Globalization, Through Young Leaders

LI JCI WORLD CONGRESS

PUSAN 1996

PUSAN JUNIOR CHAMBER

The Creed Junior Chamber International

We Believe:

That faith in God gives meaning and purpose to human life;

That the brotherhood of man transcends the sovereignty of nations;

That economic justice can best be won by free men through free enterprise;

That government should be of laws rather than of men;

That earth's great treásure lies in human personality;

and That service to humanity is the best work of life.

KIM YOUNG SAM

President of the
Republic of Korea

Welcoming Remarks by President Kim Young Sam of the Republic of Korea at The 51st JCI World Congress

I am deeply gratified that the 51st JCI World Congress is being held in Pusan, the largest port city in the Republic of Korea.

JC movements have made great contributions to the development of local communities, international exchanges of personnel and cooperation and peace in the world over the past 80 years, I would like, first of all, to express my respect to the 400,000 JC members from 114 countries for such efforts as these.

At the same time, on behalf of the Republic of Korea Government and the people, I wholeheartedly welcome all of you to this congress.

Young leaders of the world,

Standing on the threshold of the 21st century, the world is facing radical changes unprecedented in history. The surging tides of globalization and the information age have transformed the world into a global village. Freedom, peace and prosperity have become the common values for all peoples.

Many challenges, however, are awaiting us.

Although the Cold War has ended, conflict and discord are still going on in various places around the world. Humankind is suffering greatly from war and starvation, crimes, drugs, diseases and environmental degradation.

If humankind is to overcome such difficulties and enjoy peace and prosperity, we have to overcome racial and religious as well as regional and cultural differences and achieve universal harmony and cooperation.

In this respect, it is deeply significant for the future that young leaders from all countries around the world are gathered here to meet under the theme, "Globalization, Through Young Leaders."

I sincerely hope that this Congress will further help realize the ideals of JC and become an opportunity for young people of the world to unite as one in reconciliation and friendship.

Leaders of the next generation,

The Republic of Korea is pushing a daring policy of reform and openness through globalization based on economic development and democratization. Moreover, as a non-permanent member of the United Nations Security Council, the Republic is contributing to world peace and, as a member of the Organization for Economic Cooper-ation and Development(OECD), it will exert its best efforts for the development of the world economy, Furthermore, the Republic will carry out its role as a responsible member of the international community.

We should make the 21st century into a freer and more peaceful and affluent age. Thus, we have to realize the long-held dreams of humankind.

The future rests on the shoulders of you, the young leaders.

With conviction, courage, sacrifice and a spirit of service, let us make efforts altogether to realize a world community, where all peoples can live together.

Hoping that this Congress will be fruitful and rewarding, I pray for the development of the JC and the health and happiness of all its members.

Thank you.

WELCOME ADDRESS

Honorable members of JCI!
It is indeed an honor for me to be here at the 51st JCI World Congress and on behalf of the 4 million people of Pusan, congratulations. I would like to also welcome you all to Pusan from around the world.

Located on the southeastern tip of the Korean Peninsula, Pusan is the center of maritime transportation and the largest port city in Korea. Throughout history, Pusan has served as an international gateway linking the ocean and the Eurasian continent. Due to these geographical attributes, the people of Pusan has always been warm and friendly to visitors, and a leader in the democratization of Korea, and we are very proud of our history and culture.

As the city of Pusan strives to make a Super Marine Technopolis in the 21st century, we are also busy preparing for international events such as the East Asian Games to be held next year, and the Asian Games and World Cup Games in 2002. We have also done our best to make this Pusan JCI World Congress a success. I am aware of the many community services JCI has been-undertaking under the motto of "Service to humanity is the best work of life" for the development of the community, and I hope that your Congress here in Pusan would be a very valuable experience in achieving your ideals and goals.

I hope your stay in our beautiful and historical city is a pleasant and memorable one that can be cherished for many years to come.

Thank you.

JUNG SOO MOON
Mayor
Pusan Metropolitan City

WELCOME ADDRESS

JONG YEE DO
President
Pusan City Council

Welcome to all JCI members, chief delegates of each country!
It is a pleasure to hold the 51st JCI Congress in Pusan city, where is the starting point to run the Euro-Asia railroad.

The numerous number of four hundred thousand JCI members in 114 countries in the world have provided a great contribution to the local social development as well as to a closer international relationship. I wish to offer my heartist respect on the JCI's great contribution in the world, I, hereby welcome you, the participants of the 51st JCI Congress in Pusan as representatives of your countries.

The new world will arrive before the 21st century. Now we establish the new world, a better world, that humanity has long dreamed of. Through freedom and democracy, peace and prosperity, humans create their own better future.

I am very glad to welcome you and trust that you are important persons who will do your best to lead the world towards peace. In the coming 21st century, your positive participation is needed and a close relationship and continued cooperation among the young leaders, is essential to create the brilliant century in 2000.

I deeply wish that the 51st JCI Congress in Pusan will be an important first step to establish the next world.

Hoping you that your stay in Pusan will give a beautiful memory for your mind and your soul forever.
Thank you.

WELCOME ADDRESS

First of all, I together with the business community of this region congratulate on your fifty first JCI World Congress in Pusan. I also welcome 15,000 participants visiting Pusan from all over the world.

Pusan, the host city of this Congress is located at the southeastern tip of Korea, and is an active international port city with a population of 4 million working together as an economic driven force for Korea. It also has unlimited potential for growth as an international trade city as well as a commodity distribution center in the Asia-Pacific era in the 21st century.

As you are well aware, JCI was first set up as a national organization in 1915 in the U.S.A. JCI has contributed to the growth and peace of the world by offering various opportunities to build leadership, responsibility and fellowship to young people around the world. JCI's service attitude especially has been a valuable example for mankind.

I wish you have a successful congress furthering the progress of "Development and peace of the global community." I also request your active cooperation in familiarizing Pusan to the world.

With the deepest respect for your idea of "Contribution to the development and peace of the global community" I wish you a pleasant and meaningful stay in Pusan.

BYUNG JOONG KANG
President
The Pusan Chamber of Commerce & Industry

MESSAGE OF GREETINGS

THOMAS J. CLEAR, III

1996 JCI WORLD President

It is a tremendous honor and pleasure for me, as your 51st World President of JCI, to welcome you to the magnificent port city of Pusan, Korea, as we celebrate the 51st World Congress theme of'Globalization, Through Young Leaders "This theme should inspire all of us to work in the International Area of Opportunity and remind us that, as members of Junior Chamber International, we are a force in the world to be reckoned with. Our mony projects oaround the world bing fool, shelter, heath care, and comfort to millions need.

I would like to thank the Pusan Congress Organizing Committee and all those who volunteered from the great city of Pusan and from Korea Junior Chamber, Inc.,for your loyalty, friendship and teamwork.

I would also like to thank my hardworking team of the JCI Board, National Officers, and my dynamic chapter Presidents who helped make my dream of serving in the highest office of Junior Chamber a reality. This has been a year of great achievement because my officers and members have shown me commitment, support and friendship.

As you know, I made our Chapter Presidents a priority this past year. They are the very lynchpin upon which Junior Chamber depends. Through hard work and teamwork, our Chapter Presidents give direction to our officers and our National Organiations. With imagination, time and support they give direction to our hundreds of thousands of membe r sand encourage them to "stay the course."

You who are privileged to attend this World Congress are truly fortunate. Our Congress Organizing Committee has worked for years to ensure the success of the Congress, as have our officers, and many members, sponsors and others. Through attendance at this Congress, you have been given a wonderful opportunity. I urge you to fully experience all that this 51st JCI World Congress has to offer. Our Congerss Organizing Committee, Officers and sponsors, have all worked hard to make this dream a reality. Now it is up to you to take advantage of many excellent programs, international parties, ceremonies and business seminars to be offered.

We are not born members of Junior Chamber. Some of us join very young, some of us later in life. Many times members have told me that they were sorry they did not hear about or, get involved in, Junior Chamber, sooner. We should remember that we are privileged to be a part of Junior Chamber International Share the privilege and opportunities of Junior Chamber with your fellow members and non-members alike. Share in the teamwork and spirit of friendship that have made Junior Chamber International a great organization for over half a century.

Make use of JCI's Five Areas of Opportunity. Continue to "Build Rainbow Bridges!"for yourself, your chapter, your nation, your world and for JCI!

MESSAGE OF GREETINGS

May we be privileged to welcome you to Korea and to our beautiful port city of Pusan.

On behalf of Korea Junior Chamber, it is my great honor to invite all of you to one of our most developed city brimmed with beautiful scenery, vibrant life, energy and commerce.

As the hub city of Korea, Pusan leads the 21st century in international exchange not only on the north and southeast Asia but over to the Pacific Ocean, Pusan will definitely give you a momentum on why you have to attend.

Pusan and its environs contain towns proud of their rich history, culture, and tradition. These towns will provide you with chances to understand the Korea of yesterday and today.

We wish you to feel at home and take pleasant memories back to your country by attending many functions, events and national parties. We are sure this World Congress held in Korea foruteen years after last Seoul Congress in 1982 will be a unique and most successful JCI World Congress.

Finally, we've come together here and still it remains only our own time. Let ourselves be absorbed in it for 6 days! Let it be known that we are here to offer our boundless friendship and share the proud feeling of being members for our beloved JC organization.

It is once again a pleasure to greet you and we're glad you could join us.

SUNG TAE HONG
National President
Korea Junior Chamber, Inc.

MESSAGE OF GREETINGS

I would like to welcome all of you to the 51st JCI World Congress, a festival of friendship and harmony for the people of the world.

I would also like to thank everyone involved for assisting Pusan in hosting such an event here, where we have felt JCI creed being practiced. It is an honor for us to experience and be a part of an event that is organized to promote fellowship.

With the full cooperation of the JC members of Korea, the Pusan JC has done our best to make this event memorable for all participants, and we promise to continue our efforts until the very last day of the Congress.

This Congress is very meaningful for Pusan, as it is the largest international event since the opening of the port 100 years ago. Since Pusan, with its beautiful surroundings and many attractions, has emerged as a popular destination.

I hope your visit to this elegant city is a very, memorable one, and that this Congress with the motto "Globalization, Through Young Leaders" is very successful. I also wish that all of you will feel more pride and love being part of the JCI family through this function in Pusan.
Thank you.

MYOUNG SOO MOON
President
Pusan Junior Chamber

WELCOME ADDRESS

I would like to take this opportunity to welcome the members of all countries attending the 51st JCI Pusan World Congress. Pusan was selected to host this event at the 1993 Congress in Hong Kong, and since then we have been doing our best to prepare for the 51st Congress under the theme of "Globalization, Through Young Leaders"

JCI World Congress is a place for the members to feel that they are in a position to promote international friendship and community development, and it is a great pleasure for Pusan to host this event.
As an international port, Pusan has been the gateway to the Korean Peninsula and an important city for the Korean economy. Pusan is also a scenic location surrounded by mountains and seashores that draw tourists from all over the world.

Many great programs havs been prepared for this Congress. Seminars, training courses and International Nights will make for good memories. I hope that your week-long stay will be filled with memories as you take advantage of the various programs. I also hope that you will get a chance to experience the warmth of the people of Pusan.

Finally, I hope the 51st JCI World Congress is a successful one for all participants.
Thank you.

TAE EUN JANG
Congress Director

Junior Chamber International

For more than 50 years, young people have benefited from membership in Junior Chamber International. For 25 years prior to that, members in the United States(before the decision was made to "go global" by forming an inernational organization) gained from membership.

We cannot promise membership in Junior Chamber International will make you richer, smarter, or better looking. But millions of young people have found that membership in Junior Chamber has helped them grow personally and professionally. They also know that the friendship and business ties they make as members offer rewards to last a lifetime.

Junior Chamber is hard to define. It is local, yet international. Members join to better themselves and to better their communities.

Members may join initially to make local business contacts and may soon find themselves involved in an international or national project of major impact. Frequently a local chapter member may wish to play a larger role in the operation of the organization and run for a state, national or an international office.

Junior Chamber people discover a lot about themselves. They may find great satisfaction in organizing a blood drive, or helping to collect funds for disease research or disaster relief. In doing so, they are carrying on a legacy that began more than 40 years ago. JCI chapters and national organizations have assisted in times of great need and tragedy, including assistance to the victims of Hurricane Andrew and the flood victims of the Mississippi River in the United States and the many people who suffered when Kobe, Japan was struck by an earthquake.

Millions of young people, past and present, have joined Junior Chamber for fellowship, for business contacts, and to do good deeds in their community and around the world. They have discovered the benefits of membership and they believe that the world is a better place because of Junior Chamber.

Membership and the right to participate in programs is open to all young people, 18 to 40, through application with a local chapter affiliated to Junior Chamber.

Welcome to Pusan

ようこそ**釜山**へ

Welcome to Pusan

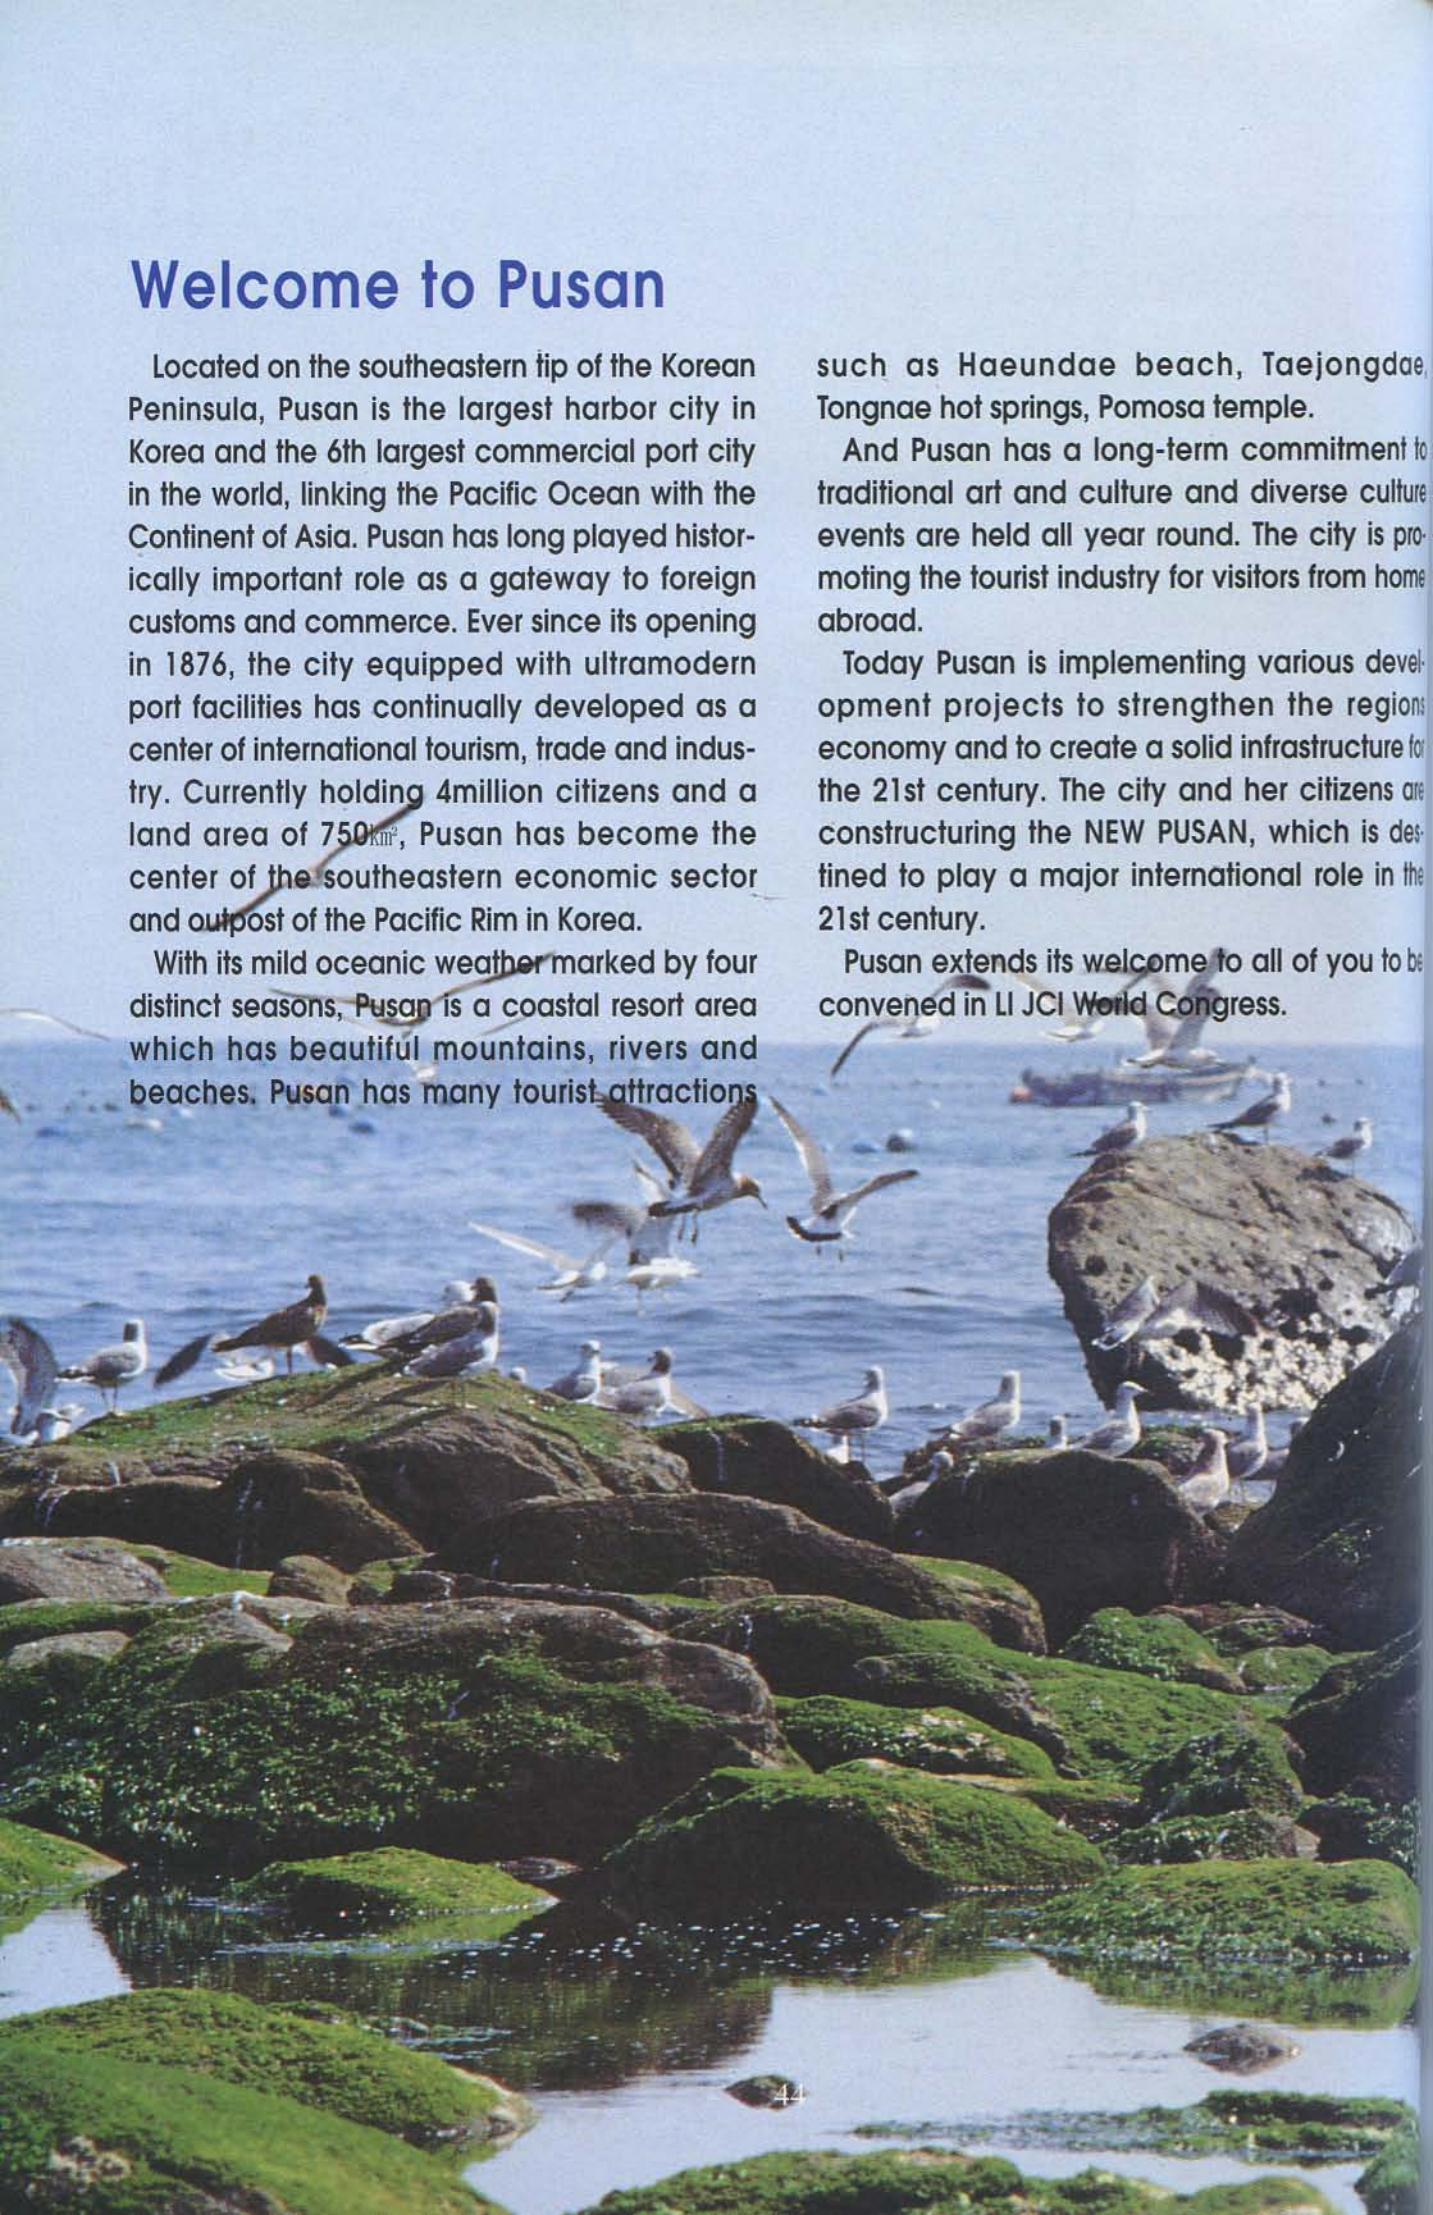

Located on the southeastern tip of the Korean Peninsula, Pusan is the largest harbor city in Korea and the 6th largest commercial port city in the world, linking the Pacific Ocean with the Continent of Asia. Pusan has long played historically important role as a gateway to foreign customs and commerce. Ever since its opening in 1876, the city equipped with ultramodern port facilities has continually developed as a center of international tourism, trade and industry. Currently holding 4million citizens and a land area of 750㎢, Pusan has become the center of the southeastern economic sector and outpost of the Pacific Rim in Korea.

With its mild oceanic weather marked by four distinct seasons, Pusan is a coastal resort area which has beautiful mountains, rivers and beaches. Pusan has many tourist attractions such as Haeundae beach, Taejongdae, Tongnae hot springs, Pomosa temple.

And Pusan has a long-term commitment to traditional art and culture and diverse culture events are held all year round. The city is promoting the tourist industry for visitors from home abroad.

Today Pusan is implementing various development projects to strengthen the regions economy and to create a solid infrastructure for the 21st century. The city and her citizens are constructuring the NEW PUSAN, which is destined to play a major international role in the 21st century.

Pusan extends its welcome to all of you to be convened in LI JCI World Congress.

Geography and Climate

Korea is 98,824 square Kilometers in area, and has population of 42million. Off the coast of the Korean Peninsula there are about 3,400 islands scattered about. One tenth of the islands are inhabited. The western part of the southern coast of Korea forms a jagged and complicated coast line.

Off of this coast there are about 2,000 islands cluttered together so that they present very wonderful appearance to be found nowhere else in the world.

Located in the temperate zone, it boasts of four distinct seasons. Spring and autumn are mild with low humidity that brings clean and clear skies. It is hot and humid in the summer, recording more than half of the yearly precipitaion as influenced by the seasonal monsoon.

Pusan, in particular, is endowed with Korea's typical oceanic climate with temperature rarely going below the freezing point even in the winter.

Traditionally, most Koreans love autumn best because it is the season of the harvest but more because it is the "season of clear high skies and horses gaining weight" as a saying goes- with its refreshing weather, neither too warm not too cool while the landscape turns brilliant shades of red and orange.

History and Economy

The Korean Peninsula has been inhabited by migrants from Manchuria since the Old Stone age. Ancient Chosun was established in the Bronze Age as the first tribal state of the ethnic Korean nation. It lasted until the Iron age, as the incipient form of the Korean national state of today. Ancient Chosun was grouped into three kingdoms, Shilla, Koguryo and Paekje. In 918A.D., Wangkon founded Koryo. Koryo was succeeded by the Chosun Dynasty in 1392 which lasted until 1910 when it was forcibly annexed by Japan. Following liberation from Japan in 1945, the government of the Republic of Korea was established in 1948.

Modern industry in Korea made its start following the establishment of the government of the Republic, first with manufacturing of daily necessities. Following the rehabilitation and reconstruction work in the wake of the Korean War, Korea achieved a remarkable economic growth in the 1960's-1970's, ushering in an age of internationalization. Having started from the manufacturing sector, Korea is now moving into the ranks of the advanced nations with its diversified industry and economy, while Pusan plays a role as a key port for Korea's exports. Pusan prospers from its geographical location in the industries of metal, machinery, textile, clothing, rubber and chemicals, centering around the Sasang Industrial Complex.

Along the coast there is an industrial zone of shipbuilding and plywood plants. Most products are shipped to North America, Europe and Asia, the main export items being clothing, footwear, steel and plywood.

Sightseeing in the City of Pusan

Haeundae Beach

As Traditional spot of rest and recuperation Haeundae Beach is a resort and tourism spot teeming with hot springs, swimming pools, sea-side angling sites and lanes for driving along the shoreline. The cobalt-blue sea has already been well-known to the whole world. All along the white sandy beach, with 400,000 square kilometers for bathers, against the backdrop of dark-green pine tree forests, a row of deluxe hotels line up wiht a coterie of smaller other hotels.

Each hotel operates casinos and nightclubs and the water in the baths mostly come from the hot springs in the area.

In addition to Haeundae, Pusan also has the beaches of Songdo, Songjung, Kwanganri and Tadaepo.

Taejongdae

Taejongdae is a small island of rocks, boulders and cliffs, located in the southeast of Yongdo and, covered with thick forest of pine trees. A four kilometer driveway loop along the seashore goes through the center of this hilly island. Further along the loop, one can view Oryukdo, the symbol of Pusan.

Pusan Yachting Center

The Pusan Yachting Center was built for the 1986 Asian Games and the 1988 Olympic Games, both held in Korea, is located near Suyong Bay by Haeundae Beach. Its marina facilities can accommodate 1,300 yachts, four racing courses, an athletes' village and a press center.

United Nations Memorial Cemetery

This is the final resting place, on the site of 144,146 square kilometers, for the remains of 2,274 soldiers from 16 nations that dispatched fighting troops and of the six nations which sent in medical support during the Korean War to help defending the freedom and peace of the Republic of Korea. Here lie the remains of 281 soldiers from Australia, 378 from Canada, 44 from France, 117 from Netherland, 36 from Korea, 1 from South Africa, 462 from Turkey, 884 from the United Kingdom, 11 from the United States, 4 unknown soldiers and 11 non-combatants.

Yongdusan Park

Yongdusan Park in the center of downtown Pusan is the place where one can best command the whole view of downtown Pusan and, especially, a night view of Pusan.

The statue of Korea's famous Admiral Yi Sun-shin, a 118-meter high viewing tower, an octagonal traditional pavilion, a floral clock and a fleet of 1,500 pigeons welcome visitors to the park.

Pomosa Temple

The Pomosa Temple of Mt. Kumjong is one of Korea's four great Buddhist temples. Built by great Ven. Uisang during the reign of King Munmu of Shilla(A.D. 678) and renovated during the reign of King Hungdok, the temple once boasted 36 attached buildings.

The Main Hall, designed as Cultural Treasure No. 434, was rebuilt in 1717 during the reign of King Sukjong. The hall exemplifies the excellence of Korean architecture of the middle part of the Chosun Dynasty.

Kwangbok-dong and Nampo-dong

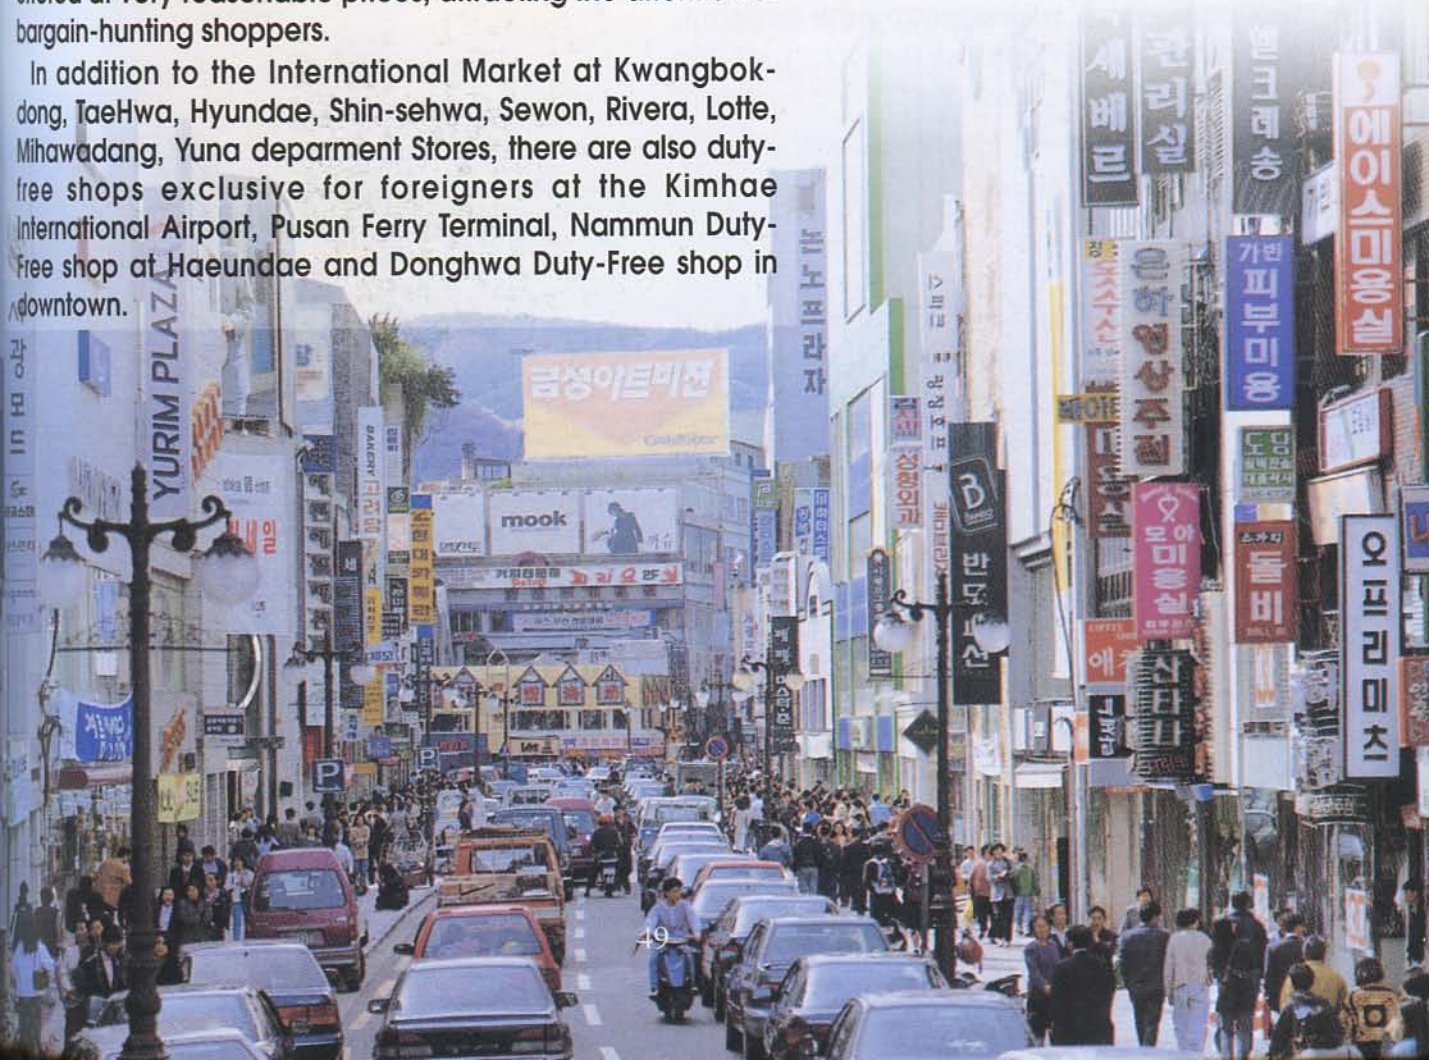

Kwangbok-dong and Nampo-dong, at the foot of Youngdusan Park, are the busiest areas of downtown Pusan. Teeming with shops, an ideal spot for shopping. Along the main street running through the area, the shopping centers and fancy goods shops offer a variety of merchandise along with the open stalls that line the street. At night, the street turns into an entertainment center, with 24-hour services offered by a number of restaurants, theaters, discotheques and music saloons.

Shopping

Korea is a paradise for shoppers. Most visitors to Korea have naturally an additional intent of shopping. Ranging from Korea's traditional handicraft works to the most updated luxury goods, a rich variety of good quality goods are offered at very reasonable prices, attracting the attention of bargain-hunting shoppers.

In addition to the International Market at Kwangbok-dong, TaeHwa, Hyundae, Shin-sehwa, Sewon, Rivera, Lotte, Mihawadang, Yuna deparment Stores, there are also duty-free shops exclusive for foreigners at the Kimhae International Airport, Pusan Ferry Terminal, Nammun Duty-Free shop at Haeundae and Donghwa Duty-Free shop in downtown.

Sightseeing in Korea

Seoul

As the heart and the largest metropolis of the Republic of Korea, Seoul which retains its prestige as one of the world cities has become a modern city in the space of only a few decades.

Centering around Mt. Namsan commanding a spectacular view of the Han River, the lifeline of the city, Seoul is the hub of the political, social, cultural and educational activities with its 10 million residents in a 6.3 million square meter area. Since Seoul was the capital of the Chosun Dynasty(1392-1910), for over five centuries, it abounds in traditional architecture and treasures that have been well preserved.

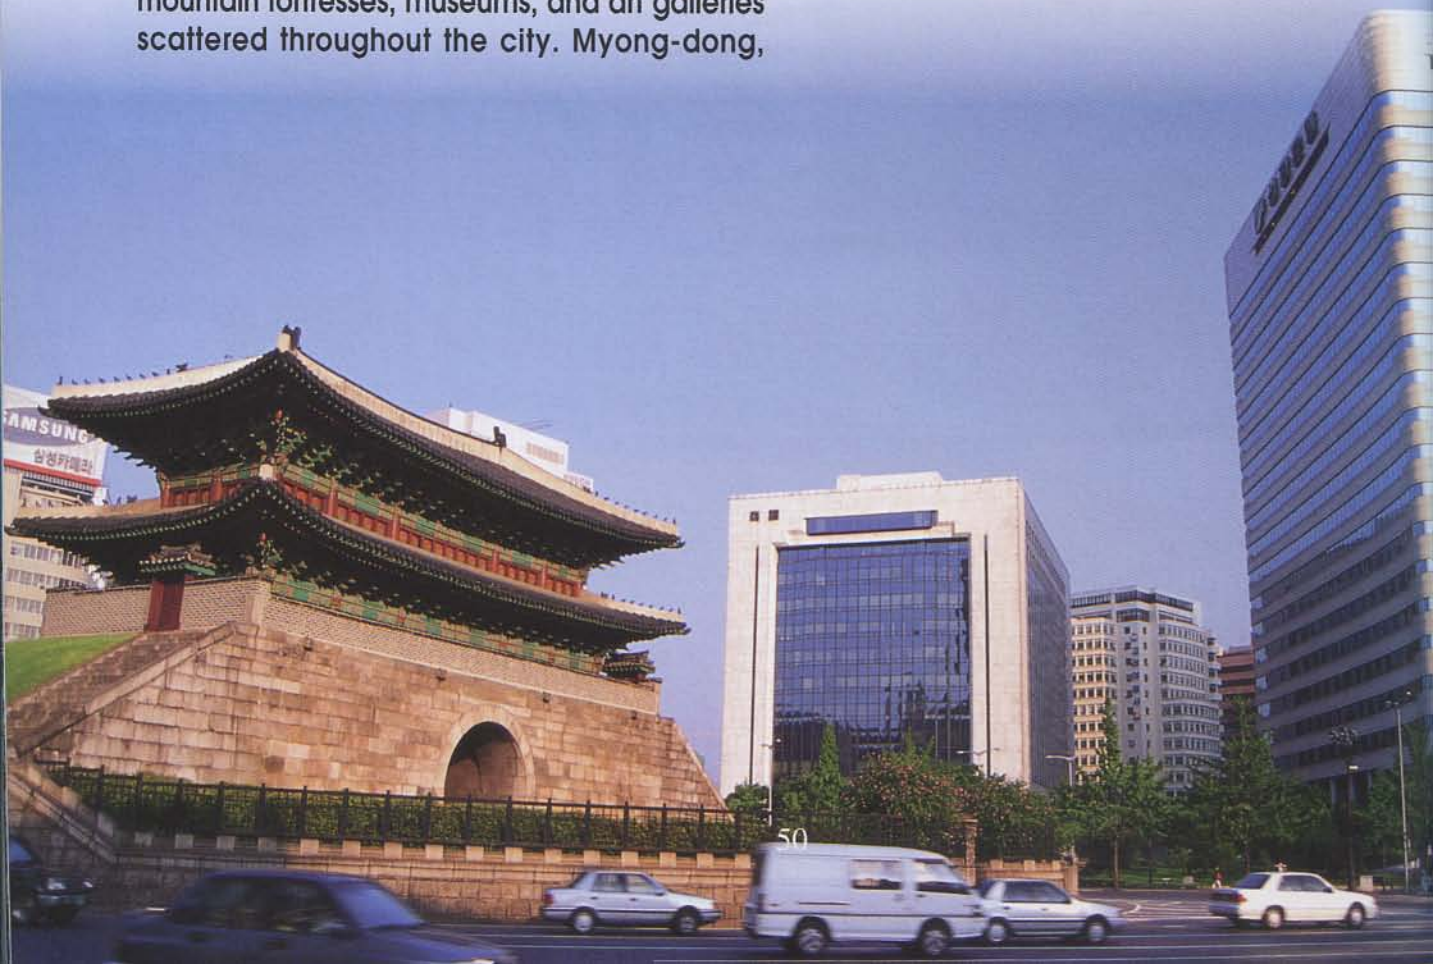

Beginning with the four royal palaces of Kyongbok, Changdok, Doksu and Changkyong, the South and East Gate welcome visitors to Seoul.

In addition, there are many tourism attractions such as the Seoul Tower on Mt. Namsan that commands a sweeping view of Seoul, beautiful parks, Buddhist temples and old mountain fortresses, museums, and art galleries scattered throughout the city. Myong-dong,

Itaewon and the traditional South Gate and East Gate markets offer a great number of goods for the tourist.

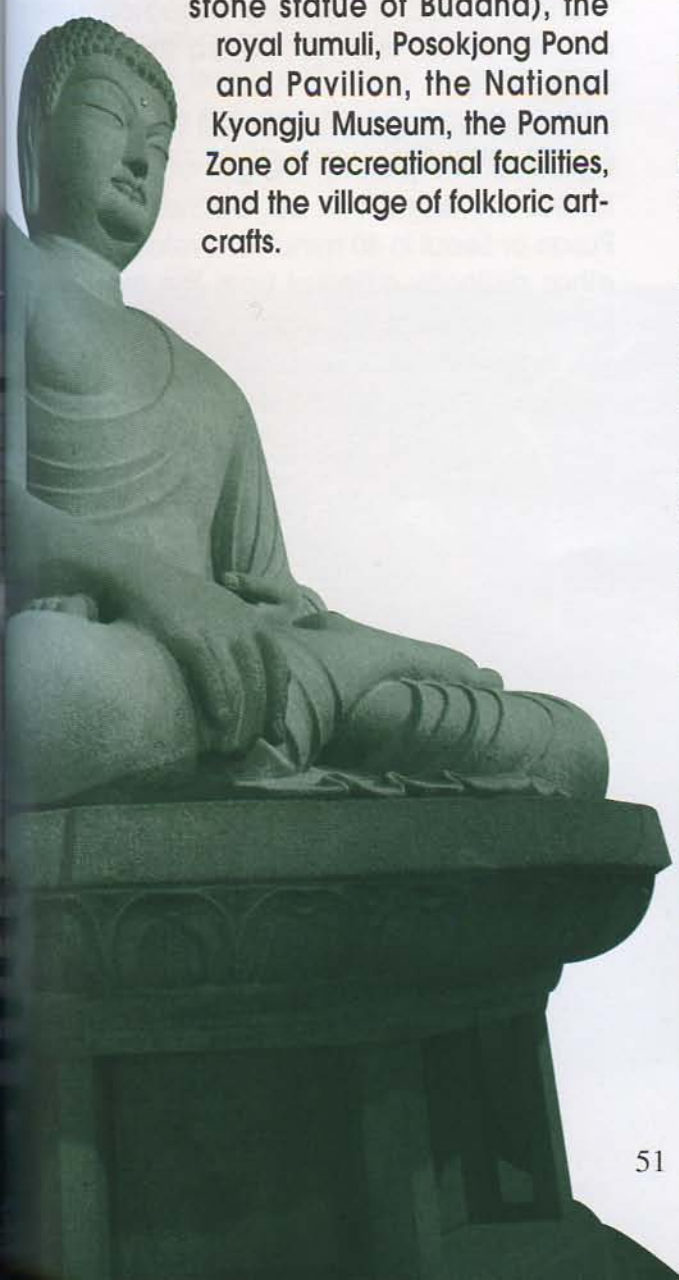

Olympic Main Stadium at Chamshil and the Olympic Park, the sites of the 1988 Olympic Games held in Seoul, are the most recent tourist attractions.

Kyongju

Kyongju, about an hour ride by car from Pusan, is the 1,000-year-old capital of the kingdom of Shilla(57 B.C.-935 A.D.) age of ancient Korean history. It was the cradle of Korea's ethnic culture and now is a living museum without walls, abounding in royal tombs, Buddhist temples, pagodas, Mountain fortresses and the sites of many historic remains. With many large-scale sightseeing complexes scattered within the city, it is one of the most exciting courses for tourists from abroad.

Not to be missed in sightseeing in Kyongju must be Pulguksa Temple, the largest in Korea, Sokkuram(a grotto for a huge stone statue of Buddha), the royal tumuli, Posokjong Pond and Pavilion, the National Kyongju Museum, the Pomun Zone of recreational facilities, and the village of folkloric artcrafts.

Mt. Sorak National Park

Mt. Sorak, called the most beautiful mountain in Korea, beckons visitors throughout the year.

Visitors are captivated by its awe-inspiring rocks and boulders in every imaginable shape, waterfalls, valleys, thick forests, rare species in flora and fauna and a number of historic sites and remains.

Mt. Sorak changes its costume every season: in spring with fresh-green buds and flowers, in summer in dark greenery, embroidered with white stripes of waterfalls and rushing streams, in autumn in an embroidery of colored leaves and in winter in the white pureness of snow and sheer tranquility.

Hanryo Waterway

Hanryo Waterway, Korea's sole national marine park, includes extensive waters of 2,438 square kilometers along the shore of the south sea, with a scattering of 115 inhabited islands and 253 uninhabited islets. The waterway is now being developed to become one of the best marine tourism locations of the world.

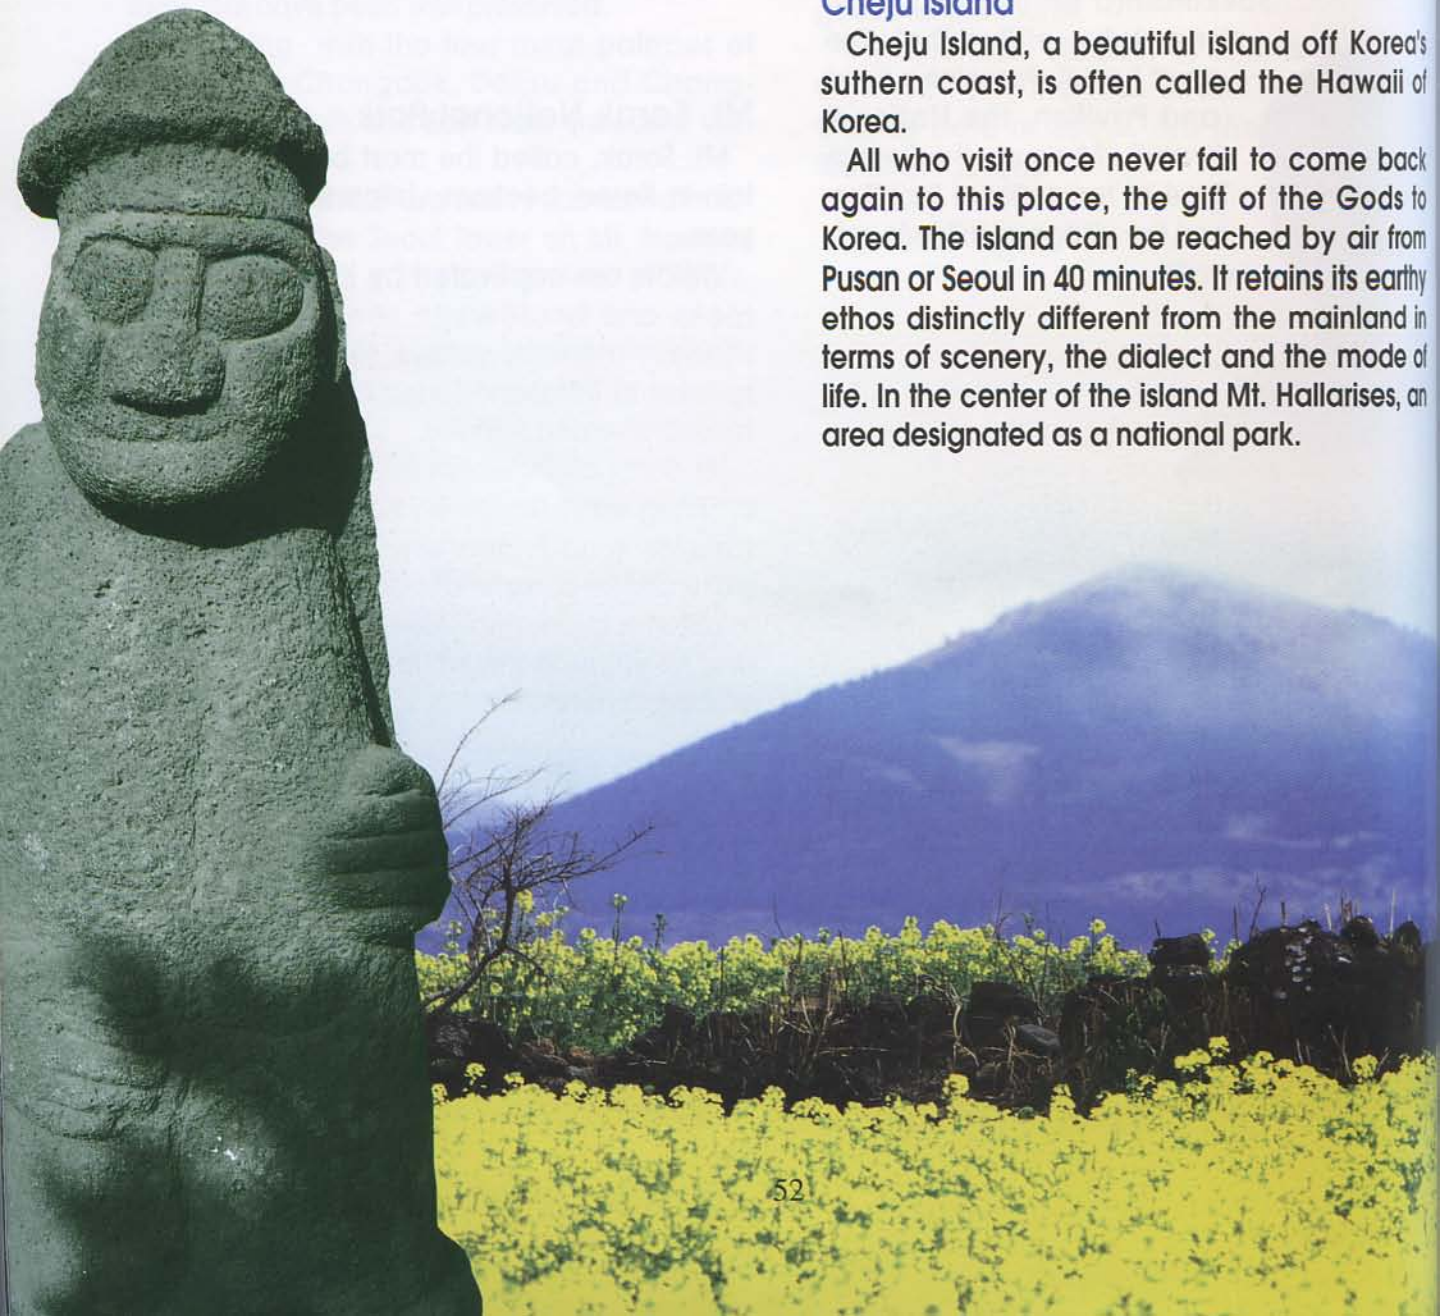

Cruising on the water one discovers a number of big and small islands scattered around over a far-reaching perspective,

Cheju Island

Cheju Island, a beautiful island off Korea's suthern coast, is often called the Hawaii of Korea.

All who visit once never fail to come back again to this place, the gift of the Gods to Korea. The island can be reached by air from Pusan or Seoul in 40 minutes. It retains its earthy ethos distinctly different from the mainland in terms of scenery, the dialect and the mode of life. In the center of the island Mt. Hallarises, an area designated as a national park.

Culture

Throughout a long history replete with hardships and vicissitudes, Korea has managed to retain its unique 5,000-year-old ethnic culture.

The main religions are Buddhism Protestanitism and Catholicism. Buddhism came in the era of the kingdom of Shilla, and Catholicism toward the end of the Chosun dynasty.

In Korea there is a coexistence of highbrow and folk culture, with a vital development of the folkoric aspects for the commoners predominant in the latter.

There still abound a variety of seasonal festive and communal occasions throughout the year, handed down traditonally from bygone days, still cementing the communal bonds among the people through rites and gatherings for folk entertainment.

Taekwondo, Korea's traditional martial art, is now known all over the world since it was designated as one of demonstration events at the Seoul Olympic Games in 1988 and at the Barocellona Olympic Games in 1992.

A new synthesization of traditional and modern cultures has been vigorously created as a unique aspect of the growth of Korean culture.

Taste and Tradition of Korean Cuisine

Korean life has been ritual-ridden since olden tumes, necessitating the preparation of special dishes as befitting the occasion, enriching its dietary culture with a number of ethnic dishes.

Even in the days of handy instant food, Koreans prefer a table where a variety of dishes are all offered not as a course but as a set.

What food is the representative of Korean cuisine?

Without a doubt the food is 'Kimchi.' The ingredients include salted cabbage and turnip spiced with hot pepper, pickled fish, ginger, garlic, leeks, scallions and other condiment that are disigned for long preservation. 'Kimchi' is a must dish in Korean meals.

'Kalbi' also is one of most favorite dishes of foreigners. Beef or pork ribs are first marinated in soysauce, garlic, scallions, black pepper, and sugar and then cooked.

The traditional way of cooking over a charcoal fire is preferred as a better taste results.

'Shinsullo' (Saint's heavenly furmace) is a bronze or silver bowl with a small chimney in the middle.

Korean Traditional Costume Hanbok

Hanbok, the traditional Korean costume, is unique in its elegant contour lines and in its aesthetic beauty. When it comes to dressing up with dignity and grace, ordinary clothing is no match for hanbok.

Nowadays, hanbok is more preferrably worn by young women at the engagement party or on the wedding day. People also wear hanbok on festive days and holidays and as a formal dress to social functions.

INTRODUCING THE FIRST GOLF BALL WORTH ITS WEIGHT IN GOLD.

Take a Gold Summit out for a spin and discover how our golf balls can help you hit gold.

For decades, man has attempted to increase the golf ball's distance without sacrificing control, feel and trajectory. Now, after years of exhaustive research and testing, Fantom has accomplished this feat with the Gold Summit.

The top ball in power and distance, the Gold Summit is available in 90 and 100 compression, providing all golfers with increased power and distance off the tee.

The hyper-energized core, refines from space age materials, maximizes the initial velocity and ultimate distance, yet unlike other two piece balls, creates a dynamic resiliency.

Its 416 dimple deliver unparalleled aerodynamic performance, and the nine sided octahedron dimple design contains three different sized dimples, each with its own unique function. This provides golfer with a smooth rolling ball and greater in-flight stability off the tee.

The result? A new generation in power and distance, designed to explode down the fairway like no other ball in its league.
