I am delighted to take part in this year's Awards Presentation Ceremony, and to witness the birth of yet another group of outstanding young people. They have made, and will no doubt continue to make valuable contributions to Hong Kong in their respective areas of work.

MESSAGE FROM CHAIRMAN OF PANEL OF JUDGES

Our community needs young men and women of ability and dedication- and they should be recongnised for their outstanding qualities. To select ten from among the many outstanding young persons from all walks of life has never been an easy task but always a most rewarding and learning experience.

I feel greatly honoured to have been invited by the Hong Kong Junior Chamber of Commerce to participate again in this year's Selection and compliment them on this very meaningful project which started 22 years ago.

I also wish to congratulate all those who have been selected and convey to every participant my warmest good wishes for their continued good work and success in the years ahead.

SIR ROGER LOBO, *CBE., LL.D., JP.*
CHAIRMAN, BROADCASTING AUTHORITY

MESSAGE FROM PANEL OF JUDGES

Taking part in the judging of candidates for the Ten Outstanding Young Persons award by the JAYCEES is a testing but rewarding experience. The panel of judges come from different walks of life and, as has been the experience in past years, was able to reach agreement on the difficult decision on who to include.

Those selected are a credit to the coming generation of leaders in all sectors. They give us all confidence that Hong Kong will be well served by its leaders for many years to come.

A first requisite for nomination is success in the candidates chosen field of work, whatever that is. We have seen candidates from a great variety of callings.

A second requirement, in addition to excelling in his own work, is that the candidate has made a substantial contribution to the life of Hong Kong outside his normal activities.

It is not easy to combine these two requirements. Those that do can justifiably be described as outstanding. In this context they are outstanding *young* persons so there is still a lifetime of service in front of them.

I congratulate all those who have been nominated this year and wish them every success in the years ahead.

DENIS BRAY *C.M.G., C.V.O, J.P.*

MESSAGE FROM PANEL OF JUDGES

It is both a privilege and honour for me to have been invited by the Hong Kong Junior Chamber of Commerce to serve as a member of the Judging Panel of this year's "Ten Outstanding Young Persons Selection".

To start this brief message to the souvenir programme, I wish to extend to all the award-recipients my warmest congratulations. These aspiring young men and women were selected after a lengthy and thorough process and I am extremely happy that through this selection, their outstanding achievements are being publicly acknowledged and recognised by the community at large.

It is also worth mentioning that these winners have all expressed a strong sense of commitment to the future of Hong Kong, which I believe is extremely important to the future well-being of this territory. Hong Kong, in its lead up to 1997, relies heavily on its human resources and it is well recognized that we must maintain the quality of this valuable asset in order to ensure our economic success in the years ahead.

I wish to take this opportunity to commend the Hong Kong Junior Chamber of Commerce and especially the Chairman and members of the Organizing Committee for making this prestigious annual event a memorable occasion.

INTRODUCTION OF TOYP SELECTION 1992

INTRODUCTION

The history of the Ten Outstanding Young Persons Selection dated to 1938 when the American Junior Chamber introduced this project to its community. Result proved that many of their recipients had become eminent figures later in their career including their late President John F. Kennedy and his successor Richard Nixon.

Prompted by the overwhelming success of this project overseas, Hong Kong Jaycees organized our very first selection in 1970 under the patronage of his Excellence the Governor of Hong Kong. The Selection had become an annual project of the Hong Kong Junior Chamber since then and is now its 20th year of history. It has grown with such prominence that the HKJCC's parent organization, the Junior Chamber International, has also adopted the same idea and introduced the Ten Outstanding Young Persons of the World Selection in 1983. The HKJCC is an organization which aims to provide training opportunities for the young to develop their leadership skill and social responsibility that cater to meet the need and develop positive changes in our society.

Dr. MAK Hon-fai

麥漢輝

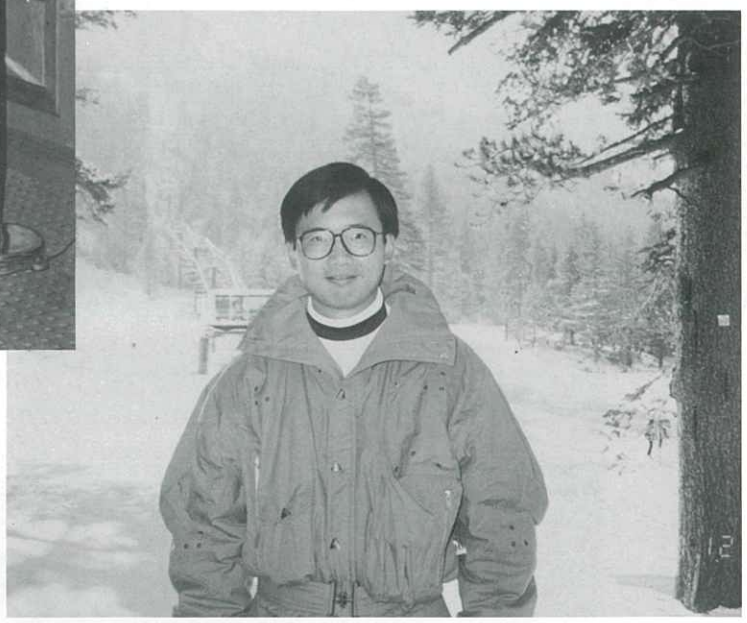

Dr. Mak Hon-fai was qualified as a medical doctor in 1988. He is currently working in the department of Chemical Pathology at the Prince of Wales Hospital.

While he was studying medicine at the University of Hong Kong, he was a recognized and dedicated student leader. He had organised a joint project "Youth and You 1982" with student unions of over 30 secondary schools. This first time movement resulted in Hon-fai being invited as a sub-committee member of the Law Reform Commission to review the age of majority.

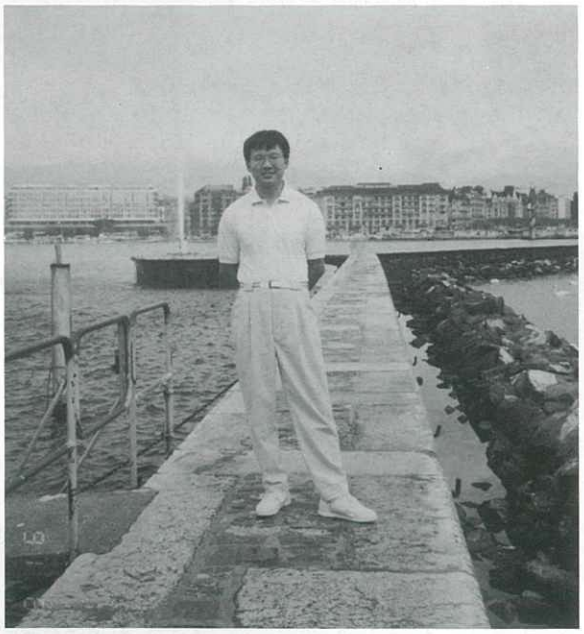

Hon-fai believed in preventive medicine through health education. He has been a regular speaker in the RTHK Radio Doctor Programme at lunch hours since 1988. He has also been contributing articles to help the general public understand more about the mechanism of different diseases.

By providing free medical consultation and organising seminars for the Home of Love Street-sleepers Shelter, various elderly hostels and of Tung Wah Group of Hospitals, Hon-fai tries to reach out to the underprivileged and those incapable of seeking help themselves. Seeing the importance of educating front-line health workers, Hon-fai is also active in giving lectures at the General Nursing Schools, Auxiliary Medical Services, St. John's Ambulance Brigade, HK Red Cross and the Chinese University of Hong Kong.

SIU Chi-kong

蕭智剛

A former triad gangtser, Siu Chi-kong became a drug addict when he was a teenager. At the age of 20, he was approached by a social worker who then changed his whole life. With the assistance and encouragement from the social worker and his own determination, Chi-kong successfully quit drugs and became a Christain. He then set out his mission to be a social worker. Having realized that he could not achieve this goal without obtaining formal education and training, Chi-kong returned to school and later on, he was able to complete a social work course and awarded the Diploma in Social Work in the Hong Kong Polytechnic.

His dedication towards helping problem youth are reflected in the many areas of his work which include published articles in various magazines on youth and drug problems, sharing his experiences and insights as a regular guest speaker for schools and youth centres; as trainer, counsellor and leader in outward bound courses. Recently he entered a two-year contract with a school to run an intensive counselling programme to cater for problem students. Because of the tremendous success of this programme, recommedations are now being prepared to the government to initiate similar programmes. His musical talent as a song writer is also recognised by the Composers and Authors Society of Hong Kong Limited of which he was admitted in 1981

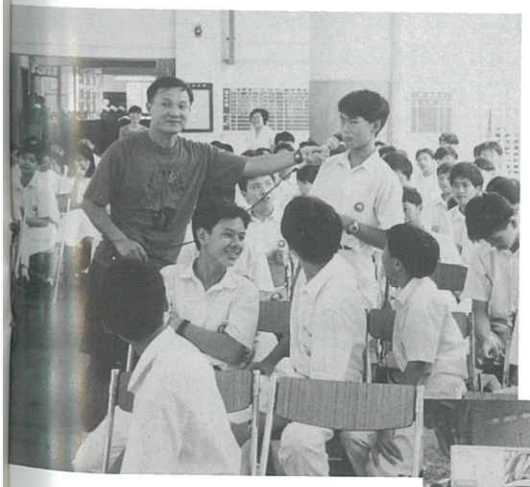

The courage, determination and dedication exemplified by Mr Siu have earned him the honour of this privileged award.

TSOI Ting-kwok, Peter

蔡定國

After working at the Government Mental Health Service for almost ten years, Dr. Tsoi has now established his own practice. As a psychiatrist, he extends the benefit of his expertise beyond his clients through various voluntary agencies, serving as honorary consultant to many counselling centres and school social work units. He spends many of his lunch hours giving talks and conducting case conferences. People who know Peter are often impressed by his positive attitude and seek his support and encouragement at times of difficulties.

In 1988, Peter joined the Harmony House-the first agency in Hong Kong to provide services to battered women. Under his capable chairmanship in the past four years, the Harmony House has developed and extended its services considerably, becoming a member of the Community Chest in 1989 and subvented agency in 1989. Peter feels that he has been able to steer the group from being oriented purely towards women's rights issues to cater more for the medical and social needs of battered women. He acknowledges that primary prevention is very difficult, but hopes that his work will raise the public's awareness of the extent of the problem.

Apart from his involvement in the Harmony House, Peter also provides extensive support to the Hong Kong Federation of Youth Groups. As Vice-Chairman of the Development Committee, he gives his input as a psychiatrist so that psychological issues of adolescence are taken into consideration in policy formation and decision making.

Peter has no plan to leave Hong Kong or going into politics. He is determined to make his best efforts in serving the community and leading community projects on the prevention of spouse abuse and youth counselling.

WONG Fai, Philip

黃瑋

Philip was educated in Canada where he obtained his university degree in Business Adminstration and Computer Science. Upon his return to Hong Kong in 1981, he turned down an offer of a comfortable position in his father's business to pursue his interests in a computer-related career. Starting as a modest sales trainee in 1980, he has managed to climb the ranks of the corporate ladder within a single decade. Today, Philip is the managing director for Asia Pacific of a Fortune 500 computer company.

Philip's contributions to the community are also far-reaching. He founded the Hong Kong IT Charity Fund Project. The idea originated in 1988 when he made a decision to cut the Christmas card expenses of his company and called on fellow computer professionals to do their part for the disadvantaged after hearing the news of a little girl left orphaned when her mother was starved to death at home.

Behind the zeal and enthusiasm for professional and community achievements, Philip places high value on business ethics and is always ready to share his doctrine with his associates. He currently sits on the Advisory Committee of City Polytechnic of Hong Kong's Technology Division and Hong Kong Polytechnic's Industrial Centre. He is also the Honorary Advisor to the Hong Kong Institute of Marketing.

Looking ahead, Philip has identified a new challenge - to establish a Hong Kong based hi-tech conglomerate, He is also keen to transfer his experience for the benefit of others.

YUEN Tak-tim, Anthony

阮德添

Anthony Yuen was born in China and came to Hong Kong at seven. He graduated from the Chinese University and started his first executive training with a British insurance underwriting & broking firm. Anthony described his entering into the insurance profession by chance.

At the age of 35, Anthony became the managing director of an insurance consultant company. Using tenacious marketing techniques, Anthony re-oriented the sales strategies and successfully brought what had previously been a non-performing company to become now one of the top five insurance brokers in Hong Kong with a multi-million business turnover. In recognition of his work, the Chairman sent him on a three-month full time training programme at Havard University.

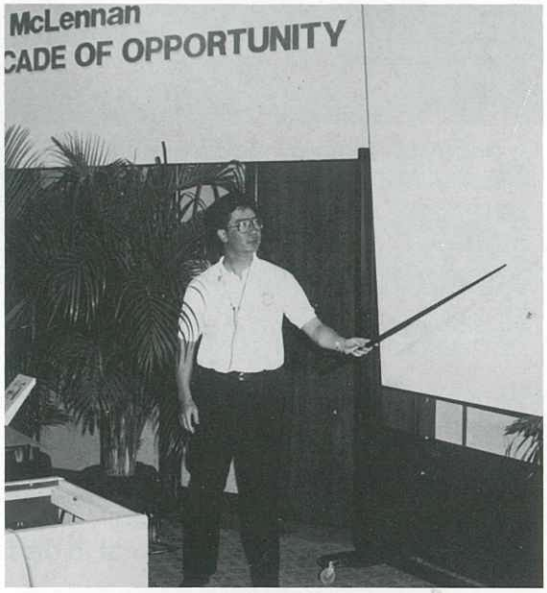

Apart from work, Anthony is always enthusiastic towards community involvement. He has been Director of Hong Kong Society of Insurance Brokers since 1988, and is currenty a member of Government Insurance Advisory Committee, The Transport Advisory Committee and The Board of Kowloon Canton Railway Corporation. He has also served at the North District Board for 9 years since 1982.

In 1988, Anthony was invited by the Governmemt to sit on the Consumer Council. Since then, he has actively sought to raise the public's awareness of their rights. He is angered by the way in which companies often act irresponsibly to the public and is keen to prevent Hong Kong from becoming a dumping area of dangerous goods. His studious efforts in promoting consumers' rights are largely recognised by the public.

CURRENT FACTS

NAME: Junior Chamber International (JCI), the name of which was changed from the previous Jaycees International to the aforesaid name in the Sydney Congress in 1988,is a worldwide association. The Junior Chamber International welcomes young people between the ages of 21 and 40, from all nationalities, race and religions.

MEMBERSHIP: Over 400,000 in nearly 13,000 communities throughout more than 80 member nations.

PURPOSES: The purposes of the Jaycees, as outlined in the JCI Constitution, are "to contribute to the advancement of the global community by providing the opportunity for young people to develop the leadership skills, social responsibility and fellowship necessary to create positive change".

HISTORY: The organization was founded in St. Louis, Missouri, U.S.A. by Henry Giessenbier on October 13, 1915. From then on, the Jaycee movement travelled across national borders, and on December 11, 1944, representatives from eight nations met in Mexico City to inaugurate the Jaycees International (JCI) as a worldwide organization.

HEADQUARTER: The Junior Chamber International (JCI) Secretariat is located in Coral Gables, Florida, U.S.A. With a staff of 35, JCI provides its Local and National Oraganization Members development services in different languages. The chief administrative officer is the Secretary General .

PRESIDENT 1992: Albert Hiribarrondo

THEME: Each year, Junior Chamber International adopts a major emphasis theme program which is implemented on worldwide basis. The theme that is selected relates to major problems with universal significance. In this theme program, members can select a number of specific projects that are most relevant to the needs of their respective communities.
The theme adopted for 1992-1996 is "The Age of Global Citizenship" with the subthemes of Economic Development, the Future of Children, and the Environment. Without a favourable economic environment, companies and governments cannot guarantee education and health for our children. When economic growth means more pollution, the very future of our children becomes bleak. Children are both the reason for, and the key to, the protection of earth's environment. A new, and better global environment depends on global thinking , action throughout all levels of society today, if we are to secure the fate of our environment.

AREA OF OPPORTUNITY: JCI promotes the adoption, by national and local organizations, of a balanced program of activities which will offer the membership with individual, management, community and international opportunities.

RIGHTS OF THE CHILD: JCI recognizes and supports the United Nation Declaration of the, Rights of the Child. In 1979 Jaycees throughout the world conducted programs which directly affected the lives of more than eleven million children. In 1982 and subsequent years, national and local organizations have and will conduct permanent and continuing programs to cater for the basic needs of children as set out in the Declaration.

ANNUAL MEETING: The 47th World Congress will be held in Miami,U.S.A.

ORGANIZING COMMITTEE

ORGANIZING COMMITTEE OF TOYP SELECTION 1992

THE OUTSTANDING YOUNG PERSONS' ASSOCIATION

The Outstanding Young Persons' Association, TOYPA in short, was formed in 1977. The Association is made up of awardees of the Ten Outstanding Young Persons Selection. Membership of TOYPA exceeds one hundred persons.

The Outstanding Young Persons' Award not only gives proper recognition to the achievements of the recipients, but also carries with it certain responsibilities. All of those selected as Outstanding Young Persons are expected to make further contributions to the community of Hong Kong and to serve as inspirational examples to other young people. It was with this spirit that recipient of the Award work as a united group to serve the community.
