First Team Junior College All-American.

Through his discipline and dedication he earned over 50 basketball scholarships from top NCAA Division I Universities across the United States. He eventually settled for the University of Utah where he led the Utah Utes to a 24-9 record and qualified as the 5th seed entering the 2009 NCAA tournament.

Upon graduating from Utah, Tyler entered professional basketball in the Top 2 Leagues in Germany for four years and led the league in scoring for one season. During the summer of his professional career, Tyler participated with the Canadian Senior

Men's National Team playing alongside NBA players such as Samuel Dalembert of the Milwaukee Bucks, Kelly Olynyk of the Boston Celtics, and Joel Anthony of the Miami Heat. He has also competed in FIBA International competitions with Team Canada and played against the world's best basketball players such as Kobe Bryant, Lebron James, Chris Paul, Dwayne Wade, Carmelo Anthony, Manu Ginobili, Tony Parker, Yao Ming, and Dirk Nowitzki.

Is playing basketball you dream long since you were young? Have you considered working on something else than having basketball as a career?

Yes, it has always been my hobby, my passion and later on, a dream career on mine. When I was small, I enjoyed a variety of sports like hockey, basketball, soccer and so on. I focused on basketball at around 13 years old in junior high. Upon receiving scholarships, I was driven to see basketball as my life and career goal.

I do not buy in the saying that playing sports for a career is risk-taking. What is risk-taking is not about the nature occupation, but one's attitude towards it - whether one believes in it. I enjoyed basketball a lot; I see the opportunities in it. That is! It's enough for me to carrying it on. Life is not about calculating for the unseen days but making good use of what one is blessed with.

We are good to have you now in Hong Kong. What draws you to Hong Kong actually?

It's actually not a planned move. I was in a break between contracts when I visited a friend of mine in Hong Kong back then. Opportunities came in and I decided to stay here. I think that while life can be full of challenges, there are also lots of opportunities at the same time. To be able to grab the opportunities, we need open minds and hearts. Don't be limited by the picture at the moment but reach out for bigger visions – that we can see more opportunities ahead.

Is there any observation from the culture of basketball training and playing in Hong Kong?

Yes. First of all, it's about how people learn: Hong Kong students are of huge potential and excellent learning skills – but lack of confidence. Compare with students with an international background, students in Hong Kong are relatively shy, more following than trying, need a lot more encouragements in general. They are hard-working fast learners. They seem to feel easier in learning through modelling than in learning through trial and error. While I am not to comment on this cultural difference, I believe that having courage in learning from mistakes can definitely help one to excel and break through one's limit. This is particularly one of the key spirits which I want to pass on by setting by the IMPACT Basketball Academy.

Secondly, it's about people's expectations in how to learn: The pace in Hong Kong is fast and most of the KPIs here are about efficiency. This may be good for business and economy, but when it comes to training and learning, patience is needed. I feel like people from the West in general, are more patient in skills building and in step-by-step learning. Hong Kong students are ambitious, but they may have ignored that fact that it takes time and continuous efforts in achieving a true and sustainable success. We cannot jump steps. We need to learn humbly. We need to be willing to spend time to build skills up one at a time.

Team training seems to be difficult now under the COVID-19 challenge. How would you advise your students to keep up with the sports? How do you overcome this challenge for your business?

True. In person training is important for basketball training. Yet, it is not the only thing we need. If we can see things in more details – I may not have team training for myself everyday either but I still need to practice some bite-size skills every day. I am asking them not to be limited by the circumstances; not to be challenged by the limitations. There must be ways out when we are willing to look out.

Can you describe three character traits of yourself which contributed to your success?

Number one, fearless- Fearless when facing challenges; with a problem-solving attitude.

Number two, resilience – to stand firm amid difficult conditions.

Number three, self-disciplined – always seeking out to learn know knowledge, to keep myself in shape.

What makes a good leader?

I think it's empathy. To be a leader, it is not enough just to work hard or to be skillful in your profession. You need to understand what your peers think and feel. You need to make your hard work and your skills convincing. It's about winning people's hearts on top of the hardware professional skills.

Any advice to our youngsters?

Be open-minded to see challenges. There are always opportunities together with difficulties. Again, be creative; be courageous. Then you can see how to keep yourselves up despite the surrounding seemingly limitations.

Interview with

JCI EXECUTIVE VICE PRESIDENT SENATOR RYUBUN KOJIMA

Q1: What is the biggest impact to your JCI services during COVID-19?

A: It is not easy to meet people face to face throughout this period which reduces our socialization. We can still communicate by some online tool which is mainly for information sharing but not effective for decision making. In JC, when people can meet face to face, it is much better to create new possibilities and enhance friendships.

Q2. Do you have any suggestions to adapt the new style of meetings and events?

A: No matter the meeting is conducted online or physically, communication is done in both ways. People should commit their time to have an interactive dialog. With the latest situation, if you want to share information with a mass group of people, you can consider recording a video and then follow up by a small group discussion.

Q3. With the JCI Asia Pacific Conference turned into online session, do you see any challenges and new opportunities with this "new normal"?

A: It is sad that we can't have a face to face ASPAC this year; however, we can still feel the passion from the organizing team. The beautiful part of ASPAC is people can share ideas and feel the atmosphere easily which enhances member motivation. On the other hand, with an online session, it gives opportunity for members that can't join originally to taste what ASPAC is. This is also one of my memorable events. I can see the team trying their best to make it online in a short period of time.

Q4. Any tips to recruit and retain members?

A: Keep running projects is a way but not the only way. It is the best time for us to equip ourselves with new skills sets for a new environment. When people see your positive changes, it will attract new members to your chapter.

Q5. How do you think JCIHK can take steps to lead JCI movement? What do you suggest JCI HK to further improve?

A: JCIHK did very good job with many track records projects. People have a clear mindset to make improvement in their life and contribute to society.

Q7. With the current situation, how can we transfer our knowledge to the new cabinet?

A: The key point is to let people change their mindset so that they can brush up themselves. You can't force people to learn if they don't want to. After all, you are the only one to change yourself. If people can find and set their goals, they are motivated by themselves and they will act towards their goals.

NATIONAL PARTNERSHIP AND SPONSORSHIP AFFAIRS

National Partnership and Sponsorship Commission (NPSC) launched a marketing campaign for Win Win Jetso Program. We invited participants to share their entrepreneurship experience and stories.

JCI has launched a new initiative to sustain and rebuild economies and strengthen workforce morale as we face the impact of the COVID-19 pandemic together. This initiative, JCI RISE, stands for Rebuild, Invest, Sustain and Evolve. It calls upon enterprising young leaders across the world to work together to make economies and workforces more resilient.

We have three main goals with this new initiative:

Sustaining and rebuilding businesses and economies

Engaging and empowering our workforce

Acknowledging, understanding and finding solutions to the mental health impacts COVID-19 has had on the global population.

By focusing our efforts on these three areas, we can reimagine the way our businesses and communities work. We have the unique opportunity to look at our traditional ways of doing things and find new paths that will make the world a better place for all people.

BNI® (Business Network International) and JCI™ (Junior Chamber International) announced today a formalized partnership working together to support global business leaders in boosting local and global economies worldwide.

With this partnership, BNI and JCI will immediately introduce extra horsepower into their events, creating powerful opportunities for qualified professionals to connect and do business. Additionally, they will offer enhanced benefits to Members, increase visibility of these opportunities across organizations, and brainstorm further innovation & collaboration potential.

Joint Directors Meeting

Joint Directors Meeting 1 cum Executive Development Program was held successfully in online format on 20 June 2020 with the participation of board of directors from all 21 Chapters. Before the meeting, we conducted a survey for mid-year evaluation, in which the LOM board of directors were able to share their responses and feedbacks on different areas of NOM this year. After that, sharing sessions were held for each individual area with LOM representatives, creating a platform to connect the National board of directors and local chapters together to share insights, experiences, and enhance the communication.

For Executive Development Program, we were honored to have Sixtycents (六毫子), CEO of Manner Culture Ltd, one of the most famous innovated integration entertainment brands in Asia, who've shared with us on the topic "Creativity in Teams". In alignment with this year's theme "Lead, Connect, Achieve", through Joint Directors Meeting 1 cum Executive Development Program, we strive to continuously work closely and generate inspirations and opportunities for betterment of the organization altogether.

NATIONAL GLOBAL GOALS

Global Goals Week 2020

The countries of the United Nations made a universal promise to leave no one behind in achieving a peaceful and prosperous world by 2030. Global Goals Week is a shared commitment between 100+ partners across civil society, business, academia, and the UN system to accelerate action on the Sustainable Development Goals (SDGs) created by the United Nations Foundation. It is also an opportunity to speak out as one voice, share ideas and transformative solutions in the fight to build back better from global challenges.

From September 18-26, Global Goals Week will mobilize communities, demand urgency, and supercharge solutions for the Global Goals, whether it be digitally or physically. Our shared future and the achievement of the Global Goals will be determined by our global solidarity – how we work together across borders, nationalities, sectors and generations.

In 2020, everyone is at a turning point for the Global Goals, with 10 years left to achieve our vision, and COVID-19 causing devastating setbacks for the world's poorest and most vulnerable. As part of the Decade of Action to Deliver the Global Goals, our coalition of 100 partners will mobilize on the sidelines of the UN General Assembly High-level Week to cultivate ideas, identify solutions, and hold leaders accountable.

Everyone has an opportunity to recover better and build a world that is fairer, more sustainable and more equal. Tackling climate action, providing access to healthcare and quality food, ensuring that all children have access to quality education, and protecting the most vulnerable are now more important than ever.

Global Goals Week events will engage people around the world in conversation and action. From September 18- 26, 2020, whether in person or online, partners from around the world will come together once again – under the umbrella of Global Goals Week — to support the #GlobalGoals.

Tips for preparing Mailchimp Email to ALL LOM

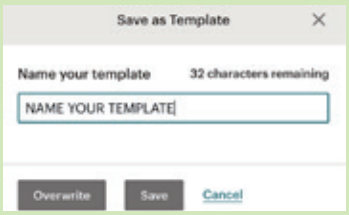

ALL LOM is a kind of email list that contains ALL Senior Members, Full Members and Prospective members emails from 21 Local Organization Members, we have around 2000 contacts in our audience list up to May. In 2020, NOM started using Mailchimp for sending emails to ALL LOM. However, due to security reasons, the mailchimp account has limited access to NOM Digital Development Team and Office Staffs. But the local chapters are still allowed to make a request for schedule and publish promotion email to ALL LOMs.

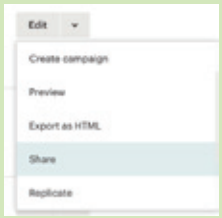

Since we are using mailchimp to publish ALL LOM emails, you are required to prepare your email using mailchimp as well. You don't need to send us a [Test] email, but just save your campaign design as Template and share the link to ndd@jcihk.org. I know many people might not know how to do that, so here are the tips for you to do so.

- ***Once you finish your campaign design,***
- ***Navigate to top right and click Template > Save this design as a template***
- ***Give it a name and click "SAVE".***
- ***Back to dashboard, and navigate Brand > Templates***
- ***Edit > Share***

JCI Next – Innovative training to the "next" level

This new program was co-hosted by JCI Sha Tin and JCI Tsuen Wan. The "JCI Next" aimed at enhancing management and leadership skills for experienced members at LOM's board level or above. During COVID-19, our Head Trainer PP Senator Duncan Tai and his team transformed the program to a hybrid mode training with online and offline elements.

"JCI Next" was successfully held on May 23th-24th & Jun 6th-7th with a total of 39 registrations from different chapters. The participants were divided into groups of 7. A graduation ceremony was held at JC Office on Jun 7th. After the training, we believe that our participants did unleash leadership potential through the enhancement in supervisory and project management skills, as well as building friendships among teammates.

Let's discover the new program – JCI Discover

JCI is launching the new JCI course programming starting from May 2020. All JCI courses now fall under the categories of Foundational, Leadership, Advanced and Free Courses.

JCI Discover is the first one to launch which is under the category of Foundational course. It combines the main aspects of JCI Achieve and JCI Impact. This new course is created to engage participants to understand why JCI exists as they focus on the core values and framework that drive the JCI Mission. It also explores the skills members can develop as leaders in the organization to create sustainable impact in a changing world. Hope we can see each other in JCI Discover very soon!

NATIONAL TRAINING AND DEVELOPMENT COMMISSION

National Training and Development Commission (NTDC) organized a Trainer Circle Gathering with mentors from Trainer Mentorship Program (TMP) 2020 on 3 July with NTDC progress reporting, sharing and dinner gathering. This gathering connected all the mentors, gave us opportunities to hear our mentors' valuable thoughts and sharing in the area of training development, as well as provided updates of the progress of each group of mentees in Trainer Mentorship Program.

Trainer Summit which was originally to be held on 18 July 2020 was postponed due to the outbreak of COVID-19. The summit serves as a platform to showcase our newborn JCIHK trainers' efforts through delivering their own training.

Although we have encountered a difficult situation, we are looking forward to the coming trainer summit which is rescheduled to Oct and it would definitely be a great time for our mentees to conduct their training to all our members. The 15 groups of mentees are ready to deliver their training sessions. Please come to support them.

To provide more opportunities for our TMP graduates, local chapters are welcomed to contact NTDC for recruitment of trainers or assistant trainers.

55TH JCI HONG KONG NATIONAL CONVENTION

Side Programmes Updates!

Side Programmes are always one of the most eye-catching activities for everyone especially for the 1st timer and prospective members. Over 300 members responded to our previous questionnaire and there are two topics that attract most interest from members who wish to learn and equip themselves during this pandemic situation.

The first topic is "What is Virtual Bank? How does Virtual Bank work?"

Guest Speaker : Mr. Roy Lee, Director of Market Risk and Liquidity Risk at Fusion Bank.

Mr. Lee will share with us the progress of the current eight virtual banks in Hong Kong; how Virtual banks change our lives under the current pandemic situation. He will also explain the difference between traditional bank Vs virtual bank and how to open an account with virtual bank.

The second topic is "Mindfulness & Singing Bowl Meditation".

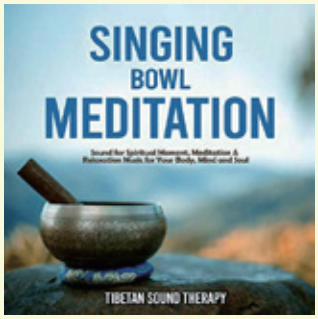

We have invited experienced trainers to run a 30 to 45 mins stretching and "Singing Bowl" session for us. The vibrations of a singing bowl can produce positive changes to the body by reducing stress, "harmonizing" our cells, and "balancing the body's energy system. Our trainers will also teach us how to perform simple stretching and workout so one can do that at home during the pandemic situation.

Great News!

During the National Conference, we will give away a pair of AirPods to ONE lucky winner from the participants who have completed the questionnaire and attended one of the side programmes.

We thank you for your continued support, and look forward to meeting you all at the Convention for a night of everlasting memories! Stay-tuned!

NATIONAL MEMBERSHIP AFFAIRS

2nd Hello JC

2nd Hello JC co-hosted by JCI Hong Kong Jayceettes and JCI Ocean was successfully held on 4 - 5 July, 2020. We had a total of 35 participants from different LOMs attending the training. Around 100 members attended the graduation ceremony.

It provides a platform for newly joined JC members to know more about JCI Values, Vision and Mission, JC Path, ACF, JC Opportunities, Protocol, Parliamentary Procedure and Team Building. Hope all the participants enjoy this training and build friendship with their teammates.

National Membership Team understands the challenges faced by Local Chapters with regard to membership extension under COVID-19 pandemic.

Our team has recorded 6 videos and they were sent to your Boards to provide you some tips on membership extension. They include,

Module 1 : 會員擴展的目標、目的和重要性

Module 2 : 會員擴展的心態和準備

Module 3 : 會員擴展中邀約的技巧

Module 4 : 會員擴展中可用的工具

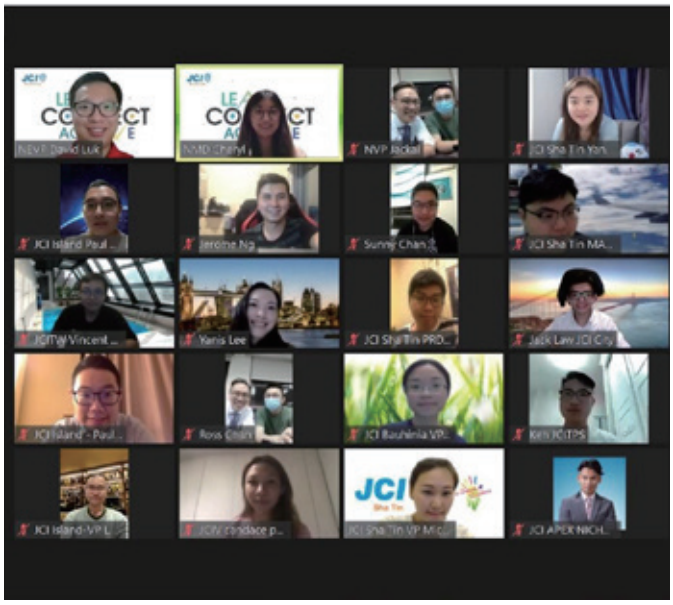

Module 5 : 會員擴展的重中之重 - Closing

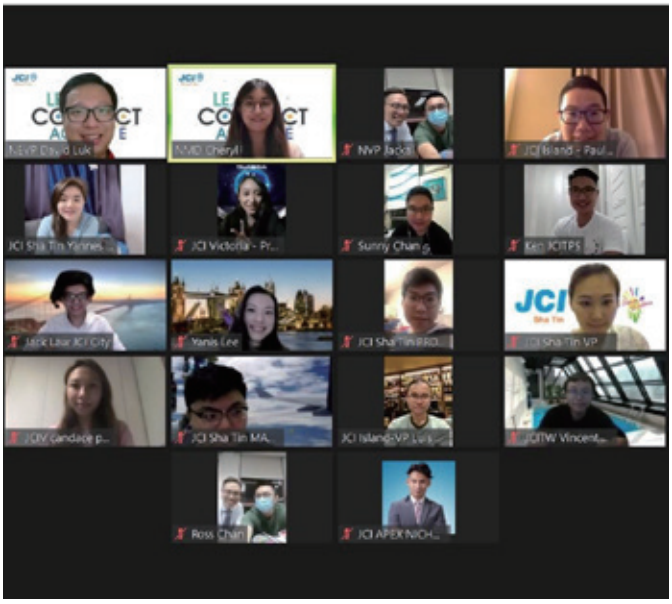

Module 6 : 會員擴展的總結及期望管理

We arranged a zoom meeting to discuss any issues the chapters may have after watching the videos, or to share with the membership team any concern on membership extension areas.

Networker recap

JCI Hong Kong would like to thank all the members and chapters for their contribution to membership recruitment and membership retention amid the COVID-19 pandemic.

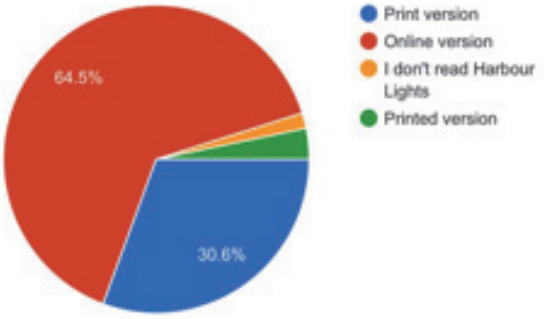

Now, let's look at the results.

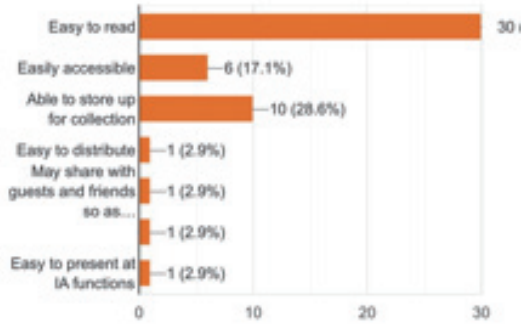

HARBOUR LIGHTS QUESTIONNAIRES RESULTS

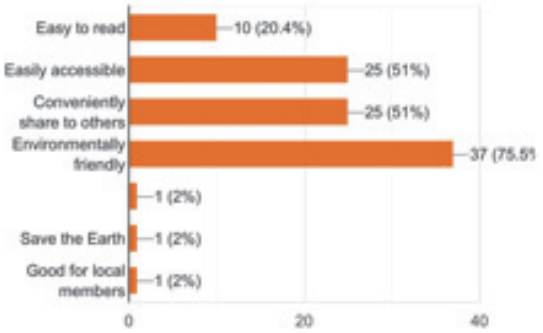

To draw up a direction for the development of Harbour Lights in coming future, the National Publication Team launched questionnaires to senior JC members in early 2020 and collected beneficial feedbacks from 63 nos. of respondents.

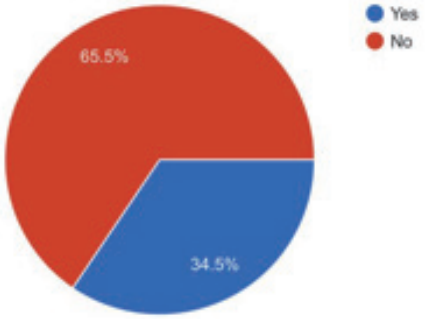

In the questionnaires, near 65% of respondents preferred reading the Harbour Lights online version while more than 30% of them enjoyed the Harbour Lights in printed version. Less than 5% of them had not read the Harbour Lights in the past.

In addition, it was interesting to learn that "easy-to-read" was the main reason (85%) for the respondents to prefer the Harbour Lights in printed version rather than online version. In addition, the "ability to store up for collection" (28.6%) and "easy accessibility" (17.1%) were also other reasons for the selection of the Harbour Lights in printed version.

Over 75% of the respondents favored the Harbour Lights in online version because of the "green concerns". Furthermore, the "ability to store up for collection or share" (51%), "easy access" (51%) and "easy-to-read" (20.4%) were also additional incentives for those who chose the online version.

According to the questionnaire results, over two-third (65%) of the respondents accessed the online version of the Harbour Lights in 2019 while near one-third (35%) had not read it.

For the development direction of the Harbour Lights in the online version in coming future, the respondents had given us lots of innovative ideas. Some members suggested that there should be more motion images & videos and less text in the Harbour Lights since it is tiresome to read them in the screen. Moreover, others proposed that page-flipping effect should be added at the Harbour Lights as virtual paper pages that appear to be turned manually through computer animation.

For other suggestions, it was recommended to include more information related to SDGs in the Harbour Lights. Moreover, the content should be multi-functional for information and entertainment. Besides, social media platform, such as Facebook and Instagram should be used for distributing the contents.

"People First, Projects Second - JCI Island always invests in people."

Cultivate the Learning Culture for Islanders

Men's skin care is a must-do habit for keeping a refreshed outlook, which is essential to our career and social life. In this connection, JCI Island has organised an online skin care seminar for our members. Mr. Richard Lau has been invited as the speaker to explain the fundamental principles of men's skin care, provide professional advice on the best skin care routines for men, and make practical recommendations on skin care habits.

Digital marketing has become increasingly important for attracting participants' attention and delivering key messages to stakeholders. As such, JCI Island has newly formed Island Promotion Crew and launched a series of online promotion training sessions for nurturing the crew members. The training topics include poster design, photo editing, video editing and website development, etc. More training sessions would be offered for satisfying the diverse training needs of Islanders and promoting the learning culture in JCI Island.

Develop the Growth Mindset for Islanders

JCI Island has been embracing the value of growth mindset. We believe that learning is about commitment, dedication and effort but not intelligence or talent. This year JCI Island aims at connecting our members and creating sustainable impact during the pandemic through two new initiatives namely JC Sports Begin @ Home Challenge 2020 and O! Love SEN Phone 2020. Two project teams have been spending their greatest effort to overcome the challenges brought by the pandemic and devise practical solutions to make great things happen. In the coming months, JCI Island is devoted to organising more meaningful activities to develop our members' growth mindsets throughout the JCI journey. We are confident that they can better understand the culture of JCI Island and explore for more learning opportunities to fit their needs in the future.

六月月會暨青商簡介會

機會係要自己創造！裝備自己，追尋夢想！

在新冠肺炎對各行業的影響下，我們如何克服挑戰並把握新機會?

元朗青年商會秉承青年商會精神，提供發展機會以促進青年人創造積極正面的改變，因此在六月疫情緩和時，本會就把握機會舉辦了一場青商簡介會將青年商會這個積極正面互助的環境帶給他們。

年輕人好有衝勁，往往就苦於缺少平台及前輩的指引。元朗青年商會正正能夠提供這個合作的氛圍。

當天好榮幸邀請到國際青年商會香港總會執行副會長余修賢參議員及2018年會長譚燕媚為我們分享他在青年商會當中的成長，如何蛻變成今日一個如此有擔當，能獨當一面的人物。

正正就是在青年商會透過活動學習到如何與人合作，亦好有幸有不同的前輩在旁扶持，令他們在事業上的發展有更多合作的空間。

在場參與者聽過余修賢參議員的分享及參與了他用於引導新朋友的小遊戲後，都更認清自己的目標，決定加入元朗青年商會。

一個人的力量好有限，青商簡介會就是讓一群有心的年輕人走在一起，互相合作和交流，令社會變得更美好。

JCI East Kowloon will connect different sectors of the communities to make a greater impact.

Connection is important because building a good relationship is the way to gain community support and their involvement.

JCI East Kowloon has launched a mentorship program, "CEO 101", in partnership with professionals in the business fields to connect with university students who are seeking opportunities in their career path and want to start a business in the future.

"We Love, We Care, We Share". A campaign has been launched since the beginning of the year to provide necessities for the elderly to combat the COVID-19. In July, we gathered supplies as fast as we can and connected with Kwun Tong Christian Family Service Center to provide timely support.

"Fun to Cook, Serve to Eat" is our flagship community project this year, aiming to encourage parents to spend more quality time with their children. Our program lets participants learn food safety and at the same time explore the culinary potential of their children.

Beside connecting with the community, we have worked with JCI Island and JCI Queensway to launch a training course, "Hacking JCI". The training was about Design Thinking and it let us come together and try reframing some JCI programs in a more human-centric way that focuses on what is most important for our members.

Connection is effective when we have a sense of ownership. When the COVID-19 was not that severe this year, we had a gathering with the senior members. We shared our experience and have built a stronger bonding with members.

All You Can Eat. Eat All, Can You?

"Eat All, Can You?" is an initiative to raise awareness of Food Wastage in Hong Kong.

Every day, we are dumping over 3000 Tonnes of food waste in Hong Kong, that is over ONE MILLION TONNES in a year. This project aims to remind and suggest ways to reduce food waste through different campaigns.

Throughout the year, the Team has produced a survey alongside with FoodAngel to analyse the root cause of food wastage, and spread the message across the globe through "Food Challenge" on Facebook and Instagram to require participants to clean their plates, the message successfully reached over 20 countries around the world and was proven to be a good reminder about how much excessive food we usually order or cook subconsciously.

Let's enjoy food, for the Earth's good.

As a young citizen, how can we change the world during difficult times?

COVID-19 has indubitably impacted our everyday life. Not only do we have to wear a mask everyday, but also it is obligatory for us to maintain physical distance with people; not to mention having to dine at home , and not be able to travel. It appears to us the disease brings us no good at all, but have you ever thought - the virus has fostered stronger bonding with people from other countries; that, it is easier for us to create impact not just at local level, but also to the other part of the world?

Thanks to COVID-19, we relied more on online communication tools, rendering us effortless to connect people from every part of the world. JCI Queensway has become adept at it when keeping in touch with its sister chapter. We have received the packages of delicate gifts and snacks from JCI Okinawa, and we are going to help spread their love to the children in need from Japan to Hong Kong, through the charity ***- The society of Rehabilitation and Crime Prevention Hong Kong***, along with the mask donation collected locally. Through this collaboration, we hope to create positive impacts to society by caring to the needy.

Even when we are having a hard time, it is always important to keep reminding ourselves - Think positive. A seemingly hideous thing can turn out to bring us brightness and positive changes.

在今年的疫情之下，我們無法正常地去外遊，但晉峰青年商會抱着積極的精神，創造了一切的可能性，繼續為本會及社會服務。為了讓會友有擴闊國際視野的機會，國際事務組於五月及六月分別舉辦了相關活動。

於2020 年5 月28日晚上，舉辦了柬埔寨亞太大會簡介會暨五月份月會。由於有限聚令，我們首次租用了電競館進行網上直播，當日的網速流暢、背景奪目、效果理想。當晚分享嘉賓是柬埔寨駐香港親善大使陳昭昭小姐，她生動及有趣地介紹了柬埔寨的風土人情。雖然最終亞太大會未能成行，但一眾會友對柬埔寨都有了良好印象和對亞太大會有了初步認識。

2020 年6 月28 日的下午，國際事務組聯同友好會，馬來西亞檳城文華國際青年商會，再度於九龍電競館，首次跨地域線上聯合訪問世界傑青甄韋喬博士。這場跨國與跨越疫情障礙的線上訪談，吸引了將近2000名會員在線上一起交流與學習，及後更獲得多個媒體報導，反應熱烈，成效超卓。

透過兩次線上直播，兩位嘉賓以不約而同的青年勵志故事，激勵兩岸積極有為的青年人，再次引證疫情無礙我們青商正面改變的決心，亦再三展現青商的國際視野，任何時候都沒有疆域的限制。我們何時何地都可以「齊心晉，樂滿峰！」

小手愛地球 — 《童Fun同享》

城市女青年商會每年除了透過旗艦活動-「全港時尚專業女性選舉」及「小手愛地球」去喚醒小朋友對環保、愛護地球及提昇女性形象外，透過活動更能令會員有一個自我提昇的機會，而青年商會更是一個培訓青年人領導能力的組織，因為我們積極鼓勵會友參加各類型的活動，以助個人發展。

在5月，本會舉行了「如何運用珠寶提昇個人形象及創業分享會」，是次活動邀請了年輕鑽戒品牌Chellery Jewellery創辦人鄧敏芝 Cherry女士與本會會員分享如何運用珠寶提昇個人形象，以及她的創業心路歷程。一眾會員更可以親身欣賞到每粒鑽石的手工、切割、成色及清澈度。大家都十分雀躍，並與Cherry交流創業心得，獲益良多。

在6月，我們更希望會員能夠不斷提升及掌握出色的待人接物技巧，建立更廣的人際網絡。有見及此，因而舉辦了「多元培訓工作坊」，邀請到2015年全港時尚專業女性選舉得獎者及前十大傑出青年選舉籌委會主席梁嘉恩女士度身訂造課程內容，鼓勵及推動會員如何可以在待人接物方面更進一步、在策劃活動時應注意的種種細節，以及分享了與不同持分者溝通的心得。

The coronavirus disease 2019 (COVID-19) pandemic may be stressful for people. Public health actions such as social distancing may cause people to feel isolated and lonely and may increase stress and anxiety.

Therefore, JCI Lantau has launched a Happiness Index Survey to compare the opinions of Hong Kong and Malaysia residents, 18 years and older, towards happiness and its relationship with the COVID-19 pandemic, and to understand the factors that may affect the happiness index and ways to improve our quality of life.

In August, we have also invited Dr. Low, President of the Hong Kong Association of Psychology to share with members about "A mask for your heart" (心靈口罩) and to give advice on how to look after our mental health during the COVID-19 pandemic.

Healthily coping with stress will make you, the people you care about, and our community stronger.

Interview with JCI Peninsula President Elect Kenny Lok

Visiting South America

Kenny has been loving the South American culture since he was a secondary school student. He was enthusiastic to the ancient civilisations from Latin America, such as Mayan civilisation.

Kenny has ever thought that would be amazing if he could visit the South America before he was reaching 30.

Of course, being a secondary school student, that was just an unconscious thought. Until Kenny entered into his working life, he had worked for several years. Once, he realised that if he didn't still go to South America, maybe he had no chance to go anymore. Especially, he preferred an attitude of playing hard when he was travelling.

As well known, going to South America from Hong Kong requires around twenty hours airtime. It is quite not reasonable to travel a few South American countries in a week and then return to Hong Kong.

At that time, Kenny thought he has a good economic condition. Also, he was not afraid of resigning his job, as he was confident that he would find another job after he returned to Hong Kong. So that it was worth to try for him to visit the South America.

As a consequence, he achieved his own South American trip in 2016.

Starting from mid-South America, the first stop of Kenny's trip was Mexico. Then, he consequently went to Cuba, Colombia, Ecuador, Peru, Bolivia, Chile, Brazil, Uruguay, and finally reached Argentina as destination.

From the point of view of Kenny, if the distance of the borders is short, the people from the two countries have a similar culture. But when you go to every country which you feel that their culture is similar, you find that the first stop and the last stop have a huge difference.

Expectations before travelling to South America

Travelling to South America is not dangerous as Kenny imagined. For example, Colombia is seen a crime city. But he found that people from Colombia were very friendly. All South American people were very enthusiastic to visitors during his trip.

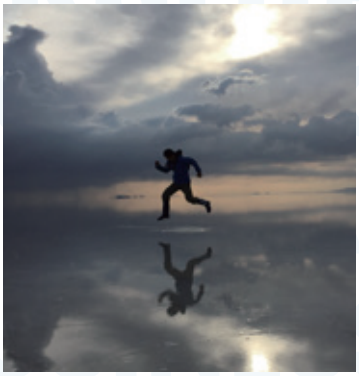

One of the remarkable memories of visiting South America

Salar de Uyuni from Bolivia - the largest mirror on Earth is one of the remarkable memories for Kenny.

Going to Salar de Uyuni from Bolivia was quite difficult as the traffics in Bolivia were not good. Kenny went there by entering Bolivia from Peru. Then, he needed to take a local bus from the largest Bolivian city La Paz which took him around 10 hours.

Kenny got on the local bus at night and arrived town of Salar de Uyuni at dawn. Then, he had to join some trips for sunsets and sunrises for seeking the largest mirror on Earth.

For Kenny, the whole process of travelling to Salar de Uyuni is a remarkable memory.

Inspiration for Kenny's JC life

Our JCs are mostly facing some difficulties in the process of achieving their projects. For people from other counties, maybe these difficulties are just so common. This challenging but rewarding journey gave Kenny courage to take up the role as a president of his mother chapter.

Sometimes the things which our JCs think may be complicated. But we haven't still yet faced many things outside indeed.

Leading members to connect and achieve

If Kenny leads every member to expand their strengths, he has to firstly know where their strengths are from, such as from themselves or from the team.

Knowing the sources of strengths of each member can be easier for Kenny to assign the work to members in order to make members lead this work. Then, the members connect their strengths with the works. Finally, the member achieves.

Interview with JCI Hong Kong Members

Interview with JCI Lion Rock Member VIP Li

1. Why did you join the JCI Global Partnership Summit?

I joined the JCI Global Partnership Summit (GPS) in 2018 because it was a rare opportunity for me to see how the United Nations (UN) and JCI, the two well-known international organizations, work with each other to make positive impacts on the world. Moreover, I am interested in traveling to the countries in the Americas like the USA and Canada.

2. What was included in the summit?

I attended numerous formal meetings and seminars hosted by JCI and the UN, some hot topics or social issues were discussed and the main theme in the GPS 2018 was gender equality (SDG 5). I got the chance to communicate with so many experienced leaders of JCI and talked about the hot topics and the 17 Global Goals (SDGs). One of the most unforgettable experiences was visiting the headquarters of the UN which was amazing with strict security regulations and wonderful facilities.

3. What did you achieve from it?

I gained so much knowledge about the UN and JCI. It was wonderful to have meetings and seminars with 2017 JCI President Dawn Hetzel, and I was so excited that I could even talk to her and express my opinions. From the conversation with the seasoned JC members, I sensed that I still had so much room for improvement which motivated me to be a better person. Moreover, I made a lot of friends there and built up my global social network. Besides, I could practice my English listening and speaking skills during the events.

4. How could the participants put the discussion into action in home communities?

JC members from different countries had shared about their own experiences of taking actions of SDGs and organizing different projects. We learned different approaches to run projects under different cultures and conditions. With proper adjustments and modifications, we could apply those ideas and skills to our local projects and societies. Many JC members had great promotion and marketing skills which are essential to creating an impact on the world. For example, a fundraising campaign held by JCI Japan had successfully raised funds during the summit by asking JC members there for generous donations.

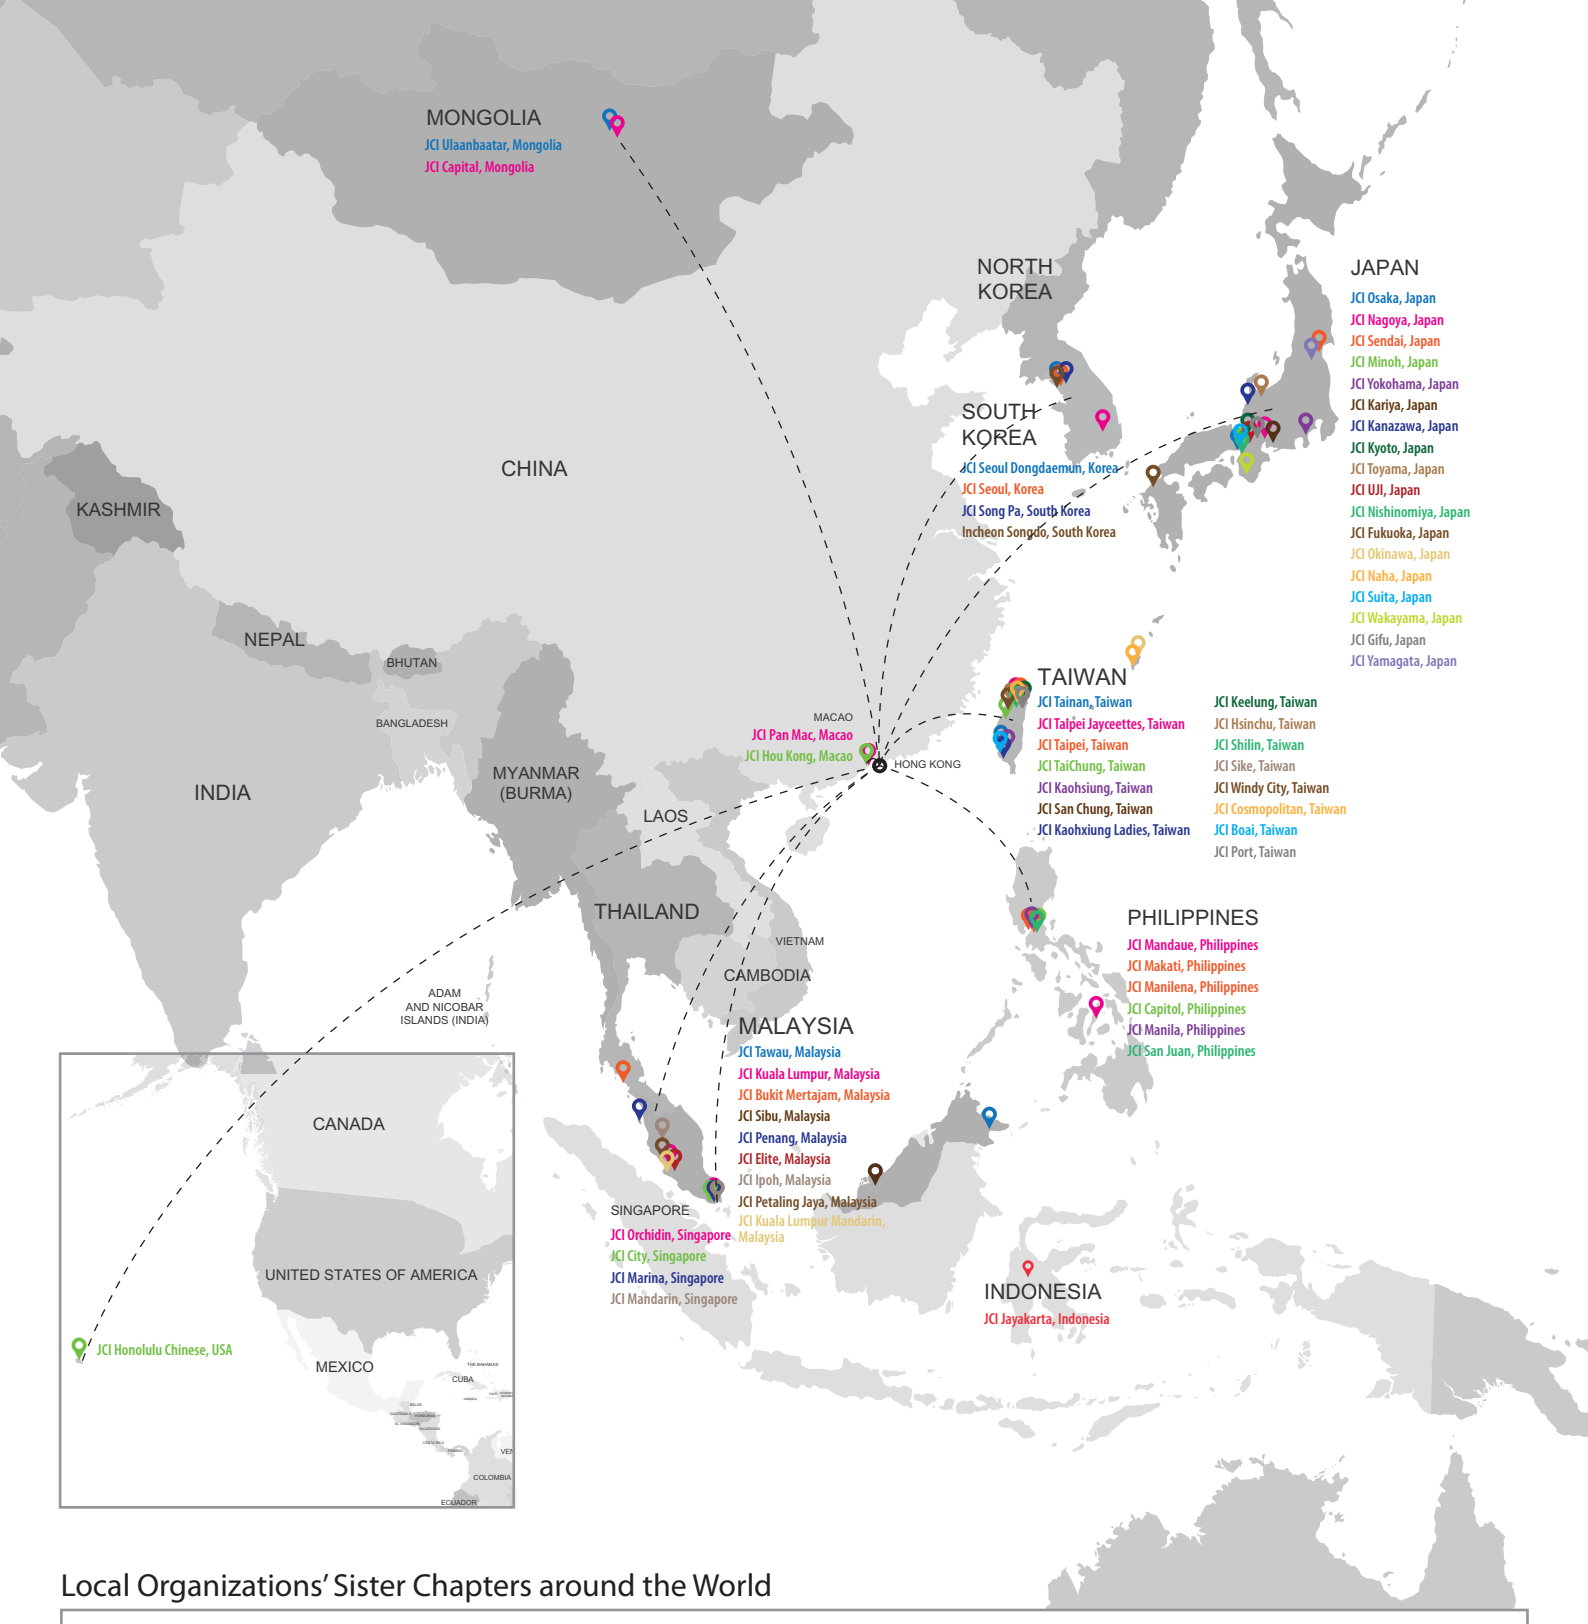

5. During the summit, the participants joined together to explore how young people can work with partners in government, business and civil society to achieve the SDGs, working with which part do you think is the most important or the most difficult?

Dealing with the government is quite difficult as they have so many departments and the mechanism for decision making is too complicated. However, we can flexibly collaborate with other stakeholders such as the NGOs and corporations to create a larger impact on the community.

6. Do you recommend others to join the summit?

I strongly recommend all JC members attend international events such as the JCI Global Partnership Summit, the World Congress and all the area conferences. We can broaden our horizons and build up our international vision by communicating and making friends with people from all over the world. Unlike personal traveling, with the common language (JC culture), we can easily have in-depth connections with JC members and guests from different backgrounds. As a young entrepreneur, it's so great that I can build my global business network and create business opportunities with people from all around the world.
