PREAMBLE

The 8th Junior Chamber International Academy hosted by Japan Junior Chamber, Inc., will be held in Kitakami City and Yokohama City, Japan, from Saturday, July 15, to Sunday, July 23, 1995. The JCI Academy has gained recognition in the past seven years as an important leadership development and training opportunity for past, present and future Junior Chamber members with more than 350 graduates worldwide.

The Academy has featured a selection of high-caliber seminar leaders and world-renowned speakers who have provided participants with insight into the most up-to-date leadership theories and hypotheses as well as management techniques and skills.

Past Academy graduates have acquired a diverse body of knowledge covering all aspects of life by extending their opportunities to network, learn, and grow with other individuals; earning acknowledgment from their peers, colleagues and friends of capabilities and high levels of professionalism; and achieving leadership roles within the organization, their communities and at government levels.

MISSION AND THEME

In consonance with JCI's MET, *"The Age of Global Citizenship,"* the 8th JCI Academy's theme, ***"Global Networkers,"*** is designed to encourage greater interest among Junior Chamber leaders in the study of the environmental problems that threaten to put at risk the future of our planet and its people.

Over the years the Academy has developed into a forum in which Junior Chamber members experience new and innovative leadership training skills and are introduced to different lifestyles and new perspectives. The opportunity to socialize and network with other members and young leaders worldwide enhances better understanding and the cooperation that will strengthen the future of humanity.
